Creating Memory and Cultural Identity in African American Trauma Fiction Patricia San José Rico, 2019-03-19

How do contemporary African American authors relate trauma memory and the recovery of the past with the processes of cultural and identity formation in African American communities Patricia San Jos analyses a variety of novels by authors like Toni Morrison Gloria Naylor and David Bradley and explores these works as valuable instruments for the disclosure giving voice and public recognition of African American collective and historical trauma Manhood and the Making of the Military Dr Anders Ahlbäck, 2014-10-28 The creation of Finland s national conscription army in the wake of its independence from Russia in 1917 aroused intense but conflicting emotions This book examines the struggles of a new army to find popular acceptance and support and explores the ways that images of manhood were used in the controversies Ahlb ck places the situation of interwar Finland within a broad European context to reveal the conflicts surrounding compulsory military service and the impact of the Great War on masculinities and constructions of gender **Speaking the Truth about Oneself**

Michel Foucault, 2021-10-07 Speaking the Truth about Oneself is composed of lectures that acclaimed French philosopher Michel Foucault delivered in 1982 at the University of Toronto As is characteristic of his later work he is concerned here with the care and cultivation of the self which becomes the central theme of the second and third volumes of his famous History of Sexuality published in French in 1984 the month of his death and which are explored here in a striking and typically illuminating fashion Throughout his career Foucault had always been interested in the question of how constellations of knowledge and power produce and constitute subjects But in the last phase of his life he became especially interested not only in how subjects are constituted by outside forces but in how they constitute themselves In this lecture series and accompanying seminar we find Foucault focused on antiquity starting with classical Greece the early Roman dynasties and concluding with fourth and fifth century Christian monasticism Foucault s claim is that in these periods we see the development of a new kind of act speaking the truth about oneself as the locus of a new form of subjectivity which he deemed important not just for historical reasons but also as something modernity could harness anew or adapt to its own purposes
