Remnant Spirit Conservative Reform In Mainline Protestantism:

The Remnant Spirit Douglas E. Cowan, 2003-11-30 Over the past few decades mainline Protestant denominations in North America have been experiencing a significant decline in membership active participation and financial contributions In the midst of this decline these denominations have been caught up in a variety of controversial religious ecclesiastical and social issues a shift from neo orthodox to liberal theology the advent of inclusive liturgical and biblical language denominational support for often controversial social issues and heated debates around human sexuality particularly the place of homosexuals in the church To address these issues and concerns and to recapture the traditionalism many feel their churches have abandoned the remnant faithful those who choose to stay in their churches have formed a number of reform and renewal movements Cowan examines these emergent social movements providing anecdotal and lively examples of their activities their arguments their identities and their approaches to strengthening their churches Rather than leave denominations which they regard as increasingly hostile to theological and ecclesiastical traditionalism many mainline Protestants have chosen to stay and fight for their churches forming reform and renewal movements intended to address hot button issues in the way their churches function and practice These conservative reform movements however are often vilified by their more liberal co religionists and not infrequently regarded as theologically immature doctrinally stagnant and ecclesiastically belligerent The Remnant Spirit demonstrates that these are simplistic and reductivist analyses that only serve to avoid the very issues around which reform movements emerge and evolve The author provides an in depth examination of four major North American denominations and the various conservative reform and renewal movements taking place in each while acknowledging that every mainline Protestant Church in the U S and Canada is contending with similar issues and addressing them in similar fashions Here the voices of the remnant faithful those that contribute to denominational discussions as they are experienced by ordinary church members and leaders alike are presented and discussed in a thoughtful and lively manner

The Remnant Spirit Douglas E. Cowan, 2003-11-30 Over the past few decades mainline Protestant denominations in North America have been experiencing a significant decline in membership active participation and financial contributions In the midst of this decline these denominations have been caught up in a variety of controversial religious ecclesiastical and social issues a shift from neo orthodox to liberal theology the advent of inclusive liturgical and biblical language denominational support for often controversial social issues and heated debates around human sexuality particularly the place of homosexuals in the church To address these issues and concerns and to recapture the traditionalism many feel their churches have abandoned the remnant faithful those who choose to stay in their churches have formed a number of reform and renewal movements Cowan examines these emergent social movements providing anecdotal and lively examples of their activities their arguments their identities and their approaches to strengthening their churches Rather than leave denominations which they regard as increasingly hostile to theological and ecclesiastical traditionalism many mainline

Protestants have chosen to stay and fight for their churches forming reform and renewal movements intended to address hot button issues in the way their churches function and practice These conservative reform movements however are often vilified by their more liberal co religionists and not infrequently regarded as theologically immature doctrinally stagnant and ecclesiastically belligerent The Remnant Spirit demonstrates that these are simplistic and reductivist analyses that only serve to avoid the very issues around which reform movements emerge and evolve The author provides an in depth examination of four major North American denominations and the various conservative reform and renewal movements taking place in each while acknowledging that every mainline Protestant Church in the U S and Canada is contending with similar issues and addressing them in similar fashions Here the voices of the remnant faithful those that contribute to denominational discussions as they are experienced by ordinary church members and leaders alike are presented and discussed in a thoughtful and lively manner

Righteous Rhetoric Leslie Dorrough Smith,2014 It is commonly thought that the main distinction of the New Christian Right NCR lies in its absolutist theologies and religious fervor Offering a detailed study of one of the nation s leading conservative Christian women s organizations Concerned Women for America CWA Leslie Smith argues that the absolute ordered platforms for which CWA is known are not the source of its political power Rather such absolutes are the byproduct of chaos rhetoric a type of speech whose widespread public appeal stems from its deployment of symbols that create a heightened sense of social chaos and threat Carefully manufacturing these negative emotions the group is in a prime position to offer its own platforms as the answer to the threat Smith focuses on CWA s strategic manipulation of particular cultural symbols to naturalize and market its own political interests many of which revolve around issues of sex Sex is a symbolic gold mine for many NCR groups not only because it has been cast as the ultimate emblem of morality but more fundamentally because its regulation through gender identity reproduction and the family is critical to the control of society at large Righteous Rhetoric highlights the centrality of sex to CWA s political enterprise revealing how the organization s continual fusion of sexual morals with national fortitude facilitated by chaos rhetoric lays bare its nationalist agendas Smith closes by showing that chaos rhetoric is by no means a monopoly of the NCR but is rather a ubiquitous tactic used by many groups in the fight for social dominance A more likely source of distinction for groups like CWA she argues lies not in radically different theologies or political tactics but in the ability to flexibly fuse their own identities with America s most beloved symbols in such a way that their own existence is rendered inseparable from the nation s very survival

Religion and Politics in America Robert Booth Fowler,2018-05-04 this book focuses on religion and politics and the dynamic interactions between them It helps to understand the politics of religion in the United States and to appreciate the strategic choices that politicians and religious participants make when they participate in politics Religion in America Julia Corbett Hemeyer,2015-07-17 Religion in America gives students and teachers a comprehensive yet concise introduction to the changing religious landscape of the United States Extensively revised and updated the Sixth Edition continues to

engage students in reflection about religious diversity The author presents the study of religion within the context of the humanities as a tool for developing understanding and appreciation of communities of faith other than one's own and for understanding the dynamics at work in religion in the United States today *The Supernatural and the Circuit Riders* Rimi Xhemajli, 2021-06-22 In *The Supernatural and the Circuit Riders* Rimi Xhemajli shows how a small but passionate movement grew and shook the religious world through astonishing signs and wonders Beginning in the late eighteenth century early American Methodist preachers known as circuit riders were appointed to evangelize the American frontier by presenting an experiential gospel one that featured extraordinary phenomena that originated from God's Spirit In employing this evangelistic strategy of the gospel message fueled by supernatural displays Methodism rapidly expanded Despite beginning with only ten official circuit riders in the early 1770s by the early 1830s circuit riders had multiplied and caused Methodism to become the largest American denomination of its day In investigating the significance of the supernatural in the circuit rider ministry Xhemajli provides a new historical perspective through his eye-opening demonstration of the correlation between the supernatural and the explosive membership growth of early American Methodism which fueled the Second Great Awakening In doing so he also prompts the consideration of the relevance and reproduction of such acts in the American church today **Faith in Black Power** Kerry Pimblott, 2017-01-20 In 1969 nineteen-year-old Robert Hunt was found dead in the Cairo Illinois police station The white authorities ruled the death a suicide but many members of the African American community believed that Hunt had been murdered a sentiment that sparked rebellions and protests across the city Cairo suddenly emerged as an important battleground for black survival in America and became a focus for many civil rights groups including the NAACP The United Front a black power organization founded and led by Reverend Charles Koen also mobilized thanks in large part to the support of local Christian congregations In this vital reassessment of the impact of religion on the black power movement Kerry Pimblott presents a nuanced discussion of the ways in which black churches supported and shaped the United Front She deftly challenges conventional narratives of the de-Christianization of the movement revealing that Cairoites embraced both old-time religion and revolutionary thought Not only did the faithful fund the mass direct action strategies of the United Front but activists also engaged the literature on black theology invited theologians to speak at their rallies and sent potential leaders to train at seminaries Pimblott also investigates the impact of female leaders on the organization and their influence on young activists offering new perspectives on the hypermasculine image of black power Based on extensive primary research this groundbreaking book contributes to and complicates the history of the black freedom struggle in America It not only adds a new element to the study of African American religion but also illuminates the relationship between black churches and black politics during this tumultuous era *Beyond the Congregation* Christopher P. Scheitle, 2010-09-30 Christianity in the United States has long been organized around congregations and denominations However a different type of organization operating outside of these traditional structures

is claiming an increasingly important place in the religious market The growth of Christian nonprofits popularly called parachurch organizations has been recognized by churchgoers and social scientists alike as an important development that is transforming the composition and dynamics of American Christianity The size resources and activities of this population have made it the public face of American Christianity and altered the relationship between individuals churches and denominations Beyond the Congregation utilizes data on almost 2 000 of the largest and most influential Christian nonprofits in the United States to answer some of the key questions raised by these organizations What explains the growth of Christian nonprofits What activities are they pursuing How are they funded and how do they use those funds Beyond the Congregation provides a much needed examination of these issues that is accessible and informative for scholars nonprofit executives religious leaders and the general public

Religion and Politics in America Allen D. Hertzke, Laura R. Olson, Kevin R. den Dulk, Robert Booth Fowler, 2018-08-06 Religion and politics are never far from the headlines but their relationship remains complex and often confusing This book offers an engaging accessible and balanced treatment of religion in American politics It explores the historical cultural and legal contexts that motivate religious political engagement and assesses the pragmatic and strategic political realities that religious organizations and people face Incorporating the best and most current scholarship the authors examine the evolving politics of Roman Catholics evangelical and mainline Protestants African American and Latino traditions Jews Muslims and other religious minorities recent immigrants and religious nones and other conventional and not so conventional American religious movements New to the Sixth Edition Covers the 2016 election and assesses the role of religion from Obama to Trump Expands substantially on religion s relationship to gender and sexuality race ethnicity and class and features the role of social media in religious mobilization Adds discussion questions at the end of every chapter to help students gain deeper understanding of the subject Adds a new concluding chapter on the normative issues raised by religious political engagement to stimulate lively discussions

A Plague on Both Their Houses Christopher Craig Brittain, 2015-07-30 Christopher Craig Brittain offers a wide ranging examination of specific events within The Episcopal Church TEC by drawing upon an analysis of theological debates within the church field interviews in church congregations and sociological literature on church conflict The discussion demonstrates that interpretations describing the situation in TEC as a culture war between liberals and conservatives are deeply flawed Moreover the book shows that the splits that are occurring within the national church are not so much schisms in the technical sociological sense but are more accurately described as a familial divorce with all the ongoing messy entwinement that this term evokes The interpretation of the dispute offered by the book also counters prominent accounts offered by leaders within The Episcopal Church The Presiding Bishop Katharine Jefferts Schori has portrayed some opponents of her theological positions and her approach to ethical issues as being fundamentalist while other Progressives liken their opponents to the Tea Party movement

Introduction to New and Alternative Religions in America William M. Ashcraft, Eugene V. Gallagher, 2006-10-30

Most new or alternative religions are gravely misunderstood by members of the religious mainstream. Labeled cults or sects, groups and their members are often ridiculed or otherwise disregarded as weird and potentially dangerous by the populace at large. Despite their efforts at educating the general public, the various anti and counter cult activists have in fact promoted much more misunderstanding than accurate understanding of the religious lives of some of their fellow citizens. Consequently, they have helped to create a very hostile environment for anyone whose religious practices do not fit within a so-called mainstream. This set rectifies the situation by presenting accurate, comprehensive, authoritative and accessible accounts of various new and alternative religious movements that have been and are active in American society and it addresses ways of understanding new and alternative religions within a broader context. Determining what actually constitutes a new or alternative religion is a subject of constant debate. Questions arise as to a new faith's legitimacy, beliefs, methods of conversion and other facets of a religious movement's viability and place in a given culture. How a religion gains recognition by the mainstream, which often labels such new movements as cults, is fraught with difficulty, tension and fear. Here, experts delineate the boundaries and examine the various groups, beliefs, movements and other issues related to new faiths and alternative beliefs. Readers will come away with a fuller understanding of the religious landscape in America today.

Volume 1: History and Controversies discusses the foundations of new and alternative religions in the United States and addresses the controversies that surround them. This volume helps readers better understand what makes a new or alternative belief system a religion and the issues involved.

Volume 2: Jewish and Christian Traditions explores the various new religions that have grown out of these two Abrahamic faiths. Groups such as the Shakers, the People's Temple, the Branch Davidians, Jehovah's Witnesses and others are examined.

Volume 3: Metaphysical, New Age and Neopagan Movements looks at Shamanism, Spiritualism, Wicca and Paganism among other movements as they have developed and grown in the U.S. These faiths have found new and devoted followers yet are often misunderstood.

Volume 4: Asian Traditions focuses on those new and alternative religions that have been inspired by Asian religious traditions. From Baha'i to Soka Gakkai, from Adidam to the Vedanta Society, contributors look at a full range of groups practicing and worshiping in the U.S. today.

Volume 5: African Diaspora Traditions and Other American Innovations examines the various traditions linked to the African diaspora, such as Rastafarianism, Santeria and the Nation of Islam, alongside traditions that are truly American incarnations like Scientology, UFO religions and Heaven's Gate. Some of the new and alternative religions covered in these pages include Shamanism, Wicca, Black Israelites, Santeria, Scientology, Elan Vital, Hare Krishna, Soka Gakkai and many more.

Cyberhenge

Douglas E. Cowan, 2005

In Cyberhenge, Douglas E. Cowan brings together two fascinating and virtually unavoidable phenomena of contemporary life: the

Internet and the new religious movement of Neopaganism For growing numbers of Neopagans Wiccans Druids Goddess worshippers and others the Internet provides an environment alive with possibilities for invention innovation and imagination From angel channeling biorhythms and numerology to e covens and cybergroves where neophytes can learn everything from the Wiccan Rede to spellworking Cowan illuminates how and why Neopaganism is using Internet technology in fascinating new ways as a platform for invention of new religious traditions and the imaginative performance of ritual This book is essential reading for students and scholars of new religious movements and for anyone interested in the intersections of technology and faith

America's Dark Theologian Douglas E. Cowan, 2018-06-12 America's dark theologian reading Stephen King religiously Thin spots what peeks through the cracks in the world Deadfall ghost stories as God talk A jumble of blacks and whites becoming religious Return to Ackerman's field ritual and the unseen order Forty years in Maine Stephen King and the varieties of religious experience If it be your will theodicy morality and the nature of God The land beyond cosmology and the never ending questions

Understanding Religion and Popular Culture Elizabeth Rae Coody, Dan W. Clanton Jr., Terry Ray Clark, 2023-04-17 Understanding Religion and Popular Culture 2nd edition provides an accessible introduction to this exciting and rapidly evolving field Divided into two parts Issues in Religion and Genres in Popular Culture it encourages readers to think critically about the ways in which popular cultural practices and products especially those considered as forms of entertainment are laden with religious ideas themes and values This edition has been thoroughly revised and includes five new chapters updated case studies and contemporary references Among the areas covered are religion and film food violence music television cosplay and fandom Each chapter also includes a helpful summary glossary bibliography discussion questions and suggestions for further reading viewing Providing a set of practical and theoretical tools for learning and research this book is an essential read for all students of Religion and Popular Culture or Religion and Media more broadly

Technology, Management and the Evangelical Church John Weaver, 2020-04-02 This book explores the technological innovations and management practices of evangelical Christian religions Beginning from the late 19th century the author examines the evangelical church's increasing appropriation of business practices from the secular world as solutions to organizational problems He notes especially the importance of the church growth movement and the formation of church networks Particular attention is paid to the history of evangelical uses of computer technology including connections the Christian Right has made within Silicon Valley Most significantly this book offers one of the first academic explorations of the use of cybernetics systems theory and complexity theory by evangelical leaders and management theorists

Cults and New Religions Douglas E. Cowan, David G. Bromley, 2015-04-27 This unparalleled introduction to cults and new religious movements has been completely up dated and expanded to reflect the latest developments each chapter reviews the origins leaders beliefs rituals and practices of a NRM highlighting the specific controversies surrounding each group A fully updated revised and expanded edition of an unparalleled introduction to cults and new religious

movements Profiles a number of the most visible significant and controversial new religious movements presenting each group s history doctrines rituals leadership and organization Offers a discussion of the major controversies in which new religious movements have been involved using each profiled group to illustrate the nature of one of those controversies Covers debates including what constitutes an authentic religion the validity of claims of brainwashing techniques the implications of experimentation with unconventional sexual practices and the deeply rooted cultural fears that cults engender New sections include methods of studying new religions in each chapter as well as presentations on groups to watch *The Oxford Handbook of New Religious Movements* James R Lewis,2008-07-17 The Oxford Handbook of New Religious Movements both covers the current state of the field and breaks new ground Its contributors drawn from both sociology and religious studies are leading figures in the study of NRMs **Religion and the Creation of Race and Ethnicity** Craig R Prentiss,2003-06-01 The original essays in this collection shed light on the role religion and myth have played in the creation of race and ethnic categories When scholars approach religion and race they tend to focus on such issues as how African Americans have expressed Christianity or how Japanese or Mexicans have lived religiously This volume meant specifically for those new to the field offers a different perspective Prominent scholars illuminate the role religious myths have played in shaping those very social boundaries that we call races and ethnicities It asks what part did Christianity play in creating Blackness To what extent was Japanese or Mexican identity itself the product of religious life The text comprised of all original material introduces readers to the social construction of race and ethnicity and the ways in which these concepts are shaped by religious narratives It offers examples from both the U S and around the world exploring these themes in the context of places as diverse as Bosnia India Japan Mexico Zimbabwe and the Middle East The volume helps make the case that any account of the social construction of race and ethnicity will be incomplete if it fails to consider the influence of religious traditions and myths **Choice** ,2004

Reviewing **Remnant Spirit Conservative Reform In Mainline Protestantism**: Unlocking the Spellbinding Force of Linguistics

In a fast-paced world fueled by information and interconnectivity, the spellbinding force of linguistics has acquired newfound prominence.
