FAIRCHILD,1972 **Edinburgh Companion to Shakespeare and the Arts** Mark Thornton Burnett,2011-10-12 This authoritative and innovative volume explores the place of Shakespeare in relation to a wide range of artistic practices and activities past and present *Shakespeare's Pluralistic Concepts of Character* Imtiaz H. Habib,1993 The presentation of a complex character such as Shylock bears resemblance to the technique of anamorphic portraiture and trick perspective in the sense that seen one way he appears a villain but seen another way he appears a persecuted victim The clashing and merging of opposed frames of ideological reference that cannot be held apart or resolved and that remain in a kind of uneasy balance may be a technique of comic characterization that exploits relativism and ambiguity in the presentation of human personality and self on stage A similar technique can be seen at work in the Histories in the characters of Richard and Bolingbroke who as has long been noted compete contrarily for the audience's ideological sympathies over the course of the play **Shakespeare's Artists** B. J. Sokol,2018-01-25 This study of the many poets musicians and visual artists portrayed or described in Shakespeare's plays and poems reveals a fascination with art and its makers that continued to influence Shakespeare's work throughout his career It also uncovers unexpected aspects of an enthusiastic Elizabethan consumption of artworks an enthusiasm that had significant bearing on the quite new profession that Shakespeare himself followed A high valuation placed on art and artists and at the same time certain fears of these and fears for these made for a very complex reception of the figure of the artist and Shakespeare's treatments were equal to that complexity **A Letter on Shakespeare's Authorship of the Two Noble Kinsmen and on the Characteristics of Shakespeare's Style and the Secret of His Supremacy** William Spalding,2020-09-28 Designers' Shakespeare John Russell Brown,Stephen Di Benedetto,2016-05-05 Theatre Design involves everything seen on stage not only scenery but costumes wigs makeup properties lighting sound even the shape and material of the stage itself *Designers' Shakespeare* presents and analyses the work of a half dozen leading practitioners of this specialist art By focusing specifically on their Shakespearean work it also offers a fresh exciting perspective on some of the best known drama of all time Shakespeare's plays offer an unusual range of opportunities to designers As they were written for a theatre which gave no opportunity for scenic support or embellishment designers are freed from any compulsion to imitate original practices This has resulted in the extraordinarily diverse range of works presented in this volume which considers among others the work of Josef Svoboda Karl Ernst Herrmann Ming Cho Lee Alison Chitty Robert Wilson Societas Raffaello Sanzio Filter Theatre Catherine Zuber John Bury Christopher Morley Ralph Koltai and Sean Kenny *Designers' Shakespeare* joins *Actors' Shakespeare* and *Directors' Shakespeare* as essential reading for lovers of Shakespeare from theatre goers and students to directors and theatre
