Reina,1984 Describes the Spanish conquest of Guatemala looks at the remnants of Mayan culture today and recounts the author's experiences among the modern Maya **Crosscurrents in Indigenous Spirituality** Edward Cook,2016-05-18 The resurgence of indigenous cultures and the reappearance of their ancient spiritualities during the 1990s is of great interest to social scientists Several such cultures are featured in this book The indigenous populations of struggling multi ethnic democracies in Latin America are demanding to be integrated into the national mainstream together with their holistic values of family economics and ecology Institutional Christianity is being challenged by indigenous theologies that are critical of both traditional Christianity and liberation theology While some see here a danger of syncretism these developments can be experienced as a breath of fresh air Much has been said about the Mayas but they have not been allowed to speak for themselves anthropologist Rafael Girardi 1962 This book is an attempt to allow religious spokespersons from a very ancient and creative civilization to share their faith which has remained hidden for five centuries

Mayalogue Victor Montejo,2021-10-01 In Mayalogue Native Mayan scholar Victor Montejo provides an alternative reading and interpretation of cultures challenging Western ethnocentric approaches that have marginalized Native knowledge and worldviews in the past He proposes instead a methodology for studying culture as a unified whole a radical departure from the compartmentalized sections of knowledge recognized by Western scientific tradition Offering a strong critique of traditional anthropological studies with its terms and categories that have denigrated Indigenous cultures throughout the centuries Montejo's postcolonial work aims to dismantle the colonialist construction of Indigenous cultures giving way to a Native approach that balances insider and outsider descriptions of a particular culture Developed from an Indigenous Maya perspective Mayalogue is a contribution to the dialogue between Indigenous and non Indigenous scholars students and general audiences in the social sciences and humanities and will be an essential text in decolonizing the minds of those who engage in the study of cultures anywhere in the world in the twenty first century **Forest Society** Norman B. Schwartz,2016-11-11 In recent years Mesoamerican anthropologists have been shifting the focus of their research from structural functional analyses of small communities to studies of communities as the products of the interaction of microsocial and macrosocial processes Greater attention is being given to relationships between ecology and society between state power and local community culture and among world economics regional politics and subregional sociocultural patterns Forest Society examines the social history of Peten in the lowlands of Northern Guatemala in the context of these changing relationships The author contends that for 250 years roughly from the 1720s to the 1970s the sociocultural system of Peten endured with remarkable continuity not in spite of changes in the hinterland region but to an important degree because of

them During that time there was relatively little change in the socioeconomic composition of and the relationships between Peten s various social sectors and ethnic groups Norman B Schwartz argues that relationships between the material base ecology technology and economy of society in Peten demography and the struggle of individuals and groups to control resources gave Peteneros an opportunity and at the same time compelled them gradually to build a stable moderate society marked by continuity of social status and commutative connections between ethnicity community and social class He also discusses the new colonization of the 1970s and the disastrous civil war of the 1980s and the reasons why these changes are finally eroding the stability of Peten s society Forest Society will interest scholars and students working in the fields of anthropology history and Latin American studies
