My Gift In Return:

Negative Certainties Jean-Luc Marion, 2020-10-28 Now in paperback Jean Luc Marion's groundbreaking philosophy of human uncertainty In Negative Certainties renowned philosopher Jean Luc Marion challenges some of the most fundamental assumptions we have developed about knowledge that it is categorical predicative and positive Following Descartes Kant and Heidegger he looks toward our finitude and the limits of our reason He asks an astonishingly simple but profoundly provocative question in order to open up an entirely new way of thinking about knowledge Isn't our uncertainty our finitude and rational limitations one of the few things we can be certain about Marion shows how the assumption of knowledge as positive demands a reductive epistemology that disregards immeasurable or disorderly phenomena He shows that we have experiences every day that have no identifiable causes or predictable reasons and that these constitute a very real knowledge a knowledge of the limits of what can be known Establishing this negative certainty Marion applies it to four aporias or issues of certain uncertainty the definition of man the nature of God the unconditionality of the gift and the unpredictability of events Translated for the first time into English Negative Certainties is an invigorating work of epistemological inquiry that will take a central place in Marion's oeuvre

Returning the Gift Rebecca Colesworthy, 2018-11-10 From debates about reparations to the rise of the welfare state the decades following World War I saw a widespread turn across disciplines to questions about the nature and role of gifts What is a gift What do gifts mean and do Which individuals and institutions have the authority to give Marshalling wide ranging interdisciplinary research Returning the Gift argues that these questions centrally shaped literary modernism The book begins by revisiting the locus classicus of twentieth century gift theory the French sociologist Marcel Mauss's 1925 essay The Gift The Form and Reason for Exchange in Archaic Societies His title notwithstanding the gift Mauss envisions is not primitive or pre capitalist but rather a distinctively modern phenomenon Subsequent chapters offer sustained nuanced readings of novels and nonfiction by Virginia Woolf Jean Rhys Gertrude Stein and H D from the 1920s to 1940s underscoring the ways their writing is illuminated by contemporaneous developments in the social sciences economics and politics while also making a case for their unique contributions to broader debates about gifts Not only do these writers insist that literature is a special kind of gift but they also pose challenges to the gift's feminization in the work of both their Victorian forebears and contemporary male theorists Each of these writers uses tropes and narratives of giving of hospitality sympathy reciprocity charity genius and kinship to imagine more egalitarian social possibilities under the conditions of the capitalist present The language of the gift is not as we might expect a mark of hostility to the market so much as a means of giving form to the society in market society of representing everyday experiences of exchange that the myth of the free

market works even now to render unthinkable *How His Light Shines Through Us* Sherri Land, 2024-09-29 *How His Light Shines Through Us* This is my story. It is a must read for anyone who is searching for a deeper meaning in life. When we cry out to God with all our heart seeking what His will is for us, I believe God will answer and you will seek Me and find Me when you search for Me with all your heart. Jeremiah 29:13 NKJV. I believe that we are all at some point in our lives at the stepping stones of God's will for us. I believe God has a plan for every one of us to utilize our gifts given by Him for His Glory. I believe the plans He has for us are far greater than we could ever imagine and that He is just waiting for us to say OK. I'm ready. I've tried it my way and it's not working. I desperately need You in my life. Please reveal to me what Your will is for my life. What is my purpose on this earth and how do I fit into Your plan for Your Kingdom? Sherri is sharing now her story of how God stepped into her life big time with numerous poems, songs that she feels God has given to her as well as some short stories behind them and a few photos taken along the way as she reminisces back through these moments in time following her transition from ordinary days to being in the middle of something that she feels God is calling her to. [Taxpayers Ask IRS.](#) United States. Internal Revenue Service, 1991-10 **To Make my Name Good** Drucker Philip, Robert F. Heizer, 2023-09-01 This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice, reach, and impact. [Philosophy of Communication](#) Briankle G. Chang, Garnet C. Butchart, 2012-08-10 Classical, modern, and contemporary philosophical writings that address the fundamental concepts of communication. To philosophize is to communicate philosophically. From its inception, philosophy has communicated forcefully. Socrates, Plato, and Aristotle talk a lot and talk ardently. Because philosophy and communication have belonged together from the beginning and because philosophy comes into its own and solidifies its stance through communication, it is logical that we subject communication to philosophical investigation. This collection of key works of classical, modern, and contemporary philosophers brings communication back into philosophy's orbit. It is the first anthology to gather in a single volume foundational works that address the core questions, concepts, and problems of communication in philosophical terms. The editors have chosen thirty-two selections from the work of Plato, Leibniz, Hegel, Husserl, Heidegger, Wittgenstein, Benjamin, Lacan, Derrida, Sloterdijk, and others. They have organized these texts thematically rather than historically in seven sections: consciousness, intersubjectivity, understanding, language, writing, and context; difference and subjectivity; gift and exchange; and communicability and community. Taken together, these texts not only lay the foundation for establishing communication as a distinct philosophical topic but also provide an outline of what philosophy of communication might look like. **Sacrifice and the Body** John Dunnill, 2016-04-08 What is sacrifice? For many people today, the word has negative overtones suggesting loss or death or violence. But in religions, ancient and modern, the word is linked primarily to joyous feasting which puts people in touch with

the deepest realities How has that change of meaning come about What effect does it have on the way we think about Christianity How does it affect the way Christian believers think about themselves and God John Dunnill s study focuses on sacrifice as a physical event uniting worshippers to deity Bringing together insights from social anthropology biblical studies and Trinitarian theology Dunnill links to debates in sociology and cultural studies as well as the study of liturgy Through a positive view of sacrifice Dunnill contributes to contemporary Christian debates on atonement and salvation **Truth** ,1905

Sixteenth-century France Natalie Zemon Davis,2000 Must a gift be given freely How can we tell a gift from a bribe Are
gifts always a part of human relations or do they lose their power and importance once the market takes hold and puts a
price on every exchange These questions are central to our sense of social relations past and present and they are at the
heart of this book by one of our most interesting and renowned historians In a wide ranging look at gift giving in early
modern France Natalie Zemon Davis reveals the ways that gift exchange is crucial to understanding alliance and conflict in
family life economic relations politics and religion Moving from the king s bounty to the beggar s alms her book explores the
modes and meanings of gift giving in every corner of sixteenth century French society In doing so it arrives at a new way of
considering gifts what Davis calls the gift register as a permanent feature of social relations over time Gift giving with its
own justifications and forms in different periods can create amity or lead to quarrels and trouble It mixes the voluntary and
the obligatory with interested bribery at one extreme and inspired gratuitousness at the other Examining gifts both
ethnographically through archives letters and other texts and culturally through literary ethical and religious sources Davis
shows how coercive features in family life and politics rather than competition from the market disrupted the gift system This
intriguing book suggests that examining the significance of gifts can not only help us to understand social relations in the
past but teach us to deal graciously with each other in the present **Compelling God** Stephanie Clark,2018-01-01 In
