Shadows In The Cave Mapping The Conscious Universe:

Shadows in the Cave Graham Dunstan Martin,1990 *Space Travelers and the Genesis of the Human Form* Joan D'Arc,2000 Can Darwinian evolution actually prove that we are alone in the Universe This book illustrates that Darwinian evolution is not an empirically predictable or testable scientific paradigm Also shows that ancient artifacts on Mars and the Moon are evidence of Game Wardens in our own solar system Could the Earth be a controlled DNA repository for the ongoing creation and dissemination of life forms including humans The author puts forth compelling evidence in this well researched work *Number Synchronicity* Skot Jonz,2004-09-27 Number Synchronicity A Beacon of Light for the Souls Journey stands as a definitive exploration of a phenomenon affecting millions of people around the world In exploring the inexplicable it becomes necessary to go beyond the amusement of numerology books that show how to gain insight from numbers in a name or birth date Plenty of good books for that already exist Bridging the gap between scientific objectivity and outrageous speculation Number Synchronicity maintains the middle path In pursuit of the truth seemingly separate threads weave the fabric of a new understanding Abundant facts and convincing evidence equate number synchronicity to a beacon of light in a storm providing guidance and comfort during times of chaos transition and uncertainty *The Medium Picture* Roy Christopher,2025-10-15 The ever evolving ways that we interact with each other our world and ourselves through technology is a topic as worn as the devices we clutch and carry every day How did we get here Drawing from the disciplines of media ecology and media archaeology as well as bringing fresh perspectives from subcultures of music and skateboarding The Medium Picture illuminates aspects of technological mediation that have been overlooked along the way Roy Christopher s high tempo lucid prose shows us how immersion in unmoored technologies of connectivity places us in a world of pure media and redefines who we are how we are and what we will be **Phenomenal World** Joan D'Arc,2000-11 For centuries mankind has been exploring the nature of reality The materialistic scientific worldview would have us believe that physically measurable phenomena are all that exist Yet the answers to the key of reality go far beyond this mindset This book explores the clues we have about the nature of reality especially those aspects that cannot yet be proven If we can understand the most baffling aspects of reality then we will move closer toward understanding its ultimate cause and nature *Ecomysticism* Carl von Essen,2010-10-19 Explores the philosophy science and spirituality of nature mysticism and its Green calling Offers a solid bridge between spiritual practice and environmental activism Reveals how we can heal the environment by renewing our connection to it Shows how spiritual encounters in nature are healing the Nature Deficit Disorder of our psyches and bodies Many have been struck by a majestic moment in nature a sole illuminated flower in a shady grove an owl swooping silently across a wooded path or an infinitely starry sky and found themselves in a state of expanded awareness so profound they can feel the interconnectedness of all life These trance like moments of clarity unity and wonder often incite a call to protect and preserve the earth to support Nature as she supports us Termed nature

mysticism people from all cultures have described such experiences However the ever increasing urbanization of the world s population is threatening this ancient connection as well as the earth itself In Ecomysticism Carl von Essen explores nature mysticism through the recorded experiences of outdoor enthusiasts as well as scientific studies in biology psychology and neuroscience Citing consciousness scholar William James and a variety of well known nature lovers such as Ansel Adams Henry David Thoreau and Ralph Waldo Emerson von Essen shows how the spiritual transcendence from an encounter in nature like other mystical experiences is healing the Nature Deficit Disorder of our psyches and bodies leading to an expansion of our worldview and a clearer understanding of our self and of our natural world Offering a solid bridge between spiritual practice and environmental activism von Essen s spiritual ecology reveals how only through a renewal of humanity s spiritual connection to nature can we effect true environmental healing

The New Testament as True Fiction Douglas Templeton,2004-11-24 An original provocative and thoughtful series of readings of the New Testament and extra biblical texts Making forays into literary criticism philosophy and theology Templeton draws upon a rich diversity of sources He proposes that we read the New Testament not as history true or false in what is still the dominant hermeneutic but rather as true fiction

Does it Matter? Graham Dunstan Martin,2005 Materialists claim that the mind consciousness life evolution and the universe can be explained as the purposeless dance of unconscious particles governed by chance This books asks does materialism make sense Graham Dunstan Martin delves into areas as diverse as quantum physics cosmology artificial intelligence brain science biology mysticism and philosophy to assess the probabilities that the materialists are right Are we he asks living souls Does our universe in fact have a Designer He concludes that computers will never become conscious that the mind is not the same as the brain that we genuinely and creatively possess free will and that our experience of diverse levels of consciousness simply cannot be explained by materialism This book is for all enquiring minds who are dissatisfied with the current reigning creed

The Encarta Book of Quotations Bill Swainson,2000-09-30 Here are 25 000 quotations drawn from the history politics literature religions science and popular culture of the world ranging from the earliest Chinese sages through Shakespeare to the present day

Living on Purpose Graham Dunstan Martin,2008 Living On Purpose addresses several large issues including the problem of evil the mystery of the afterlife and evidence for a spiritual dimension to human experience Ultimately the author insists that our human intuitions offer genuine hope of a moral and rational order in the universe
