Naming Things:

The Business of Naming Things Michael Coffey, 2014-12-22 Riveting vibrant and unsparing Publishers Weekly starred and boxed review Superb Startlingly original Library Journal starred review Once I started reading these stories I couldn't stop They absorbed me thoroughly with their taut narratives and evocative language the language of a poet JAY PARINI author of *Jesus The Human Face of God* and *The Last Station* Sherwood Anderson would recognize this world of lonely longing characters whose surface lives Coffey tenderly plumbs These beautiful stories spare rich wise and compelling go to the heart FREDERIC TUTEN author of *Self Portraits Fictions* and *Tintin in the New World* Whether Coffey is writing about a sinning priest or a man who's made a career out of branding or about himself we can smell Coffey's protagonists and feel their breath on our cheek Like Chekhov he must be a notebook writer how else to explain the strange quirks and the perfect but unaccountable details that animate these intimate portraits EDMUND WHITE author of *Inside a Pearl* and *A Boy's Own Story* Among these eight stories a fan of writer and fellow adoptee Harold Brodkey gains an audience with him at his life's end two pals take a Joycean sojourn a man whose business is naming things meets a woman who may not be what she seems and a father discovers his son is a suspect in an assassination attempt on the president In each tale Michael Coffey's exquisite attention to character underlies the brutally honest perspectives of his disenchanting fathers damaged sons and orphans left feeling perpetually disconnected Michael Coffey is the author of three books of poems and *27 Men Out* a book about baseball's perfect games He also co-edited *The Irish in America* a book about Irish immigration to America which was a companion volume to a PBS documentary series He divides his time between Manhattan and Bolton Landing New York **The Business of Naming Things** is his first work of fiction

Interplay of Things Anthony B. Pinn, 2021-09-20 Drawing on literature along with the visual and performing arts Anthony B. Pinn theorizes religion as a technology for interrogating human experiences understanding the ways in which things are always involved in processes of exchange and interplay

Nietzsche's Postmoralism Richard Schacht, 2001 This important collection of essays originally published in 2000 the year of the centenary of Nietzsche's death offers a full assessment of his contribution to philosophy and represents a helpful guide to the current landscape of Nietzsche studies In *Beyond Good and Evil* Nietzsche calls on new philosophers to carry on the process of reinterpretation and revaluation that will constitute the philosophy of the future This reconsideration will be pursued in what Nietzsche describes as a postmoral manner The nine prominent interpreters in this collection examine different aspects of this postmoral agenda and show how Nietzsche's efforts to reorient philosophical thinking are of great importance to the way we understand ourselves our values our concepts of virtue and our morality today

Doing Things Right in Matters of the Heart John Ensor, 2007-04-04 There is a radical biblical alternative to much of what is taught and practiced today regarding relationships *Doing Things Right in Matters of the Heart* presents a bold plan for escaping the swift currents of contemporary patterns of hooking up shacking up and breaking up It draws a compelling vision of

complementarity between the sexes It instructs men on what to do and informs women on what to look for in their mutual pursuit of a healthy tender long term relationship

Asylum Determination in Europe Nick Gill,Anthony Good,2018-12-05 Drawing on new research material from ten European countries Asylum Determination in Europe Ethnographic Perspectives brings together a range of detailed accounts of the legal and bureaucratic processes by which asylum claims are decided The book includes a legal overview of European asylum determination procedures followed by sections on the diverse actors involved the means by which they communicate and the ways in which they make life and death decisions on a daily basis It offers a contextually rich account that moves beyond doctrinal law to uncover the gaps and variances between formal policy and legislation and

law as actually practiced The contributors employ a variety of disciplinary perspectives sociological anthropological geographical and linguistic but are united in their use of an ethnographic methodological approach Through this lens the book captures the confusion improvisation inconsistency complexity and emotional turmoil inherent to the process of claiming asylum in Europe

Transcendence and Sensoriness, 2015-06-02 Protestant theology and culture are known for a reserved at times skeptical attitude to the use of art and aesthetic forms of expression in a religious context In Transcendence and Sensoriness this attitude is analysed and discussed both theoretically and through case studies considered in a broad theological and philosophical framework of religious aesthetics Nordic scholars of theology philosophy art music and architecture discuss questions of transcendence the human senses and the arts in order to challenge established perspectives within the aesthetics of religion and theology

The Messianic Disruption of Trinitarian Theology Kornel Zathureczky, 2009-03-16 The unsettling context of late modernity a terrain of an infinite fragmentation of life poses a challenge to Christianity to rearticulate its defining doctrine of the Trinity Christianity's initial messianic weakness_in that its canonical writings attest to a universal message of redemption for the victims of Empire_was subverted into the strong theology of the Empire This book demonstrates that Trinitarian discourse was profoundly implicated in this development as it essentially absorbed and took the bite out of the messianic language of the early Christian movement Zathureczky proposes a retrieval of the messianic discourse of Christianity by way of recapturing its redemptive weakness Relying on an elective affinity between Walter Benjamin's messianism and Jürgen Moltmann Trinitarianism he attempts to recapture the weakness and fragility of the language of the initial messianic impulse of the Christian community The resulting weak Trinitarianism retains the basic character of Christianity as a Trinitarian faith but now Trinitarian discourse about God is simultaneously messianic discourse a language that is attuned to give voice to the damaged lives and alienating conditions of our contemporary context

Troublesome Science Rob DeSalle, Ian Tattersall, 2018-06-19 It is well established that all humans today wherever they live belong to one single species Yet even many people who claim to abhor racism take for granted that human races have a biological reality In Troublesome Science Rob DeSalle and Ian Tattersall provide a lucid and forceful critique of how scientific tools have been misused to uphold misguided racial categorizations DeSalle and Tattersall argue that taxonomy the scientific classification of organisms provides an antidote to the myth of race's biological basis They explain how taxonomists do their science how to identify a species and to understand the relationships among different species and the variants within them DeSalle and Tattersall also detail the use of genetic data to trace human origins and look at how scientists have attempted to recognize discrete populations within *Homo sapiens* Troublesome Science demonstrates conclusively that modern genetic tools when applied correctly to the study of human variety fail to find genuine differences While the diversity that exists within our species is a real phenomenon it nevertheless defeats any systematic attempt to recognize discrete units within it The stark lines that humans insist on drawing between

their own groups and others are nothing but a mixture of imagination and ideology Troublesome Science is an important call for researchers journalists and citizens to cast aside the belief that race has a biological meaning for the sake of social justice and sound science alike

Acceleration Ronald G. Havelock,2011-07-29 It's trendy to be pessimistic about the future We hear daily about the looming threats from global warming terrorist plots nuclear proliferation overpopulation and other frightening possibilities It's also easy to point to the unprecedented toll of destruction during the two world wars of the 20th century and conclude that the prospects for global civilization rest on pretty shaky grounds While not discounting the calamities of the past or the troubling realities on the horizon social psychologist Ronald G Havelock looks at the same facts and sees a different much more optimistic trend He calls it the forward function a cluster of six forces that has driven human progress from the Stone Age to the present In this positive yet realistic appraisal of the human condition Havelock examines in detail these six forces He explains that the key to humanity's past and future success is our ability to pass on what has been learned from one generation to the next resulting in an ever larger and more widely shared knowledge platform This has been especially evident in the last two hundred years when the scientific revolution has produced an explosive growth of knowledge building and the application of that knowledge to human needs Today the most exciting and hopeful development is that the transfer of knowledge is increasingly not just from generation to generation but within generations and across cultures And it extends from the rich to the middle class and even to the poor The primary consequence of knowledge expansion is thus the empowerment of those who can understand and use it and a better life for more and more people Havelock argues that despite periodic setbacks progress is actually accelerating on many dimensions of human existence In his view fears for the human future are wildly exaggerated and overlook both the knowledge resources at hand to solve problems and the ingenuity of succeeding generations in using those resources for both individual and planetary well being Grounded in a wealth of solid research this optimistic outlook on human destiny offers a realistic hope that we human beings are fully capable of solving even our most challenging problems Ronald G Havelock PhD Shady Side MD is the director of the Knowledge Transfer Institute a consulting practice formerly affiliated with The American University of Washington D C He is the author of five books including The Change Agents Guide to Innovation with S Zlotolow

[The Comparative Perspective on Literature](#) Clayton Koelb,2019-06-30 Few would deny that comparative literature is rapidly moving from the periphery toward the

center of literary studies in North America but many are still unsure just what it is The Comparative Perspective on Literature shows by means of twenty two exemplary essays by many of the most distinguished scholars in the field how comparative literature as a discipline is conceived of and practiced in the 1980s Nearly all of them published here for the first time the essays discuss and themselves reflect significant changes at the core of the field as well as evolving notions as to what comparative literature is and should be The volume editors Clayton Koelb and Susan Noakes have included essays that address the scope and concerns of comparative literature today historical and international contexts of the field and the relationship of literary criticism to other disciplines as well as affording comparative perspectives on current critical issues
