Poachers in the Serengeti Audrey Lousada,1965

Protected Areas in Northern Tanzania Jeffrey O.

Durrant,Emanuel H. Martin,Kokel Melubo,Ryan R. Jensen,Leslie A. Hadfield,Perry J. Hardin,Laurie Weisler,2020-05-21 Northern Tanzania is an important and diverse ecological and cultural region with many protected lands This book Protected Areas in Northern Tanzania brings to the forefront research on significant issues and developments in conservation and management in national parks and protected lands in northern Tanzania The book draws attention to issues at the intersection of conservation tourism and community livelihood and several studies use geospatial technologies Geographic Information Systems and remote sensing data and techniques to study land use and land cover conversion With contributions from professors at the Mweka College of African Wildlife Management located at the foot of Mount Kilimanjaro and other Tanzanian researchers the book provides important perspectives of local experts and practitioners Protected Areas in Northern Tanzania provides a significant contribution in research and technological advancement in the areas of wildlife conservation and protected land management throughout this critical region The Biology of African Savannahs Bryan Shorrocks,William Bates,2015 Savannah habitats comprise an ecologically important but ultimately fragile ecosystem They constitute one of the largest biomes on Earth covering almost 20% of the land surface and can be simply described as tropical and subtropical grasslands with scattered bushes and trees Most savannahs occur in Africa although smaller areas can be found in South America India and Australia They form a rich mosaic of diverse ecosystems and this book offers a concise but comprehensive introduction to their ecology biodiversity and conservation The Biology of African Savannahs describes the major plants grasses and trees such as Acacia and animals mainly large mammals that live in this habitat and examines the biological and ecological factors that influence their population size interactions such as predation and community composition Conservation issues such as climate change hunting and conflict between wildlife and domestic animals are also discussed This new edition has been updated throughout with the latest research in the field and contains new technique boxes which introduce readers to some of the analytical methods used to study African savannahs This accessible text is suitable for both senior undergraduate and graduate students taking courses in savannah and tropical ecology as part of a wider ecology and or conservation biology degree programme It will also be of relevance and use to the many professional ecologists and conservation practitioners requiring a concise but authoritative overview of the topic

Violent Environments Nancy Lee Peluso,Michael Watts,2001

Do environmental problems and processes produce violence Current U S policy about environmental conflict and scholarly work on environmental security assume direct causal links between population growth resource scarcity and violence This belief a staple of governmental decision making during both Clinton administrations and widely held in the environmental security field depends on particular assumptions about the nature of the state the role of population growth and the causes of environmental degradation The conventional

understanding of environmental security and its assumptions about the relation between violence and the environment are challenged and refuted in *Violent Environments* Chapters by geographers historians anthropologists and sociologists include accounts of ethnic war in Indonesia petro violence in Nigeria and Ecuador wildlife conservation in Tanzania and friendly fire at Russia's nuclear weapons sites *Violent Environments* portrays violence as a site specific phenomenon rooted in local histories and societies yet connected to larger processes of material transformation and power relations The authors argue that specific resource environments including tropical forests and oil reserves and environmental processes such as deforestation conservation or resource abundance are constituted by and in part constitute the political economy of access to and control over resources *Violent Environments* demands new approaches to an international set of complex problems powerfully arguing for deeper more ethnographically informed analyses of the circumstances and processes that cause violence

The Serengeti's Lions: Kings Of The African Plains Nicky Huys,2024-01-25 The Serengeti s Lions Kings of the African Plains takes readers on a captivating journey into the heart of the Serengeti where the iconic lions reign supreme Through stunning photography and insightful narration this book explores the lives of these majestic creatures their social dynamics hunting techniques and the challenges they face in a changing world From the powerful roar of the males to the nurturing nature of lionesses this book provides a deep and intimate look at the lives of the Serengeti s lions and their vital role in the African ecosystem With breathtaking images and compelling storytelling this book is a tribute to the kings and queens of the savannah offering a profound appreciation for one of nature s most awe inspiring creatures **Foreign Field Research Program** ,1963 **War on Hunger** ,1969 **Small Arms Survey 2015** Small Arms Survey,2015-07-30 The

Small Arms Survey 2015 examines the role of weapons and armed violence in humanity's appropriation of the earth's wildlife and mineral riches in Africa where the poaching of elephants and rhinos is becoming increasingly militarised and near resource extraction sites around the world. In addition to presenting updates on the UN small arms process and the top arms importers and exporters, the volume assesses how recent technological developments affect weapons marking, record keeping and tracing, reviews small arms flows to Egypt, Libya and Syria, and evaluates a stockpile management initiative in south east Europe. The armed actors section sheds light on the arms and ammunition used by insurgents in northern Mali, the decline of the Forces Démocratiques de Libération du Rwanda and the use of floating armouries by private security companies in the Indian Ocean. This edition also analyses conditions that are driving young people to adopt high risk coping strategies in Burundi.

The Great Migration Jonathan Scott, 1988

Savannas of Our Birth Robin Reid, 2012-10-01 This book tells the sweeping story of the role that East African savannas played in human evolution, how people, livestock and wildlife interact in the region today, and how these relationships might shift as the climate warms, the world globalizes and human populations grow. Our ancient human ancestors were nurtured by African savannas which today support pastoral peoples and the last remnants of great Pleistocene herds of large mammals. Why has this wildlife thrived best where they live side by side with humans? Ecologist Robin S. Reid delves into the evidence to find that herding is often compatible with wildlife and that pastoral land use sometimes enriches savanna landscapes and encourages biodiversity. Her balanced scientific and accessible examination of the current state of the relationships among the region's wildlife and people holds critical lessons for the future of conservation around the world.

Small Arms Survey 2015 Keith Krause, 2015-07-30 Highlights emerging trends and concerns regarding armed violence and small arms proliferation, as well as related policies and programming.

Flying Eagle Sudipta Bardhan-Quallen, 2009-02-01 Tired hunter must succeed. Baby hungry mouth to feed. Flying eagle soaring high. Blazing sunset crimson sky. The sun is setting and the weary tawny eagle continues to soar and search over the vast Serengeti Plain. He has been hunting all day and he will not stop until he finds food for his young chick. As the sky darkens and nighttime approaches, predators and prey emerge on the land below. Hippos lounge, cobras slither, lions prowl, zebras gallop, rhinos graze, dik-diks scurry, and still the eagle searches. Poetic text and stunning illustrations depict a father tawny eagle on his evening flight. Back matter provides additional information about the tawny eagle and the Serengeti Plain. FLYING EAGLE is an intriguing introduction to the African landscape of the Serengeti, which is rich in wildlife but in danger of being damaged by poachers.

Poachers In The Serengeti: Bestsellers in 2023 The year 2023 has witnessed a remarkable surge in literary brilliance, with numerous captivating novels enthralling the hearts of readers worldwide. Lets delve into the realm of popular books, exploring the fascinating narratives that have captivated audiences this year. Poachers In The Serengeti : Colleen Hoover's "It Ends with Us" This touching tale of love, loss, and resilience has gripped readers with its raw and emotional exploration of domestic abuse. Hoover skillfully weaves a story of hope and healing, reminding us that even in the darkest of times, the human spirit can triumph. Uncover the Best : Taylor Jenkins Reids "The Seven Husbands of Evelyn Hugo" This captivating historical fiction novel unravels the life of Evelyn Hugo, a Hollywood icon who defies expectations and societal norms to pursue her dreams. Reids compelling storytelling and compelling characters transport readers to a bygone era, immersing them in a world of glamour, ambition, and self-discovery. Discover the Magic : Delia Owens "Where the Crawdads Sing" This evocative coming-of-age story follows Kya Clark, a young woman who grows up alone in the marshes of North Carolina. Owens weaves a tale of resilience, survival, and the transformative power of nature, captivating readers with its evocative prose and mesmerizing setting. These top-selling novels represent just a fraction of the literary treasures that have emerged in 2023. Whether you seek tales of romance, adventure, or personal growth, the world of literature offers an abundance of captivating stories waiting to be discovered. The novel begins with Richard Papen, a bright but troubled young man, arriving at Hampden College. Richard is immediately drawn to the group of students who call themselves the Classics Club. The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is an exceptional and suspenseful novel that will keep you guessing until the very end. The novel is a cautionary tale about the dangers of obsession and the power of evil.
