### **Damned Fools In Utopia**

Nicolas Walter,2011-04-15 Nicolas Walter was the son of the neurologist W Grey Walter and both his grandfathers had known Peter Kropotkin and Edward Carpenter However it was the twin jolts of Suez and the Hungarian Revolution while still a student followed by participation in the resulting New Left and nuclear disarmament movement that led him to anarchism himself His personal history is recounted in two autobiographical pieces in this collection as well as the editor s introduction During the 1960s he was a militant in the British nuclear disarmament movement especially its direct action wing the Committee of 100 he was one of the Spies for Peace who revealed the State s preparations for the governance of Britain after a nuclear war he was close to the innovative Solidarity Group and was a participant in the homelessness agitation

Concurrently with his impressive activism he was analyzing acutely and lucidly the history practice and theory of these intertwined movements and it is such writings including Non violent Resistance and The Spies for Peace and After that form the core of this book But there are also memorable pieces on various libertarians including the writers George Orwell Herbert Read and Alan Sillitoe the publisher C W Daniel and the maverick Guy A Aldred The Right to be Wrong is a notable polemic against laws limiting the freedom of expression Other than anarchism the passion of Walter s intellectual life was the dual cause of atheism and rationalism and the selection concludes appropriately with a fine essay on Anarchism and Religion and his moving reflections Facing Death Nicolas Walter scorned the pomp and frequent ignorance of the powerful and detested the obfuscatory prose and intellectual limitations of academia He himself wrote straightforwardly and always accessibly almost exclusively for the anarchist and freethought movements The items collected in this volume display him at his considerable best
