Shadow Place:

The Intelligence of Place Jeff Malpas, 2015-10-22 Place has become a widespread concept in contemporary work in the humanities creative arts and social sciences Yet in spite of its centrality place remains a concept more often deployed than interrogated and there are relatively few works that focus directly on the concept of place as such The Intelligence of Place fills this gap providing an exploration of place from various perspectives encompassing anthropology architecture geography media philosophy and the arts and as it stands in relation to a range of other concepts Drawing together many of the key thinkers currently writing on the topic The Intelligence of Place offers a unique point of entry into the contemporary thinking of place into its topographies and poetics providing new insights into a concept crucial to understanding our world and ourselves

The Storyteller's Shadows Bill Reed, 2018-03-03 In a volume containing 14 original plays including three shadow play adaptations of Gogol Morton and Runyon classics the author resurrects a sadly neglected theatre genre the shadow play combining traditional shadow techniques with normal acting to create full bodied mainstream plays
