Readings In Contemporary Civilization:

Readings in Contemporary Civilization Columbia College (Columbia University). Contemporary Civilization Staff,1993

Readings for Contemporary Civilization University of North Carolina (1793-1962). State College of Agriculture and Engineering, Raleigh. Department of Social Studies,1952 **Readings in Public Policy** John S. Thomson,1949

Readings on Man in Contemporary Society Columbia College (Columbia University),1952 East and west ,1965

East and West 335 Readings in the Background of Contemporary Civilization in Turkey ,1965 *East and West* ,1965 **The Reforming of General Education** S. A. Barnett,2017-07-05 This comprehensive examination of general

education by Daniel Bell scrutinizes the experiences of Columbia College Harvard and The College of the University of Chicago These three basic models of general education in the country are set against a background of social change which includes a detailed analysis of structural changes in American society the universities and the secondary schools and what Bell has called the emerging postindustrial society Bell attacks the distinction between general education and specialism He holds that one must embody and exemplify general education through disciplines and extend the context of specialism by setting it within the methodological grounds of knowledge The common link between the two is the emphasis on conceptual inquiry By emphasizing modes of conceptualization how one knows rather than what one knows Bell insists that colleges can have a new vivifying function between the pressures of the secondary and graduate schools In his proposals for a new curriculum Bell sets forth a scheme that imagines the first year as an acquisition of necessary historical and humanistic knowledge the next two years as training in a discipline and the last year the third tier the most radical innovation as a new kind of general education course which would brake specialization and apply disciplined knowledge to broad intellectual and policy questions College Readings on Current Problems ,1925 **Shattered Consensus** James Piereson,2016-11-08 The

United States has been shaped by three sweeping political revolutions Jefferson s revolution of 1800 the Civil War and the New Deal Each of these upheavals concluded with lasting institutional and cultural adjustments that set the stage for a new phase of political and economic development Are we on the verge of another upheaval a fourth revolution that will reshape U S politics for decades to come There are signs to suggest that we are James Piereson describes the inevitable political turmoil that will overtake the United States in the next decade as a consequence of economic stagnation the unsustainable growth of government and the exhaustion of postwar arrangements that formerly underpinned American prosperity and power The challenges of public debt the retirement of the baby boom generation and slow economic growth have reached a point where they require profound changes in the role of government in American life At the same time the widening gulf between the two political parties and the entrenched power of interest groups will make it difficult to negotiate the changes needed to renew the system Shattered Consensus places this impending upheaval in historical context reminding readers that Americans have faced and overcome similar trials in the past in relatively brief but intense periods of political conflict While

others claim that the United States is in decline Piereson argues that Americans will rise to the challenge of forming a new governing coalition that can guide the nation on a path of dynamism and prosperity My Columbia Ashbel Green,2005 During its 250 year history Columbia University has produced a remarkable array of writers poets scientists and statesmen many of whom have written eloquently about their experiences at the university My Columbia collects a broad range of these reminiscences excerpts from memoirs novels and poems that relate the experiences of students faculty and administrators and paint a vibrant portrait of the university and the city of which it is such a vital part *Global Modernity, Development, and Contemporary Civilization* José Maurício Domingues,2013-07-03 This book investigates modern global civilization offering an alternative to post colonial theories and the multiple modernities approach as well as the civilizational theory linked to it It argues that modernity has become a global civilization that is heterogeneous and intertwined with other civilizations and also aims at a renewal of critical theory that is not US centric and Eurocentric focusing instead on China South Asia India and Latin America Brazil Dealing with the themes of centre periphery relations complexity including culture and religion democracy and emancipatory possibilities this book is based on general theoretical ideas such as collective subjectivity the interplay of memory and creativity and the concept of modernizing moves so as to deal with historical contingency **Professing Literature** Gerald Graff,2024-05-31 Widely considered the standard history of the profession of literary studies Professing Literature unearths the long forgotten ideas and debates that created the literature department as we know it today In a readable and often amusing narrative Gerald Graff shows that the heated conflicts of our recent culture wars echo and often recycle controversies over how literature should be taught that began more than a century ago Updated with a new preface by the author that addresses many of the provocative arguments raised by its initial publication Professing Literature remains an essential history of literary pedagogy and a critical classic Graff s history is a pathbreaking investigation showing how our institutions shape literary thought and proposing how they might be changed The Norton Anthology of Theory and Criticism **Catalog of Copyright Entries. Third Series** Library of Congress. Copyright Office,1952 Includes Part 1A Books **Catalogue** University of Puerto Rico (1903-1966),1928 **Angelica's Book and the World of Reading in Late Renaissance Italy** Brendan Dooley,2016-10-20 Through the lens of a history of material culture mediated by an object Angelica s Book and the World of Reading in Late Renaissance Italy investigates aspects of women s lives culture ideas and the history of the book in early modern Italy Inside a badly damaged copy of Straparola s 16th century work *Piacevoli Notti* acquired in a Florentine antique shop in 2010 an inscription is found attributing ownership to a certain Angelica Baldachini The discovery sets in motion a series of inquiries deploying knowledge about calligraphy orthography linguistics dialectology and the socio psychology of writing to reveal the person behind the name Focusing as much on the possible owner as upon the thing owned Angelica s Book examines the genesis of the *Piacevoli Notti* and its many editions including the one in question The intertwined stories of the book and its owner are set against the backdrop of

a Renaissance world still imperfectly understood in which literature and reading were subject to regimes of control and the new information throws aspects of this world into further relief especially in regard to women's involvement with reading books and knowledge The inquiry yields unexpected insights concerning the logic of accidental discovery the nature of evidence and the mission of the humanities in a time of global crisis Angelica's Book and the World of Reading in Late Renaissance Italy is a thought provoking read for any scholar of early modern Europe and its culture *Christian* Matthew

Bowman,2018-04-02 Religious diversity is a defining feature of the United States But more remarkable than the range of faiths is the diversity of political visions embedded in them Matthew Bowman delves into the ongoing struggle over the potent word Christian not merely to settle theological disputes but to discover its centrality to American politics **Annual Catalogue of the Agricultural and Mechanical College of Texas. Session ...** Agricultural and Mechanical College of Texas,1924 **A Great Idea at the Time** Alex Beam,2010-09 Today the classics of the western canon written by the

proverbial dead white men are cannon fodder in the culture wars But in the 1950s and 1960s they were a pop culture phenomenon The Great Books of Western Civilization fifty four volumes chosen by intellectuals at the University of Chicago began as an educational movement and evolved into a successful marketing idea Why did a million American households buy books by Hippocrates and Nicomachus from door to door salesmen And how and why did the great books fall out of fashion In A Great Idea at the Time Alex Beam explores the Great Books mania in an entertaining and strangely poignant portrait of American popular culture on the threshold of the television age Populated with memorable characters A Great Idea at the Time will leave readers asking themselves Have I read Lucretius's De Rerum Natura lately If not why not Religious Studies in Alberta Ronald W. Neufeldt,1983-02-02 This first volume on the state of the art in religious studies in Canada offers a description and critique of the field in the colleges universities and secondary schools in Alberta Among the findings philosophical theological and textual approaches to the study of religion predominate to the relative neglect of methodologies employed in fields such as sociology and anthropology the quality and quantity of published research is significant but focusses on Christian studies some interdisciplinary study is being carried on and benefits religious studies as well as other fields religious studies scholars in Alberta have a relatively high public profile but their exercise of public responsibility is time consuming and can jeopardize career advancement in view of wide spread religious illiteracy among students descriptive courses must not be neglected in favour of analytical ones An appendix listing courses offered in the schools surveyed concludes the volume
