## My Pop Up Of Ships:

**Ships in Troubled Waters** Nigel Harris, 2014-01-28 This book tells the story of my journey through boarding school and onto offshore radio in the North Sea It is a recollection of events from my perception only which took place during my time on a number of radioships As you will read sheer dedication and strength of mind was required by all parties over the years to allow the offshore enterprises to survive Radio Caroline was the central passion for me as it was for so many others and I felt it was never on the cards to give up the fight to survive at sea Nevertheless remembering every event and those people involved was difficult and I trust I do not upset anybody by telling stories they would rather forget No malice is intended by anything written in this tome A few names have been left out to spare embarrassment but I hope the narrative remains complete Memories from my younger days are included as I would like to think they help complete the overall picture of how I thought and behaved and what shaped me as I grew up *Our Ship's Diary As Told by the Crew* Bob Culver, 2004-12 Although this Diary covers an exact period of time That Our Ship was a part of the U S Navy You will not see a page marked The End Because this true account of history will never fade away Even though at some future point in time It may be found tucked away on a closet shelf Or packed in a box up in the attic It will still always keep the Rammin Sammy alive and vibrant in the pages Of Our Country s History Bob Culver 1944 1946 *The Ship* Antonia Honeywell, 2017-04-25 In this thought provoking and lyrical debut novel a young woman s only hope for survival in the dystopian future is a ship a Noah s Ark that can rescue 500 people London burned for three weeks And then it got worse Young naive and frustratingly sheltered Lalla has grown up in near isolation in her parents apartment sheltered from the chaos of their collapsed civilization But things are getting more dangerous outside People are killing each other for husks of bread and the police are detaining anyone without an identification card On her sixteenth birthday Lalla s father decides it s time to use their escape route a ship he s built that is only big enough to save five hundred people But the utopia her father has created isn t everything it appears There s more food than anyone can eat but nothing grows more clothes than anyone can wear but no way to mend them and no one can tell her where they are going **Ships and Secrets** Bhat Boy, 2021-12-21 Set in an age of exploration Bhat Boy s vivid fantasy is a fast paced page turner illustrated with maps and drawings by the author perfect for young readers and adults alike When everything Brunet has ever known is destroyed in a fire he discovers he is not even who he thought he was Taken prisoner with his friend Handrew Brunet is sent on a perilous journey across the sea to attend a school for mapmakers Charters Hill Charters Hill turns out to be a forbidding place of secrets and shadows its only friendly face being the brilliant but bossy Margatha She helps them keep clear of trouble but when Brunet saves the Queen from certain death on the ice they find themselves drawn into a dangerous world of plots and political intrigue Here the sinister Cardinal Crosswatch s silent nuns do his spying and no one is safe not even Brunet s far away mother **How to Build a Boat** Jonathan Gornall, 2019-05-07 Part ode to building something with one s hands in the modern age part celebration of the beauty and function of boats and

part moving father daughter story **How to Build a Boat** is a bold adventure Once an essential skill the ability to build a clinker boat first innovated by the Vikings can seem incomprehensible today Yet it was the clinker with its overlapping planks that afforded us access to the oceans and its construction has become a lost art that calls to the do it yourselfer in all of us John Gornall heard the call A thoroughly unskilled modern man Gornall set out to build a traditional wooden boat as a gift for his newborn daughter It was he recognized a ridiculously quixotic challenge for a man who knew little about woodworking and even less about boat building He wasn't even sure what type of wood he should use the tools he'd need or where on earth he'd build the boat He had much to consider and even more to learn But undaunted he embarked on a voyage of rediscovery determined to navigate his way back to a time when we could fashion our future and leave our mark on history using only time honored skills and the materials at hand His journey began in East Anglia on England's rocky eastern coast If all went according to plan it would end with a great adventure as father and daughter cast off together for a voyage of discovery that neither would forget and both would treasure until the end of their days **How to Build a Boat** celebrates the art of boat building the simple pleasures of working with your hands and the aspirations and glory of new fatherhood John Gornall tells the inspiring story of how even the least skilled of us can make something wonderful if we invest enough time and love *The Daily Mail* and taps into the allure of an ancient craft interpreting it in a modern way as tribute to the generations yet to come Both the book and place are magical *The Sunday Telegraph*
