Making Justice Our Project Teachers Working Toward Critical Whole Language Practice:

Making Justice Our Project Carole Edelsky, 1999 This book brings together whole language and critical pedagogy reading each in terms of the other and providing a new and politically valuable synthesis of the two A related aim of this volume is to bring together the community of whole language educators with educators who identify themselves with racial ethnic and other groups historically positioned as minorities The book thus develops a rich interrogation of whole language education from multiple perspectives After a foreword by Bess Altwerger and Elizabeth R Saavedra essays in the book are On Critical Whole Language Practice Why What and a Bit of How Carole Edelsky Understanding and Transforming the Meaning of Our Lives through Poetry Biographies and Songs Cecilia M Espinosa and Karen J Moore Exchanging Ideas and Changing Positions The Importance of Conversation to Holistic Critical Endeavors Marie Elaine Boozer Lisa Burley Maras and Bill Brummett Si Se Puede Teaching for Transformation Rebeca Garcia Gonzalez Pilar Mejia and Winnie J Porter Critical Literacy in a Fourth Grade Classroom Maria Sweeney Teaching without Charisma Involving Third Graders as Co investigators of Their Inner City Neighborhood Paul Skilton Sylvester A Conversation about Critical Literacy James Albright Susan M Church Sue Settle and Vivian Vasquez The Quality of the Question Probing Culture in Literature Discussion Groups Cynthia Lewis Third Class Is More Than a Cruise Ship Ticket Beverly Busching and Betty Slesinger Critical Literacy Teaching Reading Writing and Outrage Linda M Christensen Schooling for Gangs When School Oppression Contributes to Gang Formations Ramon A Serrano Probing the Invisible Life of Schools Bill Bigelow Stories of a Liberatory Pedagogy Rebecca Jarvis Leadership as Critical Practice A Work in Progress Susan M Church Transformative Learning through a Study Group Elizabeth R Saavedra Literacy Education as a Site for Social Justice What Do Our Practices Do Barbara Comber and Helen Nixon EF *Whole Language Teaching, Whole-hearted Practice* Monica Taylor, 2007 This seminal collection brings together the multiple perspectives of whole language educators over the course of the past thirty five years The essays illustrate the complex ways in which whole language teachers have been and continue to be political activists through their interactions with students the teachers beliefs about teaching learning and curriculum their commitment to critical thinking and social justice their collaborative engagements with other teachers their role as leaders of change in schools and communities and finally their activism in society Although many believe that we are living in a climate where the term whole language is considered taboo the contributors to this book demonstrate hopefulness for the future of whole language as Yetta and Ken Goodman write in the concluding chapter whole language is alive and well **Educational Justice** Howard Ryan, 2017-01-01 That education should instill and nurture democracy is an American truism Yet organizations such as the Business Roundtable together with conservative philanthropists such as Bill Gates and Walmart's owners the Waltons have been turning public schools into corporate mills Their top down programs such as Common Core State Standards track judge and homogenize the minds of millions of American students from kindergarten through high school But corporate funders would not be able to implement

this educational control without the de facto partnership of government at all levels channeling public moneys into privatization initiatives school closings and high stakes testing that discourages independent thinking Educational Justice offers hope that there is still time to take on corporatized schools and achieve democratic justice in the classroom Forcefully written by educator and journalist Howard Ryan with contributing authors the book opens with four chapters that discuss theories on teacher unionism social justice pedagogy and corporate school reform These chapters are balanced with four case study chapters documenting exemplary teaching and school site organizing practices in the field Reports from various educational fronts include innovative union strategies against charter school expansion as well as teaching visions drawn from the vibrant whole language movement Bold informative clearly reasoned this book is an education in itself a democratic one at that

analyses in the front seat without losing sight of individual and family level matters in the process It is comprehensive ground breaking and provocative and should help literacy researchers to think differently about the field Marjorie Faulstich Orellana School of Education and Social Policy Northwestern University No other publication that I am aware of brings together views from such diverse disciplines contributing to a comprehensive statement about early childhood literacy The Handbook not only reviews the current field of situated literacy but presents some important and exciting new research It is a significant resource which promises to become a landmark text Eve Bearne University of Cambridge Faculty of Education This Handbook brings together an astonishing array of writers who explore contemporary political cultural and cognitive understandings of early childhood literacy Literacy and literacy acquisition are broadly defined here to encompass not just traditional notions of reading and writing but multimodalities multiliteracies and critical literacies It is rich and comprehensive an invaluable resource for scholars educators and students of early childhood literacy Elsa Auerbach Professor of English University of Massachusetts Boston This book is unique in its broad consideration of topics and its global focus I particularly appreciate how the Editors have situated current research in an historical context They have also included development issues pedagogy research and the newest areas of interest critical literacy and popular culture Diane Barone University of Nevada Reno The editors and their contributors place a strong emphasis on literacy as a social practice that occurs outside school settings This broad interpretation is a healthy counter blast to the current political views and legislation in many developed countries and should be welcomed by practitioners Another very welcome dimension is the can do approach that celebrates young children s literacy achievements This is an informative and insightful text for researchers and students to dip into and think about for some years to come Marian Whithead writing in *Nursery World* An inspired and stimulating read aimed at researchers academics professionals and students in the fields of early years education and research and early childhood literacy It will also be of interest to those working in other disciplines such as cultural studies and sociology I think this collection of work by the range of authors some of which are the most distinguished and renowned in the field not only represents real value for money but also makes an essential in depth perceptive and invaluable contribution to this relatively new and dynamic field It offers some cutting edge contemporary and exciting material combined with well founded wisdom and indeed excellent sources for further reading *British Journal of Educational Studies* In recent years there has been a virtual revolution in early childhood studies with a mass of books and papers seeking to re examine and reposition childhood At the same time an equally significant area has developed within literacy studies reflecting a growing interest in the nature of literacy as a socially situated phenomenon There is increased interest in literacy as a multimodal concept in which symbolic meaning is a central concept rather than more conventional and narrower notions of literacy The Handbook of Early Childhood Literacy is central in providing access to all these different perspectives The Handbook offers a way through the vast diversity of publications on early childhood literacy by providing comprehensive and

The Most Important Work Kyle D. Shanton, 2015-05-27 This book is a collection of essays that reflect the desire and determination guiding many practitioners and researchers as they work together in more meaningful and relevant ways for literacy The essays are organized as three series of dialogues in which an academic scholar works with a practitioner or community leader on a particular struggle toward teaching learning and literacy Together they portray the reflexive relationships involved in their shared endeavor the

different struggles for sovereignty they encountered what they accomplished together and what they learned by honoring one another's knowledge and skill. The work presented in this book reflects intentional connections among practitioners and researchers in terms of how they engaged with children, youth, and families to compose their language lives and culture into literacy for personal, political, and practical purposes that both pertain to and transcend contexts of school. Moreover, these narratives highlight a shared commitment to frame and forge such work in nuanced terms of solidarity and sovereignty rather than as stark assertions of this is what needs to be done and this is how to do it.

Literary Practices As Social Acts Cynthia Lewis, 2001-07-01 This book examines the social codes and practices that shape the literary culture of a combined fifth-sixth grade classroom. It considers how the social and cultural contexts of classroom and community affect four classroom practices involving literature: read aloud, peer-led literature discussions, teacher-led literature discussions, and independent reading, with a focus on how these practices are shaped by discourse and rituals within the classroom and by social codes and cultural norms beyond the classroom. This book's emphasis on intermediate students is particularly important given the dearth of studies in the field of reading education that focus on
