Smithsonian Trees of North America W John Kress, 2024-09-03 An indispensable illustrated source of information for hundreds of species of North American trees This authoritative reference on native and non native trees of North America by Smithsonian veteran W John Kress provides an unprecedented appraisal of more than 325 common species More than a field guide it includes over 300 range maps and 3 000 photographs of leaves flowers fruits seeds and bark an in depth introduction to the biology of trees their value structure evolution classification ecology and conservation descriptions of each species organized by genus and family a reflection on the consequences of environmental change on the health of trees now and in the future a presentation based on the latest technologies of North American trees in a planetary and evolutionary perspective Smithsonian Trees of North America ten years in the making marries science and art to provide an insightful and compassionate exploration of the diversity structure form and beauty of trees **The Arbornaut** Meg Lowman, 2021-08-10 An eye opening and enchanting book by one of our major scientist explorers Diane Ackerman author of *The Zookeeper's Wife* Nicknamed the Real Life Lorax by National Geographic the biologist botanist and conservationist Meg Lowman aka CanopyMeg takes us on an adventure into the eighth continent of the world's treetops along her journey as a tree scientist and into climate action Welcome to the eighth continent As a graduate student exploring the rain forests of Australia Meg

Lowman realized that she couldn't monitor her beloved leaves using any of the usual methods. So she put together a climbing kit she sewed a harness from an old seat belt, gathered hundreds of feet of rope and found a tool belt for her pencils and rulers. Up she went into the trees. Forty years later, Lowman remains one of the world's foremost arbornauts, known as the real-life Lorax. She planned one of the first treetop walkways and helps create more of these bridges through the eighth continent all over the world. With a voice as infectious in its enthusiasm as it is practical in its optimism, *The Arbornaut* chronicles Lowman's irresistible story. From climbing solo hundreds of feet into the air in Australia's rainforests to measuring tree growth in the northeastern United States, from searching the redwoods of the Pacific coast for new life to studying leaf eaters in Scotland's Highlands, from conducting a BioBlitz in Malaysia to conservation planning in India and collaborating with priests to save Ethiopia's last forests, Lowman launches us into the life and work of a field scientist, ecologist, and conservationist. She offers hope, specific plans, and recommendations for action despite devastation across the world: through trees, we can still make an immediate and lasting impact against climate change. A blend of memoir and fieldwork, *The Arbornaut* gives us the chance to live among scientists and travel the world even in a hot air balloon. It is the engrossing, uplifting story of a nerdy tree climber, the only girl at the science fair who becomes a giant inspiration, a groundbreaking, ground-defying field biologist, and a hero for trees everywhere. Includes black and white illustrations. [Sacred Trees of India](#) Louise Fowler-Smith, 2022-09-23 Deforestation poses a fundamental threat to ecological sustainability and to the continuation of life on earth. Investigating the role of perception to environmental protection, this book draws on 10 years of fieldwork in India, documenting sacred trees and groves and showing that contemporary Indian tree worship presents a powerful alternative to the Western capitalist commodification of nature that has contributed to the current ecological crisis. Featuring hundreds of original photographs from Hindu Adivasi, Buddhist, and Muslim sacred sites, this study reveals a culture whose reverence for trees has helped to prevent their destruction. The book will appeal to environmentalists, aesthetes, scholars of religion and ecology, and people interested in the continued connection between spiritual practice and the natural environment. *The Planetary Report*, 1984 **CMJ New Music Report**, 1999-06-21 CMJ New Music Report is the primary source for exclusive charts of non-commercial and college radio airplay and independent and trend-forward retail sales.
