Cosmopolis Danilo Zolo, 2013-05-31 This volume makes a challenging critique of the idea of Cosmopolis that is the idea of world or global government In recent years this idea has been put forward as a way of averting the threat of war and international disorder and as a way of avoiding the destruction of the planet Proponents of this idea call for a radical reform of the United Nations which aims to legitimize this institution as an international police force and as a provider of global justice Zolo criticizes this new cosmopolitan philosophy and rejects the idea of trying to eliminate international conflict through the use of centralized and superior military force He seeks instead to develop a conception of international relations which takes account of their pluralistic dynamic and conflictual nature This conception moves away from the logic of hierarchical centralization which so dominates the UN Charter and towards the logic of weak interventionism and weak pacifism which relies on self organization co ordination and negotiation Timely provocative and iconoclastic *Cosmopolis* is an important contribution to current debates in politics international relations and social and political theory

An Introduction to Strategic Studies Barry Buzan, 1987-09-04 An Introduction to Strategic Studies addresses some of the major questions that govern both international relations and human survival This book provides a comprehensive introduction to the core concepts of contemporary strategic thinking It argues that strategic studies is about the impact of military technology on relations between states and that its specialised contribution must always be seen within the broader context of international economic and political relations
