The Real America Ben J. Charting a New Diplomatic Course Cecil V. Crabb, Jr., Leila S. Sarieddine, Glenn J. Antizzo, 2001-08-01 America s victory in the Cold War is a milestone in the nation s diplomatic experience The disintegration of the Soviet Union and the defeat of communism have made containment policy the foundation of U S foreign relations for almost a half century obsolete and policymakers and political scientists alike struggle to decide what new strategy should guide the country s involvement on the international stage In this pathbreaking work Cecil V Crabb Jr Leila E Sarieddine and Glenn J Antizzo identify and analyze six distinct approaches to America s diplomatic course after the Cold War addressing perhaps the most important question of our time what should U S foreign policy be in the twenty first century First the

authors examine the familiar doctrine of American isolationism and consider an alternative approach conservative neo isolationism which encourages policymakers to use careful discrimination but decisive action in assuming commitments abroad Liberal neo isolationism a third possible course resists active interventionist strategies because of the dangers they pose to congressional power and America s democratic system At the opposite end of the spectrum are conservative interventionism the belief that America must maintain a strong military arsenal and engage in preventative diplomacy liberal interventionism the conviction that America has a responsibility to actively promote the cause of democracy and defend human rights beyond its own borders and pragmatic interventionism an approach taken by the Clinton Administration that relies on a cost benefit analysis of policy as problems arise Elegantly written and authoritatively researched *Charting a New Diplomatic Course* provides a much needed frame of reference for anyone interested in America s future in international affairs

State of the Masses James Wright, 2017-07-12 Is the consciousness of Americans in the midst of dramatic transformation Or do people think and feel much the same as they have always thought and felt Do most people enjoy their work or hate it Is the American family being replaced by new institutional forms or is it much the same as it was in the 1950 s Have material values been replaced by a postmaterial consciousness in a postindustrial society Are Americans becoming more conservative less conservative or staying about the same *State of the Masses* asks the important questions Originally published in 1986 this prescient study evaluate the views of social critics neo conservatives neo Marxists post industrialists and the theorists of the little man who puport to describe the nature social conditions outlooks and motivations of the American populace The claims of one group are often diametrically opposed to those of another The authors make the case for which claims can be considered true and which false Hamilton and Wright analyze the contradictory claims and compares their implications with the best social science research and data available at that time They also explore the implications for theories in light of the conflicting portrait the evidence provides The authors conclude with a new perspective for understanding continuities and changes in the United States This is a prescient view of American society during turmoil and a model for how social science research can be used predictively

Rendezvous with Destiny Craig Shirley, 2014-04-08 A first rate work of insider his tory A monumental accomplishment *National Review* The election that changed everything Craig Shirley s masterful account of the 1980 presidential campaign reveals how a race judged too close to call as late as Election Day became a Reagan landslide and altered the course of history To write *Rendezvous with Destiny* Shirley gained unprecedented access to 1980 campaign files and interviewed more than 150 insiders from Reagan s closest advisers and family members to Jimmy Carter himself His gripping account follows Reagan s unlikely path from his bitter defeat on the floor of the 1976 Republican convention through his underreported wilderness years through grueling primary fights in which he knocked out several Republican heavyweights through an often nasty general election campaign complicated by the presence of a third party candidate not to mention the looming shadow of Ted Kennedy to Reagan s astounding victory on

Election Night in 1980 Shirley's years of intensive research have enabled him to relate countless untold stories including at long last the solution to one of the most enduring mysteries in politics just how Reagan's campaign got hold of Carter's debate briefing books

Culture, Capitalism, and Democracy in the New America Richard Harvey Brown, 2008-10-01 The United States is in transit from an industrial to a postindustrial society from a modern to postmodern culture and from a national to a global economy In this book Richard Harvey Brown asks how we can distinguish the uniquely American elements of these changes from more global influences His answer focuses on the ways in which economic imperatives give shape to the shifting experience of being American Drawing on a wide knowledge of American history and literature the latest social science and contemporary social issues Brown investigates continuity and change in American race relations politics religion conception of selfhood families and the arts He paints a vivid picture of contemporary America showing how postmodernism is perceived and felt by individuals and focusing attention on the strengths and limitations of American democracy

The First Measured Century Theodore Caplow, Louis Hicks, Ben J.
