Masculinities Harry Brod, Michael Kaufman, 1994-06-13 A new field of inquiry and growing interdisciplinary area men's studies is just now beginning to develop its own distinctive methodologies and perspectives as demonstrated in the pages of *Theorizing Masculinities*. This first major compilation of new theoretical work on men begins by presenting ideas borrowed from the disciplines that have fostered the study of masculinities: sociology, psychoanalysis, ethnography, and inequality. The following chapters explore many issues central to the study of men such as power, ethnicity, feminism, and homophobia. The contributors also provide theoretical explanations of some of the institutions most closely identified with men such as the military, sports, and the men's movement. The contributors to this volume come from disciplines as diverse as sociology, political science, industrial relations, philosophy, education, anthropology, gender studies, and literature. Together they make this benchmark volume the guiding set of theories on masculinities. *Theorizing Masculinities* is a comprehensive volume that will appeal to a wide range of students and scholars, especially those interested in gender, sociology, social theory, family studies, counseling, and psychology.

Pentecostalism and Witchcraft Knut Rio, Michelle MacCarthy, Ruy Blanes, 2017-10-29 This open access book presents fresh ethnographic work from the regions of Africa and Melanesia where the popularity of charismatic Christianity can be linked to a revival and transformation of witchcraft. The volume demonstrates how the Holy Spirit has become an adversary to the reconfirmed presence of witches, demons, and sorcerers as manifestations of evil. We learn how this is articulated in spiritual warfare in crusades and in healing or witch-killing raids. The contributors highlight what happens to phenomena that people address as locally specific witchcraft or sorcery when remolded within the universalist Pentecostal demonology vocabulary and confrontational methodology.

Population, Reproduction and Fertility in

Melanesia Stanley Ulijaszek, 2008-03-01 Human biological fertility was considered an important issue to anthropologists and colonial administrators in the first part of the 20th century as a dramatic decline in population was observed in many regions. However, the total demise of Melanesian populations predicted by some never happened; on the contrary, a rapid population increase took place for the second part of the 20th century. This volume explores relationships between human fertility and reproduction, subsistence systems, the symbolic use of ideas of fertility and reproduction in linking landscape to individuals and populations in Melanesian societies past and present. It thus offers an important contribution to our understanding of the implications of social and economic change for reproduction and fertility in the broadest sense.

Kinship, Networks, and

Exchange Thomas Schweizer, Douglas White, Douglas R. White, 1998-06-13 This collection of articles aims at revitalizing the study of kinship and exchange in a social network perspective. It brings together studies of empirical systems of marriage and descent with investigations of the flow of material resources in societies of Africa, Asia, the Pacific, and Europe. Restudies of classic ethnographic cases and fieldwork studies of kinship and exchange demonstrate how the social and material aspects of society are related and address issues of concern to anthropology and the neighbouring disciplines of history, sociology, and economics. This book marks the emergence of an era in the study of kinship and exchange using a productive combination of ethnographic substance with formal methods, one which leaves behind older structural functionalist and culturalist assumptions.

Leadership and Change in the Western Pacific R. Feinberg, K. A. Watson-Gegeo, 2021-01-07 An ethnographic exploration of the rise of new forms of leadership at community and national levels with islanders are synthesising traditional and Western models.

How to Become a Big Man in Africa Wale Adebani, 2024-08-06 Can subalterns transform themselves into members of the elite and what does it take to do so? And how do those efforts reveal the nature of ethnic politics in postcolonial Africa? *How to Become a Big Man in Africa: Subalternity, Elites and Ethnic Politics in Contemporary Nigeria* examines these questions by revealing how, through ethnic regional conflict, violence, and cultural activities, an artisan Gani Adams transformed himself into the holder of the most prestigious chieftaincy title among the Yoruba. Addressing persistent gaps in anthropological studies of the subaltern and of big men in politics through in-depth biography and rich social history, Wale Adebani follows Adams and other major figures in Nigeria's Oodua People's Congress (OPC) over two decades of ethnographic study and visual representations. Challenging existing models of African political mobility by leveraging his initial lack of formal education into a position of power, Adams moved from a radical lumpen and area boy to a big man who continues to struggle and reflect over the significance of his role as a cultural subject. Blurring the lines between tradition and modernity, Adams and his group have used Yoruba rituals to simultaneously claim authenticity and champion new movements for democracy and self-determination. *How to Become a Big Man in Africa* encourages us to understand the full complexity of Adams's political trajectory and how it reflects the structural and personal realities of

becoming a Big Man in the contemporary postcolony Ancestral Presence Eric Hirsch,2020-12-28 Ancestral Presence tells a history that has more than one history in it while also telling the story of the relation between worlds For the Fuyuge people of the Papuan highlands the past is not history in a conventional sense For them the world and its history derive from a creator force called Tidibe which is central to Fuyuge cosmology the Fuyuge are at the centre of the world But Fuyuge people are part of another history too they have experienced decades of mission and government influence from centres of power located elsewhere to which their mountain home is marginal and remote Through a detailed exploration of Fuyuge myth changes to ritual life and cosmology Eric Hirsch weaves an account of the relationship between these two histories He documents the real changes wrought by colonialism government and Christianity from the late nineteenth century to the turn of the millennium Yet this is not a story of continuity and change Hirsch demonstrates how transformation was always central to Fuyuge life changes brought by missionaries and government were processes they themselves initiated in the ancestral past through Tidibe the cosmological creator force Engaging in debates that have been pivotal to Melanesian anthropology the book presents an ethnographically rich account of a distinctive world cosmology and ideas of historical change It also raises questions regarding assumptions central to Western History its worldview and ideas of historical time **News as Culture** Ursula Rao,2010 More than just a fascinating description of newsmaking and practice in an Indian city this book has implications for theories of news and communication that make it a timely and significant contribution to the literature on journalism and newsmaking in the changing global environment Mark Peterson Miami University
