personal journey of discovery Gordon begins by analysing what a twelfth century meeting between Chinggis Khan and Taoist priest Ch ang Ch un can tell us about the presence of opposing traits and the nature of evil in human beings We learn what depth psychology has said about evil and the shadow part of our psyches and examine examples of human behaviour throughout history to understand the etymological philosophical and historical understandings and definitions of evil Gordon s own relationship with her work and the feelings that arise when researching the psychological framework of Nazi doctors genocide in Rwanda Bosnia and Syria and the functionality of serial killers are interrogated We then return to Chinggis Khan s and Ch ang Ch un s relationship attempting to build a real and practical definition of evil and assessing their dialogues as a metaphor for Jung s views of the transcendent function Fieldnotes from a Depth Psychological Exploration of Evil will be essential reading for academics and students of Jungian and post Jungian studies sociology criminology and philosophy It will also be a key resource for Jungian analysts and psychotherapists interested in the study of evil and its impact on society and the psyche as well as anyone investigating and redefining their own meanings of evil past and present **The Ark, The**
