held with the Master P for a period of fourteen years covering different subjects of the Occult or Esoteric Philosophy which many students are familiar. Though it may not appear new to some this is the first time that a work of this nature has been published in the Spanish language since most of the books on these subjects are usually translations from the English, French and other languages. Very few books if any have been written about this particular for the Spanish speaking public. My sole function and responsibility in the preparation of this work is to be faithful and truthful to the teachings imparted by the Master and to put it in such a manner that it can be understood by all, not only the few. Finally I can only add that the purpose behind this book is to stimulate and thus awake all men and women of good will who earnestly aspire to a better understanding of some of the laws and principles which God has manifested throughout the Universe and which the Masters of the Wisdom have proclaimed thru the Ages. Ignacio González Martí, 1912 La poesía de Eloy Sánchez Rosillo Ricardo Escay Zamora, 2007 Eloy Sánchez Rosillo es el poeta murciano más valorado por los críticos de nuestro país hasta el punto de que ha sido distinguido recientemente con el Premio Nacional de la Crítica al mejor libro de poesía del año 2005 que es tanto el premio al mejor poeta. Comenzó a darse a conocer con su primer libro de poemas *Maneras de estar solo* que fue galardonado con el prestigioso Premio Adonais en 1977. Eloy Sánchez Rosillo fue una ventana abierta a la nueva poesía en los ochenta con una poesía de ritmo armonioso en la forma y de fondo difícilmente libre de toda carga efectista en uno u otro aspecto. Y es precisamente esa limpia transparencia en ambas vertientes lo que le da una poderosa carga emocional que hace que el lector se sienta como si él mismo fuera el poeta que escribe los poemas al tiempo que va desgranando su lectura. Relatos De La Morgue Zona Paranormal, *Relatos de la Morgue* Voces Silenciosas desde el Más Allá es una colección perturbadora e inolvidable de historias que emergen desde el lugar donde la muerte se convierte en rutina y lo inexplicable se vuelve parte del trabajo. Basado en testimonios de trabajadores forenses, vigilantes nocturnos, médicos, legistas y personal de limpieza, este libro te lleva al interior de las morgues más inquietantes del mundo hispano donde los cuerpos pueden estar inertes pero las presencias no. En estas páginas encontrarás cuerpos que se mueven cuando no deberían, expedientes con muertes sin causa clara y con rastros de algo más. Apariciones, susurros y sombras en salas refrigeradas. Experiencias paranormales vividas por quienes trabajan con los muertos. Relatos basados en hechos reales adaptados con precisión y dramatismo. Historias que dejan una sola pregunta en tu mente: la muerte es realmente el final. Este no es un libro para asustarte con fantasmas comunes. Es un descenso controlado a lo más íntimo de la muerte donde el silencio puede gritar y la oscuridad tiene memoria. Prepárate para descubrir lo que pasa cuando las luces se apagan y solo queda el frío acero de la mesa forense. OBRAS LITERARIAS José

Martí, 1908 **Curso elemental de física moderna ...** R. Pedro Marcolain San Juan, 1920 **Acerca de la generación y la corrupción. Tratados breves de historia natural.** Aristóteles, 2016-08-05 Este volumen incluye un estudio sobre el proceso de cambio y transformación en el mundo sublunar y varios escritos breves de temática psicológica emparentados tanto

con *Acerca del alma* como con los tratados de ciencias naturales de Aristóteles *Acerca de la generación y la corrupción* es una obra breve pero densa que trata una parte importante de la filosofía natural de Aristóteles la estructura del mundo sublunar y el proceso de cambio que en él se produce cuyo fundamento racional se quiere detectar y comprender a fin de probar la integridad del ser frente a la apariencia disolutiva de la diversidad y las mutaciones Este tratado sigue el mismo método que la mayoría de escritos aristotélicos tras enunciar el propósito y el contenido se examinan y someten a crítica las doctrinas anteriores sobre la cuestión y se procede al estudio de esta según las concepciones y observaciones propias En los *Tratados breves de historia natural* indagaciones acerca de diversos fenómenos fisiológicos y psicológicos se incluyen estudios sobre la sensación y lo sensible la memoria y la reminiscencia el sueño y la vigilia los ensueños la adivinación por el ensueño la longevidad y la brevedad de la vida la juventud y la vejez la vida y la muerte y la respiración En la interpretación moderna no necesariamente en su género estos pequeños estudios forman un conjunto no sólo por las referencias entre unos y otros sino porque en el primero se plantean algunas operaciones comunes al alma y al cuerpo que constituyen el objeto de los tratados siguientes En su forma actual proporcionan una especie de curso complementario del tratado *Acerca del alma* aparecido en esta misma colección Parten del principio de que los fenómenos psicológicos pueden explicarse como procesos puramente físicos y responden al proyecto aristotélico de situar los problemas relativos al alma humana en el marco general de los seres vivos Por eso además de con *Acerca del alma* estos tratados están muy relacionados con los varios de ciencias naturales que escribió el Estagirita
