Religious Fundamentalism And Political Extremism:

Religious Fundamentalism and Political Extremism Ami Pedahzur, Leonard Weinberg, 2004-11-23 This book explores the relationships between fundamentalist religious belief political extremism and outbreaks of religiously inspired violence Is the post Cold War world increasingly violent and is this violence the result of strident religious understandings of how societies should be organized *Special Issue Religious Fundamentalism and Political Extremism* Leonard Weinberg, 2003

Religion and Extremism Douglas Pratt, 2017-12-14 Focusing on the three monotheistic religions of Judaism Christianity and Islam Douglas Pratt argues that despite a popular focus on Islam extremist Jews and Christians can also enact terror and destruction Religion and Extremism stresses that the ideological rejection of diversity underlies religious extremism resulting in violent behaviours and increasingly in hardening social and religious attitudes and responses An analysis of religiously driven terrorism reveals the presence of a distinctive and rigid form of exclusivity found in these religions In this regard the contemporary resurgence in totalising claims of fundamentalist ideologues is cause for particular concern Pratt reasons that however expressed the motif of the Absolute is central to all but how that absolute is and has been received interpreted and responded to is a matter of great diversity The author asserts that theological Absolutism displays an underlying dynamic whereby these three religions may be led into extremism Religion and Extremism also explores contemporary issues of Islamophobia and mutual extremism identified as reactive co radicalization and concludes by reflecting on how extremism today might be countered Understanding Interreligious Relations David Cheetham, Douglas Pratt, David Thomas, David Richard Thomas, 2013-11 A multi authored volume that explores the theme of the religious other from the perspective of five major religions Hinduism Judaism Buddhism Christianity and Islam and discusses a range of issues in which interreligious relations are central The Nature and Origins of Political Extremism In Germany and Beyond Sebastian

Jungkunz, 2021-11-24 This book provides a systematic overview of the prevalence causes and stability of left wing and right wing extremist attitudes in Germany between 1994 and 2017 It shows that there are many similarities between left wing and right wing extremists both in terms of their ideologies and their individual experiences Overall these causes can be traced back to three factors unmet individual needs e g deprivation or disenchantment with politics access to ideological narratives that promise simplified solutions to individual problems and the larger social circumstances of life e g transformation processes unemployment or immigration Although extremist attitudes are relatively rare they are also shown to be highly stable once acquired individuals are difficult to bring back onto the democratic path This book is the first to systematically compare left wing and right wing extremist attitudes to provide an intensive methodological contribution to the measurability of such attitudes and to relate their causes and stability *Extreme Right Wing Political Violence and Terrorism* Max Taylor, P.M. Currie, Donald Holbrook, 2013-02-14 In this collection senior experts explore all aspects of extreme right wing political violence from the nature of the threat processes of engagement and ideology to the lessons that can be drawn from

exiting such engagement Further right wing activism and political violence are compared with Jihadi violence and engagement Also the European experience is placed within a greater framework including that of the United States and the Arab Spring The book opens with an essay on U S far right groups investigating their origins and processes of recruitment It then delves into violence against UK Mosques and Islamic centers the relationship between Ulster loyalism and far right extremism the Dutch extremist landscape and the July 2011 Norway attacks Also discussed are how narratives of violence are built and justified at what point do individuals join into violence and how differently states respond to left wing vs right wing extremism This comparative work offers a unique look into the very nature of right wing extremism and will be a must read for anyone studying political violence and terrorism

The Routledge Handbook of Terrorism Research Alex Schmid, 2011-02-25 This major new Handbook synthesises more than two decades of scholarly research and provides a comprehensive overview of the field of terrorism studies The content of the Handbook is based on the responses to a questionnaire by nearly 100 experts from more than 20 countries as well as the specific expertise and experience of the volume editor and the various contributors Together they guide the reader through the voluminous literature on terrorism and propose a new consensus definition of terrorism based on an extensive review of existing conceptualisations The work also features a large collection of typologies and surveys a wide range of theories of terrorism Additional chapters survey terrorist databases and provide a guide to available resources on terrorism in libraries and on the Internet It also includes the most comprehensive World Directory of Extremist Terrorist and other Organizations associated with Guerrilla Warfare Political Violence Protest and Organized and Cyber Crime The Routledge Handbook of Terrorism Research will be an essential work of reference for students and researchers of terrorism and political violence security studies criminology political science and international relations and of great interest to policymakers and professionals in the field of counter terrorism

The Routledge Handbook of Terrorism Research Alex Peter Schmid, 2011 This volume is a monumental collection of definitions conceptual frameworks paradigmatic formulations and bibliographic sources which is now being revised and updated as a resource for the expanding community of researchers on the subject of terrorism

The Terrorist's Dilemma Jacob N. Shapiro, 2013-08-04 A comprehensive look at how terrorist groups organize themselves How do terrorist groups control their members Do the tools groups use to monitor their operatives and enforce discipline create security vulnerabilities that governments can exploit The Terrorist's Dilemma is the first book to systematically examine the great variation in how terrorist groups are structured Employing a broad range of agency theory historical case studies and terrorists own internal documents Jacob Shapiro provocatively discusses the core managerial challenges that terrorists face and illustrates how their political goals interact with the operational environment to push them to organize in particular ways Shapiro provides a historically informed explanation for why some groups have little hierarchy while others resemble miniature firms complete with line charts and written disciplinary codes Looking at groups in Africa Asia Europe and North

America he highlights how consistent and widespread the terrorist s dilemma balancing the desire to maintain control with the need for secrecy has been since the 1880s Through an analysis of more than a hundred terrorist autobiographies he shows how prevalent bureaucracy has been and he utilizes a cache of internal documents from al Qa ida in Iraq to outline why this deadly group used so much paperwork to handle its people Tracing the strategic interaction between terrorist leaders and their operatives Shapiro closes with a series of comparative case studies indicating that the differences in how groups in the same conflict approach their dilemmas are consistent with an agency theory perspective The Terrorist s Dilemma demonstrates the management constraints inherent to terrorist groups and sheds light on specific organizational details that can be exploited to more efficiently combat terrorist activity

Anatomy of Modern Terrorism and Political Ideologies Pasquale De Marco,2025-07-23 Anatomy of Modern Terrorism and Political Ideologies is a comprehensive guide to the complex relationship between terrorism and political ideologies This book provides a deep dive into the different types of terrorism the motivations of terrorists and the impact of terrorism on society It also discusses the role of law enforcement intelligence and the media in countering terrorism In Anatomy of Modern Terrorism and Political Ideologies you will learn about The different types of terrorism including state sponsored terrorism religious terrorism and nationalist terrorism The motivations of terrorists including grievance ideology and mental health issues The impact of terrorism on society including economic social and psychological consequences The role of law enforcement intelligence and the media in countering terrorism The future of terrorism and the challenges that we face in combating it This book is essential reading for anyone who wants to understand the threat of terrorism and how to combat it It is a must read for policymakers law enforcement officials intelligence analysts and anyone else who is interested in this complex and challenging issue Anatomy of Modern Terrorism and Political Ideologies is written in a clear and concise style making it accessible to a wide range of readers It is also well researched and documented providing readers with a solid foundation of knowledge on this important topic If you are interested in learning more about terrorism and political ideologies then Anatomy of Modern Terrorism and Political Ideologies is the perfect book for you It is a comprehensive well written and informative guide to this complex and challenging issue If you like this book write a review

The Study of Religion Under the Impact of Fascism Horst Junginger, 2008 Addressing the European study of religion in the interwar period these proceedings tackle one of the most problematic epochs of its history The commonplace that understanding the present requires learning from the past is particularly true as this case well illustrates

Fighting the Last War Jeffrey M. Bale, Tamir Bar-On, 2024-01-24 The authors argue that the potential threat of a resurgence of fascism has been consistently exaggerated from 1945 until present day that the ongoing lack of conceptual and definitional clarity with respect to terms like fascism the radical right the alt right white supremacism populism racism etc has enabled ill informed or dishonest commentators to distort their meaning and abusively misapply those labels so as to delegitimize their political opponents and that the political and economic elites in charge of contemporary Western societies are now deliberately exaggerating and exploiting the threat posed by the domestic radical right in order to facilitate vilifying harassing de platforming censoring canceling and repressing disgruntled citizens no matter where they may lie along the political spectrum who openly criticize and vigorously oppose their agendas The authors also advocate the use of well established scholarly methods for carrying out research on the right and provide precise definitions of various terms in order to facilitate the development of more accurate categorizations

Global Political Economy and the Wealth of Nations Phillip O'Hara, 2004-03-25 This comprehensive collection documents the major processes performance institutions problems and policies associated with global political economy For the first time in a single volume the authors present a detailed analysis of the changing distribution and production of wealth throughout the world different measures of performance the glob

Between Republic and Market Sarah Waters, 2012-07-12 The rise of neo liberal globalisation has posed major challenges for all European countries identifying itself as the key political tension of the coming era Yet it is in France that globalisation has produced the deepest tensions and it is here that it has generated its greatest political resistance The author pursues two separate lines of enquiry First she considers the influence of French political tradition and an enduring legacy of republicanism in shaping contemporary opposition If globalisation poses a greater ideological threat in France than elsewhere this is because it comes into conflict with the foundational values and symbols of the French Republic Secondly she examines contemporary French opposition as a site for political and ideological renewal Many critics now agree that it is within this emergent movement rather than within traditional parties that new forms of political practice and ideology are being invented

Youth Rising? Maysoun Sukarieh, Stuart Tannock, 2014-08-27 Over the last decade youth has become increasingly central to policy development media and public debates and conflicts across the world whether as an ideological symbol social category or political actor Set against a

backdrop of contemporary political economy Youth Rising seeks to understand exactly how and why youth has become such a popular and productive social category and concept The book provocatively argues that the rise and spread of global neoliberalism has not only led youth to become more politically and symbolically salient but also to expand to encompass a growing range of ages and individuals of different class race ethnic national and religious backgrounds Employing both theoretical and historical analysis authors Mayssoun Sukarieh and Stuart Tannock trace the development of youth within the context of capitalism where it has long functioned as a category for social control The book's chapters critically analyze the growing fears of mass youth unemployment and a lost generation that spread around the world in the wake of the global financial crisis They question as well the relentless focus on youth in the reporting and discussion of recent global protests and uprisings By helping develop a better understanding of such phenomena and critically and reflexively investigating the very category and identity of youth Youth Rising offers a fresh and sobering challenge to the field of youth studies and to widespread claims about the relationship between youth and social change

Religious Education Ednan Aslan, Margaret Rausch, 2018-06-06 The authors of this volume examine theory and practice regarding past and present roles of Jewish Christian and Islamic religious education in nurturing tolerance interpreted as mutual respect for and recognition of other groups in Eastern Albania Bulgaria Kosovo Macedonia Moldova Montenegro and Romania and Western Finland Germany Italy Latvia and Spain Europe Israel Nigeria and Uzbekistan They also explore potential roles of religion and exclusivism in fostering Islamic state NGOs etc but also averting Islamic legal theory authority Sufism etc radicalization and of secular states in allowing but also banning minority religious education in public schools With contributions from Friedrich Schweitzer Martin Rothgangel Gerhard Langer Daniela Stan Arto Kallioniemi Juan Ferreiro Galguera Maria Chiara Giorda Rossana M Salerno Viorica Gora Postic Constantin Iulian Damian Valentin Ilie Dzintra Ili ko Ayman Agbaria Zilola Khalilova Raid al Daghistani Osman Ta tan Moshe Ma oz Adriana Cupcea Muhamed Ali R diger Lohlker and Dele Ashiru The Editors Ednan Aslan is the Chair of Islamic Theological studies at the University of Vienna where he is a Professor for Islamic Education Margaret Rausch is scholar researcher and university instructor in the field of Islamic and Religious Studies

Religion Matters Paul Babie, Rick Sarre, 2020-03-02 This book draws together leaders in science the health sciences the humanities and the social sciences to investigate the role of religion its meaning and relevance for their area of specialization It provides a much needed fresh perspective on the way in which religion operates within the modern neo liberal world The book approaches the topic by way of a critical engagement between religion broadly defined and the individual disciplines in which each of the contributors is expert Rather than simply taking the dogmatic position that religion offers something to every possible discipline each of the chapters in this collection addresses the question is there something that religion can offer to the discipline in question That is the value of the book it takes a truly critical stance on the place of religion in contemporary society

Hamas and Suicide Terrorism Rashmi Singh, 2013-01-11 This book analyses the root causes of

suicide terrorism at both the elite and rank and file levels of the Hamas and also explains why this tactic has disappeared in the post 2006 period This volume adopts a multi causal multi level approach to analyse the use of suicide bombings by Hamas and its individual operatives in the Israeli Palestinian conflict It uses extensive fieldwork and on the ground interviews in order to delve beneath the surface and understand why and how suicide operations were adopted as a sustained mechanism of engagement within the Israeli Palestinian conflict Three core factors fuelled Hamas s suicide bombing campaigns First Palestinian suicide operations are a complex combination of instrumental and expressive violence adopted by both organisations and individuals to achieve political and or societal survival retaliation and competition In other words suicide bombings not only serve distinct political and strategic goals for both Hamas and its operatives but they also serve to convey a symbolic message to various audiences within Israel the Palestinian territories and around the world Second suicide operations perform a crucial role in the formation and consolidation of Palestinian national identity and are also the latest manifestation of the historically entrenched cultural norm of militant heroic martyrdom Finally Hamas s use of political Islam also facilitates the articulation justification and legitimisation of suicide operations as a modern day jihad against Israel through the means of modern interpretations and fatwas This approach not only facilitates a much needed multifaceted holistic understanding of suicide bombings in this particular region but also yields policy relevant lessons to address extreme political violence in other parts of the world This book will be of much interest to students of Hamas terrorism Middle East politics and security studies

Political Ideologies Leon P. Baradat, John A. Phillips, 2016-09-14
Comprehensive and accessible Political Ideologies follows the evolution of political thought over 300 years Organized chronologically this text examines each major ideology within a political historical economic and social context Leon Baradat s skillful prose is joined by John Phillips skillful updating to ensure that students obtain a clear understanding of how ideas influence the political realities of our time The twelfth edition of this beloved text emphasizes new developments in ideologically charged arenas including the Middle East and Islam gay marriage feminism climate change and more New to the 12th edition In addition to a thorough updating of examples detail and data the following items are either wholly new or considerably expanded in this edition The mixed legacy of the Obama administration on civil liberties foreign policy health care immigration and especially the environment and the mounting jeopardy to the global environment posed by record breaking global warming and pollution The recently developed variegations in conservatism The Tea Party movement the expanding political importance of religious extremists and the growing incivility of its extremists The Great Recession its causes and its political fallout The US tax system s mal distribution of wealth and its implications for the middle class and American democracy The reemergence of authoritarianism in the Developing World and Russia China s continuing economic miracle while maintaining a firm grip on the political system if through official corruption but also suffering serious social environmental and health problems The transfer of power from Fidel to Raoul Castro and the rapprochement of the US and

Cuba Right wing extremism mounting in Europe Asia and the United States The growing salience of Islamism the Iran nuclear deal and the transformation of the Arab Spring to the Islamist Winter Terrorism s increasing acceptance in certain quarters especially the spread of ISIS in the Middle East and its mounting threat to the globe via sleeper cells and lone wolf attacks The spreading strength of feminism in the Developing World and a renewed focus on the gender wage gap and same sex marriage in the West
