Vagabonds, Tramps, and Hobos Owen Clayton, 2023-08-10 The most enduring version of the hobo that has come down from the so called Golden Age of Tramping 1890s to 1940s is an American cultural icon signifying freedom from restraint and rebellion to the established order while reinforcing conservative messages about American exceptionalism individualism race and gender Vagabonds Tramps and Hobos shows that this pioneer hobo image is a misrepresentation by looking at works created by transient artists and thinkers including travel literature fiction memoir early feminist writing poetry sociology political journalism satire and music This book explores the diversity of meanings that accrue around the hobo and the tramp It is the first analysis to frame transiency within a nineteenth century literary tradition of the vagabond a figure who attempts to travel without money This book provide new ways for scholars to think about the activity and representation of US transiency

The Fragile Bridge Steve Golin, 1988 In this full length study of the 1913 Paterson silk strike Steve Golin examines the creative collaboration between the silk workers organizers from the Industrial Workers of the World and Greenwich Village intellectuals Although the strike was defeated this alliance could become a model for the American left because it suggests the possibilities of connecting economic political and cultural struggles Combining perspectives from labor history social history and intellectual history Golin argues that while the silk workers began the 1913 strike and controlled it themselves the IWW helped them create institutions that supported the strike and reinforced its radically democratic character The deadlock in Paterson dictated the need for a bridge to New York that was facilitated by a growing mutual trust between the Wobblies and intellectuals from Greenwich Village At the height of the struggle the IWW and the Village radicals joined the workers in presenting a powerful strike pageant in Madison Square Garden The story of the 1913 silk strike is important because it challenges long held conservative assumptions about labor history including the elitist role of skilled workers the bureaucratic function of union organization and the irrelevance of intellectuals Although the strikers were ultimately defeated the strike s failure had more damaging consequences for the IWW and the intellectuals than for the workers themselves and Golin views this loss as a major turning point for the American left Author note Steve Golin is Professor of History at Bloomfield College in New Jersey

Introspection in Biography Samuel H Baron,Carl Pletsch,2019-09-30 Most of the essays offered here are revised versions of papers first prepared for an invitational conference on The Psychology of Biography held in Chapel Hill November 12 14 1981 The conference which was funded by the National Endowment for the Humanities brought together twelve biographers including historians literary scholars political scientists and psychoanalysts each of whom had composed an introspective essay describing his experience of the biographical process Each participant was invited to proceed in whatever manner seemed appropriate to him but all were encouraged as well to address a number of questions that we regard as central to this inquiry Why did I decide to write a biography and how did I select a subject How did I achieve insight into the internal life of my protagonist In what ways did I put my personal stamp on the portrait I produced As a result of protracted involvement with the subject did the latter influence my life and if so how The contributors have responded to these questions in varying degrees but they provide evidence enough to permit for the first time some systematic treatment of these and subsidiary questions On the other hand each paper is marked by an individual approach and style Taken as a whole these uncommonly intimate and self revealing essays illuminate many aspects of the biographical enterprise The collaborative character of the symposium deserves emphasis It began with the request that the contributors to be all address a number of specific questions It continued with the cooperation of a majority of the contributors with a psychoanalyst or clinical psychologist as an aspect of the preparation of their papers More on this in a moment It went a step further at the conference itself which served as a forum for an exchange of views so stimulating that it prompted the participants to undertake to revise their papers Moreover the conferees were so impressed by the frequent flashes of illumination most often touched off by Dr George Moraitis that they asked him to compose an additional essay an afterword for this volume to bring to a wider public the workings pitfalls and potentialities of the collaborative method
