Remaking America How The Benevolent Traditions Of Many Cultures Are Transforming Our National Life:

Remaking America James A. Joseph, 1995-05-02 Uncovers the long history and rich traditions of giving among people of color Focusing on four communities Native Americans African Americans Asian Americans and Latinos Joseph draws compelling portraits of cultural heroes and heroines who personify the benevolent nature of their unique heritages The author maintains that by understanding and affirming these traditions we can form a new vision of the larger American community based on shared values universal compassion and a new spirituality **Native American Political Systems**

and the Evolution of Democracy Bruce E. Johansen, 1996-05-14 For more than a decade scholars have debated the question of whether American Indian confederacies primarily the Iroquois helped influence the formation of U S basic law The idea has sparked lively debate in the public arena as well with Canadian diplomat Durling Voyce Jones contending it shows a paradigm shift in our thinking Patrick Buchanan calling it idiocy and George Will saying it s fiction For the first time this bibliography brings together some 450 citations on the debate The work describes the debate in the words of one of its major participants Bruce E Johansen author of three other books on the subject The bibliography also takes the reader back to suggestions of the idea long before the contemporary debate Lakota author Charles Eastman brought up the subject in 1919 Mohawk teacher Ray Fadden developed it in the 1940s and John F Kennedy touched on it in 1960 Bringing the debate to its full flower in the present day the bibliography illustrates both fervent support and equally emphatic denial in the academy and the public press The book is both a scholarly tool and a lively exploration of issues bearing on the study of history and multiculturalism Proceedings, American Philosophical Society (vol. 142, no. 2, 1998) , **Philanthropy in America**

has attracted people of African descent from throughout the United States and the world and is fast becoming a transnational metropolis Minnesota's largest urban area the region now also has the country's most diverse black population A closely drawn ethnography *Creating Africa in America Translocal Identity in an Emerging World City* seeks to understand and evaluate the process of identity formation in the context of globalization in a way that is also site specific Bringing to this study a rich and interesting professional history and expertise Jacqueline Copeland Carson focuses on a Minneapolis based nonprofit the Cultural Wellness Center which combines different ethnic approaches to bodily health and community well being as the basis for a shared translocal African culture The book explores how the body can become a surrogate locus for identity thus displacing territory as the key referent for organizing and experiencing African diasporan diversity Showing how alternatives are created to mainstream majority and Afrocentric approaches to identity she addresses the way that bridges can be built in the African diaspora among different African immigrant African American and other groups As this thoughtful and compassionate ethnographic study shows the fact that there is no simple and concrete way to define how one can be African in contemporary America reflects the tangled nature of cultural processes and social relations at large Copeland Carson demonstrates the cultural creativity and social dexterity of people living in an urban setting and suggests that anthropologists give more attention to the role of the nonprofit sector as a forum for creating community and identity throughout African diasporan history in the United States

The Expanding Roles of Chinese Americans in U.S.-China Relations Peter Koehn, Xiao-Huang Yin, Xiao-huang Yin, 2015-02-12 This book addresses the historical and contemporary involvement of Chinese Americans from diverse walks of life in U S China relations The contributors present new evidence and fresh perspectives on familiar and unfamiliar national and transnational networks including families businesspersons community newspapers students lobbyists philanthropists and scientists and consider the likely future impact of such contacts on the most important bilateral relationship at the start of the new millennium The volume makes a multidisciplinary contribution to understanding the extensive and vital roles and promise of Chinese Americans at this critical juncture in U S China relations and to revealing the importance of migrants as actors in contemporary global politics The assessments shared by the contributors suggest that the nature and scope of the Chinese American involvement particularly in global civil society networks increasingly will determine the outcome of state to state relations between the United States and the PRC

Salsa, Soul, and Spirit Juana Bordas, 2007 **Creating Change Through Family Philanthropy** Alison Goldberg, Karen Pittelman, 2007-01-26 *Creating Change Through Family Philanthropy* explains how privilege works in our society and how young people can use it to better society Based on the authors experiences with Resource Generation a national nonprofit working with wealthy young progressives the book makes the case for addressing urgent social and economic needs financially It frames controversial topics from power dynamics to grants payout in an accessible way offering next generation readers the tools they need to transform their funds Drawing on over 40 interviews this is an essential guide

for both young philanthropists and anyone working with wealthy families interested in ethical giving *Salsa, Soul, and Spirit* Juana Bordas, 2009-01-21 The rapidly increasing cultural and racial diversity of the U S workforce consumer base and citizenry is propelling leadership to better reflect the values worldviews and principles inherent in our multicultural age As the world becomes flatter and globalization creates a world village leaders must have the cultural flexibility and adaptability to inspire and guide people who represent the whole rainbow of humanity For many years I have searched for materials that draw on multicultural approaches Such materials continue to be extremely scarce Today s leadership models although they may differ from person to person and method to method generally have a common bias toward Western or European influenced ways of thinking and approaches Contemporary leadership theories center on the dominant or mainstream culture and exclude the enormous contributions potential learning and valuable insights that come from leaders in diverse communities However the task of integrating leadership from these communities into the American mainstream does not fall to Anglo leaders or authors To be authentic and effective this information must emerge from leaders and scholars in communities of color Multicultural leadership has broad relevance and application to the diverse world that we live in A culturally integrated model has greater impact influence and scope Delving into leadership models from specific communities will certainly enhance a person s ability to relate more effectively with that population but will not necessarily be applicable to the growing diversity that exists A multicultural leadership approach on the other hand offers practices and tools that will be effective with many populations Each principle section starts with a story from my life which allows me to include my voice with those of the other leaders who have graciously shared their knowledge and wisdom The first part of my life for instance mirrors many of the experiences that shaped leaders since the civil rights movement when young people of color stood up in unprecedented numbers and answered the call to leadership Each principle section ends with suggestions and exercises for using the principle in practical ways and can assist you in developing multicultural ways of leading Preface

Black Greek-letter Organizations in the Twenty-First Century Gregory S. Parks, 2008-06-13

During the twentieth century black Greek Letter organizations BGLOs united college students dedicated to excellence fostered kinship and uplifted African Americans

Members of these organizations include remarkable and influential individuals such as Martin Luther King Jr Congresswoman Barbara Jordan novelist Toni Morrison and Wall Street pioneer Reginald F Lewis

Despite the profound influence of these groups many now question the continuing relevance of BGLOs arguing that their golden age has passed

Partly because of their perceived link to hip hop culture black fraternities and sororities have been unfairly reduced to a media stereotype a world of hazing without any real substance

The general public knows very little about BGLOs and surprisingly the members themselves often do not have a thorough understanding of their history and culture or of the issues currently facing their organizations

To foster a greater engagement with the history and contributions of BGLOs **Black Greek Letter Organizations in the Twenty first Century Our Fight Has Just Begun** brings together an impressive group of authors to explore the contributions and continuing possibilities of BGLOs and their members

Editor Gregory S Parks and the contributing authors provide historical context for the development of BGLOs exploring their service activities as well as their relationships with other prominent African American institutions

The book examines BGLOs responses to a number of contemporary issues including non black membership homosexuality within BGLOs and the perception of BGLOs as educated gangs

As illustrated by the organized response of BGLO members to the racial injustice they observed in Jena Louisiana these organizations still have a vital mission

Both internally and externally BGLOs struggle to forge a relevant identity for the new century

Internally these groups wrestle with many issues including hazing homophobia petty intergroup competition and the difficulty of bridging the divide between college and alumni members

Externally BGLOs face the challenge of rededicating themselves to their communities and leading an aggressive campaign against modern forms of racism sexism

and other types of fear driven behavior By embracing the history of these organizations and exploring their continuing viability and relevance Black Greek Letter Organizations in the Twenty first Century demonstrates that BGLOs can create a positive and enduring future and that their most important work lies ahead Opening Doors Diana S. Newman, Council on Foundations, 2002-11-29 Winner of the 2002 Skystone Ryan Research Prize from the Association of Fundraising Professionals Sponsored by the prestigious Council on Foundations Opening Doors is a down to earth guide for fundraising practitioners who want to broaden their funding base and reach new donors or improve the diversity of their existing development programs Based in solid research Opening Doors provides information about the cultural and charitable practices of four broad groups African Americans Asian Americans Latinos and Native Americans It is filled with illustrative personal stories real life examples and proven strategies In addition this hands on resource Helps readers understand the rich philanthropic traditions in diverse American populations Shows how to encourage prospects to become donors through personal meetings house parties special events and direct mail Presents practical ideas for seeking gifts from business owners of diverse cultural backgrounds Describes appropriate and effective ways to encourage small donors to become large donors
