The Bonds of Trade Mika Kallioinen, 2012-11-16 Pre modern long distance trade was conducted in a highly complex and uncertain environment Aside from the lack of personal security trade was characterized by slow communication asymmetric information and limited contract enforceability There was no state in the modern sense to protect merchants Despite these overwhelming problems trade and even overseas trade flourished in medieval and early modern Europe This book explores this paradox how could trade thrive and the economy expand under uncertainties of many kinds Over the past two or three decades enormous advances have been made in explaining how

institutions support the economy This book contributes to the intense discussion about institutions and institutional change It builds on the careful examination of long distance trade in the Baltic Sea region over a long period of time and presents a new method to identify past institutions It challenges previous attempts to explain the pre modern expansion of trade by institutions that governed intra group relations Mika Kallioinen argues that the fundamental problem of institutional development was how to create institutions that could advance a regularity of behavior between a large number of distant communities and between merchants who did not necessarily know one another The question was how to provide security and enhance trust when trading crossed the geographical cultural and political boundaries that separated communities This book extends the limits of our understanding of such inter community institutions and their implications for later economic development

The Mobilization and Demobilization of Middle-Class Revolt Daniel Ozarow, 2019-03-20 Adopting Argentina's popular uprisings against neoliberalism including the 2001-02 rebellion and subsequent mass protests as a case study *The Mobilization and Demobilization of Middle Class Revolt* analyzes two decades of longitudinal research 1995-2018 including World Bank and Latinobarometer household survey data along with participant interviews to explore why nonpolitically active middle class citizens engage in radical protest movements and why they eventually demobilize In particular it asks how do they become politicized and resist economic and political crises along with their own hardship Theoretically informed by Gramsci's notions of hegemony ideology and class consciousness Ozarow posits that to affect profound and lasting social change multisectoral alliances and sustainable mobilizing vehicles are required to maintain radical progressive movements beyond periods of crisis With the Argentinian revolt understood to be the ideological forerunner to the autonomist inspired uprisings which later emerged comparisons are drawn with experiences in the USA Spain Greece UK Iceland and the Middle East as well as 1990s contexts in South Africa and Russia Such a comparative analysis helps understand how contextual factors shape distinctive struggling middle class citizen responses to external shocks This book will be of immense value to students activists and theorists of social change in North America in Europe and globally

Sean Creaven, 2023-12-01 *Modernity and the Pandemic* Decivilization Imperialism and COVID 19 applies the tools of critical social theory to make sense of the COVID 19 crisis and presents a critical sociological analysis of aspects of the political and community response to the pandemic The book focuses on key themes integral to a sociology of pandemics in the global age Firstly Creaven argues that cultures of individualism and consumerism and of pervasive and deeply entrenched social inequalities that is decivilization significantly weaken the cause of public health by weakening the compliance of people with state mandated non pharmaceutical interventions including and especially physical distancing rules and encouraging vaccine hesitancy Secondly Creaven examines how interstate competition and imperial politics have undermined an effective global policy response to the COVID 19 pandemic Policy failure with regard to the management of the pandemic is interpreted as being rooted in the dominance of neoliberal ideology and governance in the politics of international relations particularly in the politics of the leading state actors by protecting corporate interests at the expense of public health and in the constraints imposed on state actors by the competitive dynamic of multinational capitalism in the global age *Modernity and the Pandemic* will appeal to scholars in the humanities and social sciences with interests in neoliberalism and its social cultural and epidemiological impacts *Evolutionary and Interpretive Archaeologies* Ethan Cochrane, Andrew Gardner, 2016-09-16
