Selling Shaker Stephen Bowe, Peter Richmond, 2007-01-01 The simple yet striking lines of Shaker design grace much of the furniture we see in high end department stores and beautiful examples of it adorn the pages of Architectural Digest and House Beautiful How did this style evolve from its origins in a humble small religious community to the international design phenomenon it is today This illustrated study explores the emergence of the Shaker style and how it was vigorously promoted by scholars and artists into the prominence it now enjoys The heart of the Shaker style lies in the religious movement founded in the eighteenth century where Stephen Bowe and Peter Richmond begin their chronicle From there the authors chart the evolution of the style into the twentieth century particularly in the hands of design media scholars and art institutions These Shaker agents repositioned Shaker style continuously from local vernacular to high culture and then popular culture Drawing on a rich array of sources including museum catalogs contemporary design magazines and scholarly writings Selling Shaker illustrates in detail how the Shaker style entered the general design consciousness and how the original aesthetic was gradually diluted into a generic style for a mass audience A wholly original and fascinating study of American design and consumption Selling Shaker is a unique resource for collectors scholars and anyone interested in the cultural history of a design aesthetic
