Religious Language An Empirical Placing Of Theological Phrases:

Religious Language Ian T. Ramsey, 1963 **The Quest for Plausible Christian Discourse in a World of Pluralities**

Younhee Kim, 2008 This book critically examines David Tracy's well known methodology of fundamental theology namely his revisionist model as developed in his *Blessed Rage for Order* 1975 together with his methodological shifts through the 1980s 1990s and early 2000s It explores how successful he has been in constructing a methodology for the public theological discourse that he deems so necessary More particularly this book asks how serviceable this methodology is for articulating Christian discourse in an intelligible and public way in the contemporary context of religious plurality **Religious**

language Ian Thomas Ramsey, 1963 **Fragments: The Existential Situation of Our Time** David Tracy, 2020-04-10 Even as mere fragments these essays are an imaginatively learned feast for virtually anyone interested in modern theologies Modern Theology David Tracy is widely considered one of the most important religious thinkers in North America known for his pluralistic vision and disciplinary breadth His first book in more than twenty years reflects Tracy's range and erudition collecting essays from the 1980s to 2018 into a two volume work that will be greeted with joy by his admirers and praise from new readers In the first volume *Fragments* Tracy gathers his most important essays on broad theological questions beginning with the problem of suffering across Greek tragedy Christianity and Buddhism The volume goes on to address the Infinite and the many attempts to categorize and name it by Plato Aristotle Rilke Heidegger and others In the remaining essays he reflects on questions of the invisible contemplation hermeneutics and public theology Throughout Tracy evokes the potential of fragments understood both as concepts and events to shatter closed systems and open us to difference and Infinity Covering science literature philosophy psychoanalysis and non Western religious traditions Tracy provides in *Fragments* a guide for any open reader to rethink our fragmenting contemporary culture Tracy demonstrates the range of his philosophical interests in service of theology particularly his profound attention to hermeneutics A rich feast We can be grateful for the insightful essays collected in this volume from one of America's leading theologians *Currents in Theology and Mission* **Educational Ministry in the Logic of the Spirit** James E. Loder Jr., 2018-07-20 In November 2001 James E

Loder Jr Professor of the Philosophy of Christian Education for forty years at Princeton Theological Seminary suddenly died He was a creative and profound thinker who had just completed a promising book In it he developed a compelling interdisciplinary model to disclose how the divine Spirit affirms reconstitutes and transforms the human spirit to bring new energy and creativity into human experience He called it redemptive transformation You now hold that book in your hands Those who know Loder's work are confident that *Educational Ministry in the Logic of the Spirit* though delayed for over fifteen years will still become the best introduction to his complex thought More important it offers the imaginative means by which we may learn to attune ourselves and our faith communities to what God is doing in our fractured distracted and self destructive world to bring about a revolution of love the fruit of Christ's Spirit and the center of our human vocation **T&T**

Clark Handbook of Theology and the Arts Stephen M. Garrett, Imogen Adkins, 2025-04-24 This volume presents the theology arts conversation from a distinctly Christian perspective as a witness of the Gospel of Christ to the world A widespread interest in the historical socio cultural and political embeddedness of theology and the arts permeates it This theme of embeddedness tracks through several overarching and interlocking concerns the relationship between form and content in both art and theology the intensification of the metaphysical and the theological contra materialist and positivist reductionisms the expansion of the epistemological possibilities of the theology art conversation and a robust understanding of the world as the theatre of God s glory Several chapters have been co written by theologians and artists as part of demonstrating the kind of conversation that this book commends A thorough going commitment to Scripture is also woven into the many different habits of thought represented in this volume Part I surveys different approaches to the theology arts conversation Part II focuses on how particular art forms bring theological issues to the surface and how theological and denominational traditions shape the making and receiving of the arts Part III delves into key topics in the current theology arts scene and asks how artistic and theological performance can both speak to theological and artistic knowing and help to celebrate and interrogate embodied lived reality

The Value of Human Life P.J. Harland, 2014-09-03 This book examines the way in which the story of the flood in Genesis 6 9 presents the ethical question of the value of human life The sources J and P are examined to see how their combination in the canonical text enhances interpretation Several themes of the story are studied including the causes of the flood the righteousness of Noah God s repentance creation and uncreation the covenant and the image of God The work concludes by arguing that the value of human life is found in man s relation to God Gen 9 6

The Theologian's Craft John Warwick Montgomery, 2017-03-09 What is it to do theology Numerous conflicting and inadequate answers e g Bultmannian existentialism the post Bultmannian New Hermeneutic hold the field today these have in common a basic misunderstanding as to the relation of theological theologizing to theory construction in other fields of knowledge and a fundamental misconception in regard to the proper way of confirming or disconfirming theological judgments In this essay a detailed comparison between scientific and theological methodologies is set forth and the artistic and sacred dimensions of theological theorizing are explicated by way of an original structural model suggested by Wittgensteinian philosophical and linguistic analysis

Explanation Giora Hon, Sam S. Rakover, 2013-04-17 For some years we have been conducting at the University of Haifa an interdisciplinary seminar on explanation in philosophy and psychology We habitually begin the seminar with some philosophical reflections on explanation an analysis of the concept and its metaphysical underpinnings We discuss the various models and proceed to examine explanation in the setting of psychology Thus from the outset we have focused not only on the concept itself but also on its application The objective that we have set for the seminar attended by students from both departments Philosophy and Psychology has been a critical understanding of the concept of explanation its use and limitations We were keen on deepening our understanding of the concept and on

exploring its applications in fields of knowledge other than psychology This was the motivation for convening an international conference on explanation and its application The conference took place in the spring of 1998 under the auspices of the University of Haifa The present book is the fruit of this meeting The reader should note that the second part of the Introduction presents a detailed analytical account of the book We hope that this overview will facilitate efficient use of the book by directing the reader's attention to those issues that might be of interest to him or her *Doubt, Faith, and Certainty* Thiselton, Anthony C., 2017 *Doubt faith certainty* In this book celebrated theologian Anthony Thiselton provides clarity on these complicated long misunderstood theological concepts and the practical pastoral problems they raise for Christians He reminds us that doubt is not always bad faith can have different meanings in different circumstances and certainty is fragile Drawing on his expertise in the fields of exegesis and hermeneutics biblical studies and the history of Christian thought Thiselton works his way through the labyrinth of past definitions while offering better more nuanced theological understandings of these three interrelated concepts The result is a book that speaks profoundly to some of our deepest existential concerns *Christian Dogmatics* van der Kooi & van den Brink, 2017 A fresh inviting text on the content of Christian faith in our contemporary context This one volume systematic theology presents an accessible orthodox overview of the Christian faith for students teachers pastors and serious lay readers Cornelis van der Kooi and Gijsbert van den Brink not only cover all the traditional themes creation sin Jesus Christ Scripture and so on but also relate those classical themes to contemporary developments like Pentecostalism postfoundationalism and evolutionary theory Consisting of sixteen chapters the book is ideal for classroom use Each chapter begins with engaging questions and a statement of learning goals and concludes with a list of recommended further reading Written in a student friendly tone and style and expertly translated and edited van der Kooi and van den Brink's *Christian Dogmatics* splendidly displays the real practical relevance of theology to the complexities of our world today **Speaking the Incomprehensible God** Gregory P Rocca, 2004 Aimed at specialists in Aquinas and others interested in the God talk dialogue this book finds that Aquinas analogy is more a matter of judgement and truth than of concept and meaning despite his own presuppositions Aquinas bases his theological analogy more on the insights of faith than reason *Types of Pentecostal Theology* Christopher A. Stephenson, 2016-10 In this the first critical study of the major theologians of pentecostalism Christopher A Stephenson establishes four original categories that classify recent pentecostal theologians methodologies in systematic constructive theology *Christ Crucified* Donald Macleod, 2014-06-05 How could the life let alone the death of one man 2 000 years ago be the salvation of the human race Donald Macleod explains the centrality of the atonement in Christian faith and experience using seven key words to describe what happened on the cross substitution expiation propitiation reconciliation satisfaction redemption and victory *The Oxford Handbook of Philosophy of Religion* William Wainwright, 2004-12-16 The Oxford Handbook of Philosophy of Religion contains newly commissioned chapters by 21 prominent experts who cover the field in a comprehensive but accessible

manner Each chapter is expository critical and representative of a distinctive viewpoint The Healing Myth J. Keir Howard, 2013-09-09 What is the role of the church in ministering to the sick This book argues that it is not what is now called the healing ministry with its frequent claims of remarkable cures from physical illness Little critical attention seems to have been paid to the validity of these claims which if genuine would be producing clearly observable effects on the levels of morbidity and mortality in society Similarly the important ethical and moral questions the movement raises have also been very largely ignored A huge edifice of muddled theology together with highly questionable practice has been built upon very shaky foundations It is the purpose of this book to examine seriously the dubious claims and teaching of the modern healing movement as well to expose its very real dangers in order to encourage Christian people both ordained and lay to exercise a more critical approach to the healing movement The book concludes by outlining a framework for a return to a more biblical emphasis on proper pastoral care in the church s ministry to the sick Hartshorne, Process Philosophy, and Theology Robert Kane, Stephen H. Phillips, 1989-01-01 This book provides an introduction to Hartshorne s contributions to contemporary philosophy and theology It also covers some of the current controversies in philosophy and theology that Hartshorne s contributions have generated The opening chapter is a lucid and penetrating introduction to Hartshorne s thought Some of the following chapters break new ground on issues that have concerned Hartshorne throughout his career the nature and methods of metaphysics the existence and nature of God and the place of religion and metaphysics in the modern world Many chapters survey the current state of controversies on those topics Other chapters relate Hartshorne s work to other traditions and to trends in contemporary philosophy to postmodernism classical Western theism Indian philosophy analytical philosophy and American pragmatism Christian Criticism Thomas F. Merrill, 2023-12-04

Systematic Theology Anthony C. Thiselton, 2015 **The Austin Dogmatics** Paul Van Buren, 2012-06-12 Publication of the Austin Dogmatics fills a gap in American theological history In 1963 the author published *The Secular Meaning of the Gospel* which the press identified with the death of God movement While the author denied the association the Austin Dogmatics explains how he moved from the strict Barthianism of his early period to the linguistic analysis of his middle period His late and perhaps most important work that lay ahead was yet in another direction entirely making van Buren one of the most versatile and adventuresome American theologians of the second half of the twentieth century
