Greenberg,2005 The Cognitive Enrichment Advantage Teacher Handbook provides a theoretical framework teachers can use to help their students learn how to learn It builds upon an open and safe classroom atmosphere where students are encouraged to focus on the process of learning at least as much as the product The Handbook explains how teacher mediators employ guided discovery to help students socially construct a shared vocabulary as they focus on developing personal learning strategies The approach is based upon theory and research showing how cognitive enrichment can help develop flexibility in thinking This flexibility together with an understanding how feelings and motivation influence learning can help every student become a more effective life long independent and interdependent learner The approach has been used most often with marginalized students from preschool through adults in more than six countries **Growing Readers** Kathy Collins,2023-10-10 Primary grade teachers face an important challenge teaching children how to read while enabling them to build good habits so they fall in love with reading Many teachers find the independent reading workshop to be the component of reading instruction that meets this challenge because it makes it possible to teach the reading skills and strategies children need and guides them toward independence intention and joy as readers In Growing Readers Kathy Collins helps teachers plan for independent reading workshops in their own classrooms She describes the structure of the independent reading workshop and other components of a balanced literacy program that work together to ensure young students grow into strong well rounded readers Kathy outlines a sequence of possible units of study for a yearlong curriculum Chapters are devoted to the individual units of study and include a sample curriculum as well as examples of mini lessons and reading conferences There are also four Getting Ready sections that suggest some behind

the scenes work teachers can do to prepare for the units Topics explored in these units include print and comprehension strategies reading in genres such as poetry and nonfiction connecting in school reading and out of school reading developing the strategies and habits of lifelong readers A series of planning sheets and management tips are presented throughout to help ensure smooth implementation We want our students to learn to read and we want them to love to read To do this we need to lay a foundation on which children build rich and purposeful reading lives that extend beyond the school day The ideas found in Growing Readers create the kind of primary classrooms where that happens
