Funny Stories Phineas Taylor Barnum, 1890

From Socrates to Summerhill and Beyond Ronald Swartz, 2016-06-01 In From Socrates to Summerhill and Beyond Towards a Philosophy of Education for Personal Responsibility Ronald Swartz offers an evolving development of fallible liberal democratic self governing educational philosophies He suggests that educators can benefit from having dialogues about questions such as these

- 1 Are there some authorities that can be consistently relied upon to tell school members what they should do and learn while they are in school
- 2 How should the imagination of social theorists be both used and checked in the development and implementation of innovative educational reforms
- 3 How can teachers in personal responsibility schools help their students learn

These questions are representative of problems that Swartz raises in

his book Swartz identifies four educational programs as personal responsibility schools These are Little Commonwealth Homer Lane Summerhill A S Neill Orphans Home Janusz Korczak and Sudbury Valley School Daniel Greenberg Swartz then suggests that these learning environments create social institutions that are liberal democratic and self governing and therefore endorse the policy of personal responsibility This policy states All school members students included are fallible authorities who should be personally responsible for determining their own school activities and many policies that govern a school Schools which incorporate this policy can interchangeably be referred to as personal responsibility self governing or Summerhill style schools In providing an historical and philosophical understanding of Summerhill style schools Swartz suggests that these educational alternatives have intellectual roots in the ideas associated with Socrates as portrayed in Plato s Apology Specifically in personal responsibility schools teachers are not viewed as authorities who attempt to transmit wisdom to their students Rather self governing schools follow the Socratic tradition which claims that teachers can be viewed as fallible authorities who attempt to engage students in dialogues about questions of interest to students The interpretation of Plato s works used by Swartz can be found in Karl Popper s The Open Society and Its Enemies Swartz has also been significantly influenced by the educational writings of Bertrand Russell and Paul Goodman Goodman s Compulsory Miseducation makes it clear that schools which follow in the tradition of Summerhill compete with the educational programs that are an outgrowth of John Dewey s writings In summary Swartz s book aims to engage educators in dialogues that will lead to improved educational theories and practices
