Presbyterian Church ,1864 *The Two Worlds* ,1929 **The Catholic Writings of Orestes Brownson** Michael P. Federici,2018-11-30 This collection of thirteen original essays by Orestes Augustus Brownson 1803 1876 a major political and philosophical figure in the American Catholic intellectual tradition presents his developed political theory in which he devotes central attention to connecting Catholicism to American politics These writings which date from 1856 to 1874 cover not only his conversion to Catholicism after experimenting with a variety of religious and political beliefs but also slavery the Civil War Reconstruction the era of Jacksonian democracy and a host of social political and economic issues During this time Brownson became one of the nation s leading thinkers and critics Although faced with a dominant Protestant culture Brownson argued for a political and social culture influenced by his deeply held Catholic faith He defended Catholicism from the common charge that it was incompatible with American constitutionalism and in fact argued that it was the only spiritually viable foundation for American politics He defended the political theory and institutions of the American framers applauding their realistic view of human nature and the importance of both virtue in political leaders and checks and restraints in their constitutional structures He opposed the rising influence of populist democracy by explaining its flawed

assumptions about human nature and the possibilities of politics Michael P Federici's well written introduction situates these essays within a coherent theme and explains how these essays are especially relevant to contemporary debates about populism race American exceptionalism and the relationship between religion and politics The book will interest students and scholars of American political thought as well as those with an interest in religion and politics **Getting off the Fence**

Post William P. Nelson, 2022-04-27 God has acted and Jesus has acted but what are we doing Jesus wants us to act That is one of the insights in this book of devotions that William P Buddy Nelson wrote during the COVID 19 pandemic as a way to stay in touch with his faith and to reimagine the future of the church While writing he discovered that when living through a pandemic or a crisis of any kind God is there to provide a refreshed understanding of His revelation In fact God's message is exactly what we all need to hear in times of personal or professional crisis While these devotions highlight numerous topics and challenges the overarching theme focuses on how everyday events can help us understand God's Word In doing so we can learn how to face and overcome challenges with faith rather than fear Remember when the world is at its darkest place God challenges his children to shine the brightest
