Representative Men Ralph Waldo Emerson, 1894 *Representative man* Joel Porte, 1988 Representative Men Seven Lectures Ralph Waldo Emerson, 2023-01-03

Representative Men is a collection of seven lectures given by Ralph Waldo Emerson in the mid 19th century. The lectures explore the lives and ideas of several influential figures from history including Plato, Shakespeare, Montaigne, Napoleon, and Goethe. Emerson uses these figures as examples of what he calls representative men: individuals who embody the ideals and principles of their time and culture. He argues that by studying the lives and works of these individuals, we can gain insight into the broader patterns of human history and society. Each lecture focuses on a different figure and their unique contributions to philosophy, literature, politics, or culture. For example, the lecture on Shakespeare examines his role in shaping the English language and his insights into human nature, while the lecture on Napoleon discusses his military and political achievements. Throughout the lectures, Emerson emphasizes the importance of individualism, creativity, and self-reliance. He argues that these values are essential for anyone seeking to make a meaningful contribution to society and that they can be cultivated by studying the lives of representative men and women from history. Overall, Representative Men is a celebration of human potential and a call to action for individuals to pursue their own unique paths in life.

Emerson, 2017-04-08 *Representative Men* is a collection of seven lectures by Ralph Waldo Emerson published as a book of essays in 1850. The first essay discusses the role played by great men in society and the remaining six each extoll the virtues of one of six men deemed by Emerson to be great: Plato the Philosopher, Emanuel Swedenborg the Mystic, Michel de Montaigne the Skeptic, William Shakespeare the Poet, Napoleon the Man of the World, Johann Wolfgang von Goethe the Writer.

Ralph Waldo Emerson (May 25 1803 – April 27 1882) was an American essayist, lecturer, and poet who led the transcendentalist movement of the mid 19th century. He was seen as a champion of individualism and a prescient critic of the countervailing pressures of society, and he disseminated his thoughts through dozens of published essays and more than 1,500 public lectures across the United States. Emerson gradually moved away from the religious and social beliefs of his contemporaries, formulating and expressing the philosophy of transcendentalism in his 1836 essay *Nature*. Following this work, he gave a speech entitled *The American Scholar* in 1837, which Oliver Wendell Holmes Sr. considered to be America's intellectual Declaration of Independence. Emerson wrote most of his important essays as lectures first and then revised them for print. His first two collections of essays, *Essays First Series* (1841) and *Essays Second Series* (1844), represent the core of his thinking. They include the well-known essays *Self-Reliance*, *The Over-soul*, *Circles*, *The Poet*, and *Experience*. Together with *Nature*, these essays made the decade from the mid 1830s to the mid 1840s Emerson's most fertile period. Emerson wrote on a number of subjects, never espousing fixed philosophical tenets but developing certain ideas such as individuality, freedom, the ability for humankind to realize almost anything, and the relationship between the soul and the surrounding world. Emerson's nature was more philosophical than naturalistic. Philosophically, he considered the universe to be composed of Nature and the Soul. Emerson is one of several figures who took a more pantheist or pandeist approach by rejecting views of God as separate from the world. He remains among the linchpins of the American romantic movement, and his work has greatly influenced the thinkers, writers, and poets that followed him. When asked to sum up his work, he said his central doctrine was the infinitude of the private man. Emerson is also well known as a mentor and friend of Henry David Thoreau, a fellow transcendentalist.

Emerson in His Sermons Susan L. Roberson, 1995. Treating the sermons extensively as an autobiographical text, Roberson establishes that Emerson's years in the pulpit were pivotal and that his sermons are key texts in revealing the essential development of his thought. Central to Roberson's explication of the sermons is Emerson's conception of self-reliance, his invention of a new hero for a new age, and his merging of his own identity with that heroic ideal.

Lothstein, Michael Brodrick, 2008-08-21 *New Morning* brings together philosophers

poets and literary critics to celebrate and engage the ideas of the great American writer and philosopher Ralph Waldo Emerson. Emerson's legacy influences many areas; he was a champion of democracy and civil rights, a naturalist, an idealist, an artist, a writer, and a philosopher. Rather than focusing on Emerson in his historical context, this volume brings to light the ways in which Emerson's voice and work still speak powerfully to the concerns of the present moment. In short essays and poems, some of America's most influential scholars and poets, including John J. McDermott, Mary Oliver, Mark Strand, Robert C. Pollock, Gary Snyder, and Lawrence Buell, underscore the relevance of Emerson's thought to contemporary issues as varied as the environment, race, politics, spirituality, aesthetics, and education.

Emerson Lawrence Buell, 2004-09-30. Examining the long shadow cast by Emerson and his role and significance as a truly American institution, Buell conveys both the style and substance of Emerson's accomplishment in his conception of America as the transplantation of Englishness into the new world and in his prodigious work as writer, religious thinker, and philosopher.

The Emerson Dilemma T. Gregory Garvey, 2001-01-01. This gathering of eleven original essays with a substantive introduction brings the traditional image of Emerson, the Transcendentalist, face to face with an emerging image of Emerson, the reformer. *The Emerson Dilemma* highlights the conflict between Emerson's philosophical attraction to solitary contemplation and the demands of activism, compelled by the logic of his own writings. The essays cover Emerson's reform thought and activism from his early career as a Unitarian minister through his reaction to the Civil War. In addition to Emerson's antislavery position, the collection covers his complex relationship to the early women's rights movement and American Indian removal. Individual essays also compare Emerson's reform ethics with those of his wife, Lidian Jackson Emerson, his aunt, Mary Moody, Henry David Thoreau, John Brown, and Margaret Fuller. The Emerson who emerges from this volume is one whose Transcendentalism is explicitly politicized; thus, we see him consciously mediating between the opposing forces of the world he thought and the world in which he lived.
