Making Of Meanders Comedy:

Plautus and the English Renaissance of Comedy Richard F. Hardin, 2017-11-08 The fifteenth century discovery of Plautus's lost comedies brought him for the first time since antiquity the status of a major author both on stage and page. It also led to a reinvention of comedy and to new thinking about its art and potential. This book aims to define the unique contribution of Plautus detached from his fellow Roman dramatist Terence and seen in the context of that European revival first as it took shape on the Continent. The heart of the book with special focus on English comedy ca. 1560 to 1640 analyzes elements of Plautine technique during the period as differentiated from native and Terentian considering such points of comparison as dialogue, asides, metadrama, observation scenes, characterization and atmosphere. This is the first book to cover this ground raising such questions as: How did comedy rather suddenly progress from the interludes and brief plays of the early sixteenth century to longer, more complex plays? What did Plautus mean to playwrights and readers of the time? Plays by Shakespeare, Jonson and Middleton are foregrounded but many other comedies provide illustration and support. **Roger**

Film, Environment, Comedy Robin L. Murray, Joseph K. Heumann, 2022-05-23 This book explores the transformative power of comedy to help connect a wider audience to films that explore environmental concerns and issues. This book offers a space in which to explore the complex ways environmental comedies present their eco arguments. With an organizational structure that reveals the evolution of both eco comedy films and theoretical approaches, this book project aims to fill a gap in ecocinema scholarship. It does so by exploring three sections arranged to highlight the breadth of eco comedy: I. Comic Genres and the Green World: Pastoral, Anti-Pastoral, and Post-Pastoral Visions; II. Laughter, Eco-Heroes, and Evolutionary Narratives of Consumption; and III. Environmental Nostalgia: Fuel and the Carnavalesque. Examining everything from Hollywood classics, Oscar winners, and animation to independent and international films, Murray and Heumann exemplify how the use of comedy can expose and amplify environmental issues to a wider audience than more traditional ecocinema genres and can help

provide a path towards positive action and change Ideal for students and scholars of film studies ecocriticism and environmental studies especially those with a particular interest in ecocinema and or ecocritical readings of popular films

Without the Least Tremor M. Ross Romero, SJ, 2016-03-31 A reading of the death of Socrates as a self sacrifice with implications for ideas about suffering wisdom and the soul's relationship to the body In *Without the Least Tremor* M Ross Romero considers the death of Socrates as a sacrificial act rather than an execution and analyzes the implications of such an understanding for the meaning of the *Phaedo* Plato's recounting of Socrates's death fits many of the conventions of ancient Greek sacrificial ritual Among these are the bath the procession Socrates's appearance as a bull the libation the offering of a rooster to Asclepius the treatment of Socrates's body and corpse and *Phaedo*'s memorialization of Socrates Yet in a powerful moment Socrates's death deviates from a sacrifice as he drinks the *pharmakon* without the least tremor Developing the themes of suffering and wisdom as they connect to this scene Romero demonstrates how the embodied Socrates is setting forth an *eikōn* of the death of the philosopher Drawing on comparisons with tragedy and comedy he argues that Socrates's death is more fittingly described as self sacrifice than merely an execution or suicide After considering the implications of these themes for the soul's immortality and its relationship to the body the book concludes with an exploration of the place of sacrifice within ethical life
