**On Fuzziness** Rudolf Seising, Enric Trillas, Claudio Moraga, Settimo Termini, 2012-12-15 The notion of Fuzziness stands as one of the really new concepts that have recently enriched the world of Science Science grows not only through technical and formal advances on one side and useful applications on the other side but also as consequence of the introduction and assimilation of new concepts in its corpus These in turn produce new developments and applications And this is what Fuzziness one of the few new concepts arisen in the XX Century has been doing so far This book aims at paying homage to Professor Lotfi A Zadeh the father of fuzzy logic and also at giving credit to his exceptional work and personality In a way this is reflected in the variety of contributions collected in the book In some of them the authors chose to speak of personal meetings with Lotfi in others they discussed how certain papers of Zadeh were able to open for them a new research horizon Some contributions documented results obtained from the author's after taking inspiration from a particular idea of Zadeh thus implicitly acknowledging him Finally there are contributions of several third generation fuzzysists or softies who were firstly led into the world of Fuzziness by a disciple of Lotfi Zadeh who following his example took care of opening for them a new road in science Rudolf Seising is Adjoint Researcher at the European Centre for Soft Computing in Mieres Asturias Spain Enric Trillas and Claudio Moraga are Emeritus Researchers at the European Centre for Soft Computing Mieres Asturias Spain Settimo Termini is Professor of Theoretical Computer Science at the University of Palermo Italy and Affiliated Researcher at the European Centre for Soft Computing Mieres Asturias Spain

**Sports Analytics** Leonard C Maclean, William T Ziemba, 2021-12-22 This book is a collection of applications of analytic techniques to a number of popular sports including baseball basketball hockey Jai Alai NFL football and horseracing We focus on both the statistics of the sporting events and betting strategies on the events The subject is fascinating as there are many twists and subtle complicated decisions Sports analytics applies mathematical and

statistical methods to important questions in the structure and performance of sporting activities using the same basic methods and approaches as data analysts in other disciplines Sports games and events are a fruitful area for study and to evaluate betting strategies as there is extensive data and mean reversion With prices changing continuously risk arbitrage bets can be made Moreover little errors like a penalty to a player or an error in a call by a referee can change the score of a game and corresponding betting prices The collection and analysis of in game data can inform players coaches and staff on effective decision making during sporting events Novel features of the book include an analysis of who were the greatest baseball batters analyses of the players most important to team success and they are not necessarily the best players in basketball NFL football and hockey a tutorial on risk arbitrage and its applications to NFL football and NBA basketball a discussion of many ad hoc decision rules by coaches and players and what was really optimal in the racing section we discuss breeding the analysis of various bets like the Rainbow and ordinary Pick 6 a discussion and betting on the most important races and a visit to the Breeders Cup with Ed Thorp to demonstrate the place and show system in action *Die*

Appleman,2005-07-05 My life has been an interesting succession of unusual events These events were for the most part unplanned and beyond my control literally since my birth forty something years ago I wanted to share my experiences both as a legacy for my children and other readers of all ages who will find some of the chapters to be familiar Each chapter is self contained and in chronological order based on my life I am the common thread that holds the story together If you have not experienced the things I have you probably know someone who has Maybe you are not old enough yet or just do not want to talk about it Have you been or dealt with a rebellious child felt unwanted or pressured into things you did not want to do Did you take a road trip from hell or go home for the holidays Have your siblings had anorexia or accused each other of incest I have experienced these situations as well as dealing with unplanned pregnancies moving from the Midwest to New York City losing both adoptive parents one was a suicide being found on the internet by my birth mother finding my birth father and being abused by my own son There is even a chapter dedicated to my dog And much more J Pick a chapter to share in my life or read the whole book It is your choice and I hope you enjoy the adventure or at least find it mildly entertaining My life could be described in many ways but the word dull does not apply     **Father, Dear Father** Ludwig Bemelmans,1953 A travelog in which the author artist describes a long trip to Paris the Tyrol Capri and Ischia
