Real Ethics Reconsidering The Foundations Of Morality:

Real Ethics John M. Rist, 2002 *Real Ethics* John M. Rist, 2002 This 2001 book is a powerful defence of an ethical theory based on a revised version of Platonic realism *J.M. Coetzee and the Ethics of Power* Emanuela Tegli, 2016-01-12 For I was not as I liked to believe the indulgent pleasure loving opposite of the cold rigid Colonel I was the lie that Empire tells itself when times are easy he the truth that Empire tells when harsh winds blow Thus the Magistrate confesses in Coetzee's 1980 novel *Waiting for the Barbarians* The present study looks closely into the unsettling effects Coetzee's novels have on the reader and explores the interconnectedness between stylistic choices and moral insights Its overall aim is to disclose the effectiveness of Coetzee's narrative strategies to prompt the reader to engage in self-questioning and radical revisions of personal and social moral assumptions This is an original and ground-breaking study of Coetzee's work Dr Tegli's insightful close readings highlight the ways in which Coetzee fictionalizes a variety of moral dilemmas In particular she shows how he turns narrative into an instrument for moral discernment Her narratological approach advances our understanding of his achievements and I can state without reservation that this book will be referred to as a landmark in Coetzee criticism Richard Bradford Research Professor and Senior Distinguished Research Fellow University of Ulster

Ars Vitae Elisabeth Lasch-Quinn, 2020-10-15 Despite the flood of self-help guides and our current therapeutic culture feelings of alienation and spiritual longing continue to grip modern society In this book Elisabeth Lasch-Quinn offers a fresh solution a return to classic philosophy and the cultivation of an inner life The ancient Roman philosopher Cicero wrote that philosophy is *ars vitae* the art of living Today signs of stress and duress point to a full-fledged crisis for individuals and communities while current modes of making sense of our lives prove inadequate Yet in this time of alienation and spiritual

longing we can glimpse signs of a renewed interest in ancient approaches to the art of living In this ambitious and timely book Elisabeth Lasch Quinn engages both general readers and scholars on the topic of well being She examines the reappearance of ancient philosophical thought in contemporary American culture probing whether new stirrings of Gnosticism Stoicism Epicureanism Cynicism and Platonism present a true alternative to our current therapeutic culture of self help and consumerism which elevates the self's needs and desires yet fails to deliver on its promises of happiness and healing Do the ancient philosophies represent a counter tradition to today's culture auguring a new cultural vibrancy or do they merely solidify a modern way of life that has little use for inwardness the cultivation of an inner life stemming from those older traditions Tracing the contours of this cultural resurgence and exploring a range of sources from scholarship to self help manuals films and other artifacts of popular culture this book sees the different schools as organically interrelated and asks whether taken together they can point us in important new directions *Ars Vitae* sounds a clarion call to take back philosophy as part of our everyday lives It proposes a way to do so sifting through the ruins of long forgotten and recent history alike for any shards helpful in piecing together the coherence of a moral framework that allows us ways to move forward toward the life we want and need

Great Is the Lord Ron Highfield, 2008-08-15 In keeping with the classic Christian tradition *Great Is the Lord* sets out the doctrine of God in a way that illumines the mind moves the heart and stirs the soul to praise the triune God Ron Highfield introduces students ministers and others to the traditional doctrine of God held by the majority of the church from the second to the twentieth century God is triune loving merciful gracious patient wise one simple omnipotent omniscient eternal omnipresent immutable impassible and glorious Irenically challenging open theism and process theology Highfield shows that the classical doctrine of God actually preserves our confidence in God's love and his liberating action better than its opponents do This traditional doctrine Highfield argues grounds our dignity and freedom in the center of reality the trinitarian life of God Highfield's work maintains the highest intellectual standards throughout even as it offers a true theology for the praise of God

God's Command John E. Hare, 2015-10-29 This work focuses on divine command and in particular the theory that what makes something obligatory is that God commands it and what makes something wrong is that God commands us not to do it Focusing on the Abrahamic faiths eminent scholar John E Hare explains that two experiences have had to be integrated The first is that God tells us to do something or not to do something The second is that we have to work out ourselves what to do and what not to do The difficulty has come in establishing the proper relation between them In Christian reflection on this two main traditions have emerged divine command theory and natural law theory Hare successfully defends a version of divine command theory but also shows that there is considerable overlap with some versions of natural law theory He engages with a number of Christian theologians particularly Karl Barth and extends into a discussion of divine command within Judaism and Islam The work concludes by examining recent work in evolutionary psychology and argues that thinking of our moral obligations as produced by divine

command offers us some help in seeing how a moral conscience could develop in a way that is evolutionarily stable

Translation Applied! Ali Darwish,2010-09-15 Limits of Economic and Social Knowledge S. DeCanio,2013-11-21 The book aims to show that the deterministic vision embodied in conventional economic modelling is neither consistent with nor supported by the state of the art in mathematics logic and physical science DeCanio recognizes that economic agents are intrinsically free and somewhat unpredictable which is essential for economic and social theory **Sculpting the Self** Muhammad Umar Faruque,2021-08-17 Sculpting the Self addresses what it means to be human in a secular post Enlightenment world by exploring notions of self and subjectivity in Islamic and non Islamic philosophical and mystical thought Weaving together insights from several disciplines such as religious studies philosophy anthropology critical theory and neuroscience and arguing against views that narrowly restrict the self to a set of cognitive functions and abilities this study proposes a multidimensional account of the self that offers new options for addressing central issues in the contemporary world including spirituality human flourishing and meaning to life
