Religious Traditions and the Limits of Tolerance Louis J. Hammann, Harry Merwyn Buck, Michael J.

McTighe, 1988-01-01 This work looks at the questions which surround religious tolerance such as can religious traditions co exist peacefully It includes essays by contributors from many different religious and philosophical traditions attempting to answer these questions in the context of their backgrounds **Secular Faith** Vincent William Lloyd, Elliot A.

Ratzman, 2011-01-01 Is faith a necessary virtue in the contemporary world May it be or must it be detached from religious commitment What do genealogies of the secular tell us about faith Does religion need secular faith Secular Faith brings together leading and emerging scholars to reflect on the apparent paradox of secular faith Ranging over anthropology religious studies political science history and literature from Muslims in China to Pentecostals in South Africa to a prison chapel in Texas this collection of essays is as engaging and accessible as it is penetrating and rigorous Communism was once labeled the god that failed Like Christianity Communism involves faith in a superhuman endeavor conversion myth discipline and salvation and from the perspective of secular liberalism both are unjustified and false In recent years scholars have begun to investigate whether secularism is itself based on faith in a god that failed or is failing Nevertheless many still embrace such a faith finding in the spirit of democracy an ethos of eternal renewal Secular Faith enters and broadens this conversation interrogating secular faith in a global context tapping new theoretical resources and grappling provocatively with the tragedies and opportunities of today s profane pantheon of beliefs LIST OF ESSAYS AND THEIR CONTRIBUTORS 1 Uncool Passion Nietzsche Meets the Pentecostals Jean Comaroff 21 2 The Secular Bad Faith of Harry Thieriault the Bishop of Tellus Joshua Dubler 44 3 Darwin s Dogs Animals Animism and the Problem of Religion David Chidester 76 4 I Have Seen Miracles in My Life W E B Du Bois and the Religious Limits of Secularism Edward J Blum 102 5 Democracy Piety and Faith A Reading of Dewey s Religious Naturalism Melvin Rogers 126 6 Faith in the Time of Postsocialism Cindy Huang 153 7 Literary Enchantment and Literary Opposition from Hume to Scott Colin Jager 168 8 Imagined Communities Holistic Histories and Secular Faith Michael Saler 197 9 Interreligious Dialogue and Cosmopolitan Faith Adam K Webb 226 Deep

Cosmopolis Adam K. Webb, 2015-05-15 Too often observers of globalization take for granted that the common ground across cultures is a thin layer of consumerism and perhaps human rights If so then anything deeper and more traditional would be placebound and probably destined for the dustbin of history But must this be so Must we assume as both liberals and traditionalists now tend to do that one cannot be a cosmopolitan and take traditions seriously at the same time This book offers a radically different argument about how traditions and global citizenship can meet and suggests some important lessons for the contours of globalization in our own time Adam K Webb argues that if we look back before modernity we find a very different line of thinking about what it means to take the whole world as one s horizon Digging into some fascinating currents of thought and practice in the ancient world the Middle Ages and the early modern period across all major

civilizations Webb is able to reveal patterns of deep cosmopolitanism with its logic quite unlike that of liberal globalization today In their more cosmopolitan moments everyone from clerics to pilgrims to empire builders was inclined to look for deep ethical parallels points of contact among civilizations and traditions Once modernity swept aside the old civilizations however that promise was largely forgotten We now have an impoverished view of what it means to embrace a tradition and even what kinds of conversations across traditions are possible In part two Webb draws out the lessons of deep cosmopolitanism for our own time If revived it has something to say about everything from the rise of new non Western powers like China and India and what they offer the world to religious tolerance to global civil society to cross border migration Deep Cosmopolis traces an alternative strand of cosmopolitan thinking that cuts across centuries and civilizations It advances a new perspective on world history and a distinctive vision of globalization for this century which has the real potential to resonate with us all

Conversions Craig Harline, 2011-09-15 The experiences of two families one in seventeenth century Holland the other in America today and how they coped when a family member changed religions This powerful and innovative work by a gifted cultural historian explores the effects of religious conversion on family relationships showing how the challenges of the Reformation can offer insight to families facing similarly divisive situations today Craig Harline begins with the story of young Jacob Rolandus the son of a Dutch Reformed preacher who converted to Catholicism in 1654 and ran away from home causing his family to disown him In the companion story Michael Sunbloom a young American leaves his family's religion in 1973 to convert to Mormonism similarly upsetting his distraught parents The modern twist to Michael's story is his realization that he is gay causing him to leave his new church and upsetting his parents again but this time the family reconciles Recounting these stories in short alternating chapters Harline underscores the parallel aspects of the two far flung families Despite different outcomes and forms their situations involve nearly identical dynamics and heart wrenching choices Through the author's deeply informed imagination the experiences of a seventeenth century European family are transformed into immediately recognizable terms A beautiful and moving book Harline is a master at narrative and at making the most painstaking research look effortless Carlos Eire Yale University An absorbing creative book it will definitely become a go to book for readers interested in the history and psychology of conversion Lauren Winner author of *Girl Meets God* A Memoir An unexpected joy A compelling insightful examination *Conversions* is a journey well worth taking Gerald S Argetsinger Affirmation.org

Laurie L. Patton, 2019-11-27 Who Owns Religion focuses on a period the late 1980s through the 1990s when scholars of religion were accused of scandalizing or denigrating the very communities they had imagined themselves honoring through their work While controversies involving scholarly claims about religion are nothing new this period saw an increase in vitriol that remains with us today Authors of seemingly arcane studies on subjects like the origins of the idea of Mother Earth or the sexual dynamics of mysticism have been targets of hate mail and book banning campaigns As a result scholars of religion have struggled to describe their own work to their various publics and even to themselves Taking the reader through several compelling case studies Patton identifies two trends of the 80s and 90s that fueled that

rise the growth of multicultural identity politics which enabled a form of volatile public debate she terms eruptive public space and the advent of the internet which offered new ways for religious groups to read scholarship and respond publicly These controversies she shows were also fundamentally about something new the very rights of secular Western scholarship to interpret religions at all Patton's book holds out hope that scholars can find a space for their work between the university and the communities they study Scholars of religion she argues have multiple masters and must move between them while writing histories and speaking about realities that not everyone may be interested in hearing *The Longings and Limits of Global Citizenship Education* Jeffrey S. Dill, 2013-07-18 As the world seemingly gets smaller and smaller schools around the globe are focusing their attention on expanding the consciousness and competencies of their students to prepare them for the conditions of globalization Global citizenship education is rapidly growing in popularity because it captures the longings of so many to help make a world of prosperity universal benevolence and human rights in the midst of globalization's varied processes of change This book offers an empirical account from the perspective of teachers and classrooms based on a qualitative study of ten secondary schools in the United States and Asia that explicitly focus on making global citizens Global citizenship in these schools has two main elements both global competencies economic skills and global consciousness ethical orientations that proponents hope will bring global prosperity and peace However many of the moral assumptions of global citizenship education are more complex and contradict these goals and are just as likely to have the unintended consequence of reinforcing a more particular Western individualism While not arguing against global citizenship education per se the book argues that in its current forms it has significant limits that proponents have not yet acknowledged which may very well undermine it in the long run **Faith Exiles** Sarah Coleman, 2025-02-27 Faith Exiles delves into the lives of religious figures exiled for their beliefs revealing how these experiences shaped faith traditions The book examines the interplay between religious conviction political power and social justice Exile often seen as defeat frequently catalyzed religious reform and renewal For example early Christian leaders though exiled spread their message and medieval mystics despite persecution influenced religious thought The book explores this phenomenon by first introducing the concept of religious exile and its prevalence across faiths It then presents in depth case studies analyzing the circumstances responses and long term consequences of exile Drawing from historical documents and interdisciplinary perspectives Faith Exiles highlights the resilience of these figures emphasizing their active role in shaping religious discourse The journey through the chapters showcases how these exiles inadvertently strengthened their followers resolve By shedding light on these experiences the book offers a new perspective on religious authority tolerance and the state's role in religious expression It emphasizes the resilience and agency of exiled religious figures demonstrating how their displacement led to the dissemination of their ideas and the eventual transformation of religious institutions This exploration provides a framework for understanding contemporary issues of religious freedom and the challenges faced by religious minorities Handbook of

Political Islam in Europe Thomas Jäger, Ralph Thiele, 2024-03-31 This book approaches the field of Political Islam from a European security perspective Featuring various case studies and country surveys written by respected experts in the field it offers a comparative perspective and comprehensive overview of the ideology and prevalence of Political Islam and its actors in more than 20 European states The respective contributions identify key actors of Political Islam and reveal the activities means and strategies they pursue and employ across the continent They also discuss if and how Political Islam could undermine the Western liberal democratic order and its associated values By doing so the volume offers approaches to analyzing Political Islam and thereby strengthening the resilience of liberal democratic societies while also protecting Muslims from the radical ideology and agenda of Political Islam Chapter Hybridizing Islam in the Balkans The Rise of Salafi Hanafism in Bulgaria is licensed under the terms of the Creative Commons Attribution 4 0 International License <http://creativecommons.org/licenses/by/4.0/> For further details see license information in the chapter div
