Diolinda Peterson,2010-09 I was a thirty something woman with a husband a daughter and a dog And then one morning I found a lump in my right breast and my life stopped shifted direction and became something I could never have imagined Early one Saturday morning in October 2004 Diolinda Peterson found a lump in her breast her worst nightmare after watching her own mother only five years before fight the disease and lose her life to cancer Suddenly her world was consumed with diagnosis surgery and chemotherapy forcing her to face her own mortality Fearing that history might repeat itself she considered the repercussions that her death might have on her husband and young daughter Throughout this year long battle though she was not alone but instead supported by family and friends whom she lovingly referred to as her Village My Village A Young Family's Story of Cancer Love and Gratitude is a story of hope surpassing incredible fear and loss As a family the Petersons forced themselves to name their horror honor their fear and reframe their minds and hearts with love and gratitude's power Courageously written this memoir constructs a realistic picture of what it feels and looks like for a young woman to have cancer and it shares how a family coped survived and eventually thrived despite their terrifying journey **Every Woman'S Secret Fear** Sheena Mathew,2011-10-27 I have captured my own harrowing experience which followed after I was positively diagnosed with multi centric breast cancer The contents of the book are based on my own version of the experience I had This led me through many corridors I had to navigate myself through to possibly save my life or maybe add a few more years to the only form of life I am familiar to I did not understand what I had to deal with at the time and I desperately needed some kind of help at hand as I did not have any time to research the possibilities of my condition I became aware that breast cancer was on the increase long before my own diagnosis This drove me to recall many agonizing memories which I would have preferred to erase from my mind entirely but I chose to mentally relive my torment in order to be of some benefit to my reader Once I started with my chemotherapy sessions I quickly realized why I heard and read of chemo patients who by their own choice gave up on chemotherapy and lacked the endurance to complete the treatment Who chose alternative treatment instead until I was confronted to tolerate the shock of being treated for my condition I have included my own account of my experiences before and after having a mastectomy thereafter chemotherapy radio therapy and an attempt at having a breast reconstruction Reconfigured Barbara Wolf Terao,2025-07-30 When Barbara Terao moves into a new home in Washington two thousand miles from her husband in Illinois she doesn't know when or if she'll ever live with him again Her diagnosis of breast cancer three months later changes both of them in ways they never imagined In the ensuing months Barbara's husband and adult children show up to help her through a year of difficult treatments and surgery and Barbara in her Whidbey Island cottage learns to listen to her heart and intuition Nurtured by

Douglas fir forests the Salish Sea and her community she changes her life from the inside out Her journey she realizes wasn't about leaving her husband so much as finding herself Reconfigured in body mind and spirit Barbara finally has words for what she wants to say and the strength to be a survivor *Flickering in the Arctic* , **Weekly World News** ,2000-01-11 Rooted in the creative success of over 30 years of supermarket tabloid publishing the Weekly World News has been the world's only reliable news source since 1979 The online hub www.weeklyworldnews.com is a leading entertainment news site

(HB) Terry Wells-Jones,2022-10-12 Reflections Looking in the Mirror By Terry Wells Jones Born in the era of Jim Crow segregation Terry Wells Jones grew up in a small town in the Deep South Even from a young age this Black girl knew she was destined to overcome the obstacles that faced her Through her faith belief hope stamina and grit Terry overcame a traumatic experience and countless roadblocks to become one of the first Black models in the mid 1960s She also became the first woman hired by a Fortune 500 company in a sales position Breaking through the glass ceiling opening doors for other women in a male dominated world Terry Wells Jones fought many battles to reach her level of success in business while also cultivating a happy family life In this memoir Terry shares the philosophies that helped her on her journey as well as the disappointments and opposition she faced along the way This is her astounding success story **411 ... the Terrorists Within** Janie Chenevert,2008-09-03 How this book came to be I had just returned from the doctors after the second diagnosis of cancer I called all my family and informed them of the situation My husband and I sat and talked and cried and tried to make sense of the whole situation My daughter and son came by to see how I was and to give support I was numb despair set in and I was just going through the motions of being normal That night as I retired I prayed for peace insight strength and the ability to endure what lied ahead of me It was October of 2003 While I was asleep the title 411 Terrorists Within kept popping in and out of my mind Then the story started to unfold almost like a movie I would wake up and return to sleep Over and over the same dream I finally got up and sat in the dark for some time praying crying and thinking of what was going on in my head I finally got a tablet and began to scribe all this information and the title and feelings going on inside my mind and heart I wrote and cried until my fingers hurt and my eyes were so swollen I couldn t see anymore I put the tablet aside and went

back to bed I was finally able to get some much needed rest When I woke up later that morning I was sitting with my husband having coffee when I remembered the tablet I picked it up and tried to read it It was too fresh too hard to read at that time I sat it aside and continued the day A few days later I picked up the tablet again read it and decided to type it on my computer I shared it with my husband daughter son mother and sisters It was just my thoughts and feelings I wanted to share with them I shared it with one of my doctors and was urged to have it published She thought It would be very beneficial to patients survivors and care givers as insight to the honest feelings of one going through such an ordeal not just cancer patients I shared it with a cousin who is a published poet and author and she thought it was worthy of publication also It took 5 years to get the heart to complete the story and here it is I do hope it serves a purpose and maybe a hint of insight to raw feelings of one facing the uncertainty of one s future with the news of a devastating medical or physical ordeal

Ordinary Life Kathlyn Conway, 2025-06-25 This book is a striking departure from the literature of illness as well as a remarkable literary work in its own right The stories we typically hear about people coping with serious illness are set up as heroic tales that emphasize the victim s triumph over adversity or even portray the experience of illness as a transformative event that makes the survivor a better person In this compelling account written from within an illness Kathlyn Conway gives us a deeply honest description of her own struggle with breast cancer and its many reverberations through her everyday life bringing us to the heart of the experience of illness without preachiness or sentimentality Conway did not experience breast cancer as a means for reevaluating her life but rather as a terrible threat to her future and that of her family Making difficult choices among treatment possibilities dealing with nurses doctors and lab technicians undergoing a mastectomy and enduring chemotherapy Conway discovered that although she wanted to play the part of the brave long suffering patient she could not Angry and upset much of the time overwhelmed by her situation she found it difficult to cope even with the support her family and friends provided In her willingness to share this story of herself as a frightened sometimes selfish often despairing human being Kathlyn Conway gives us not only an unsettling portrait of our everyday mortality but a renewed appreciation of life itself
