My Life as an Artist Gilda E. Meyers, 2010 Creativity is the theme connecting the many chapters of the author's life journey with over 300 drawings, paintings and photographs illustrating the story. Inspired by her daughter's request to introduce her to the artist she was before becoming a mother, this intimate memoir includes her growing up in a leftist immigrant Jewish family in the fifties, her education and training as an artist, studies in Germany in 1958 and a year of drawing and painting in Europe in 1962. The cultural climate of the sixties significantly changed the course of her life and work. After the birth of her daughter, she began a spiritual practice that included time in India. She eventually embraced Buddhist Vipassana meditation. Included is her training as an art and body therapist and the transition into becoming a psychotherapist. She maintains a private practice as a transpersonal somatic psychotherapist and group therapist in Santa Rosa, California.

European Cases of the Reincarnation Type Ian Stevenson, M.D., 2015-09-02 Many cultures accept that a person may die and then come back to life in another form, but Westerners have traditionally rejected the idea. Recently, however, surveys conducted in Europe indicate a substantial increase in the number of Europeans who believe in reincarnation, and numerous claims of reincarnation have been reported. This book examines particular cases in Europe that are suggestive of reincarnation. The first section provides a brief history of the belief in reincarnation among Europeans. The second section considers eight cases from the first third of the twentieth century that were not independently investigated but were reported and sometimes published by the persons concerned. The third section covers 32 cases from the second half of the twentieth century that were investigated by the author. Many of these cases involved either children who exhibited unusual behavior attributed to a previous life or adults who experienced

recurrent or vivid dreams attributed to a previous life In the fourth section the author compares European cases suggestive of reincarnation with those of other countries and cultures **Art Beyond Isms** Eliza E. Rathbone,Phillips

Painting Laura M. Sager Eidt,2008-01-01 This innovative interdisciplinary study compares the uses of painting in literary texts and films In developing a framework of four types of ekphrasis the author argues for the expansion of the concept of ekphrasis by demonstrating its applicability as interpretive tool to films about the visual arts and artists Analyzing selected works of art by Goya Rembrandt and Vermeer and their ekphrastic treatment in various texts and films this book examines how the medium of ekphrasis affects the representation of the visual arts in order to show what the differences imply about issues such as gender roles and the function of art for the construction of a personal or social identity Because of its highly

cross disciplinary nature this book is of interest not only to scholars of literature and aesthetics but also for scholars of film studies By providing an innovative approach to discussing non documentary films about artists the author shows that ekphrasis is a useful tool for exploring both aesthetic concerns and ideological issues in film This study also addresses art historians as it deals with the reception of major artists in European literature and film throughout the 20th century
