### **Black Muslim Religion in the Nation of Islam, 1960-1975**

Edward E. Curtis IV, 2009-01-05 Elijah Muhammad's Nation of Islam came to America's attention in the 1960s and 1970s as a radical separatist African American social and political group But the movement was also a religious one Edward E Curtis IV offers the first comprehensive examination of the rituals ethics theologies and religious narratives of the Nation of Islam showing how the movement combined elements of Afro Eurasian Islamic traditions with African American traditions to create a new form of Islamic faith Considering everything from bean pies to religious cartoons clothing styles to prayer rituals Curtis explains how the practice of Islam in the movement included the disciplining and purifying of the black body the reorientation of African American historical consciousness toward the Muslim world an engagement with both mainstream Islamic texts and the prophecies of Elijah Muhammad and the development of a holistic approach to political religious and social liberation Curtis's analysis pushes beyond essentialist ideas about what it means to be Muslim and offers a view of the importance of local processes in identity formation and the appropriation of Islamic traditions

*Religion in Multicultural Education* Farideh Salili, Rumjahn Hoosain, 2006-05-01 The National Association for Multicultural Education in Washington D C listed a number of issues that the school curriculum should address with reference to multicultural education including racism sexism classism linguisticism ablism ageism heterosexism and religious intolerance It is noteworthy that of all these issues religion is about the only one that throughout history people are willing to die for although whether what is at issue is really religion or other things such as territory is another matter It is also interesting that all the others have isms in their names but religious issues are characterized by intolerance Perhaps we should try to understand this intolerance and look at what steps might help to alleviate it However while intolerance might seem a simple thing understanding what is behind it and how it plays such a crucial role in religion requires what we refer to in the Introduction chapter as a multifaceted approach at multiple levels It is not enough just to try to dispel stereotypes of followers of other religions or to point out commonalities in world religions We should for example try to understand and appreciate how adherents of other religions try to answer questions regarding their adaptation to the contemporary environment It is through understanding how different religions coexist side by side at various levels that we truly come to learn about religion in multicultural education
