Repression And Accommodation In Post Revolutionary States:

Repression and Accommodation in Post-Revolutionary States M. Krain, 2000-07-06 We know very little about political dynamics in states that have just experienced an internal war despite the increasing need to deal with such states in the post Cold War world Matthew Krain examines what prompts leaders in post revolutionary states to employ repression or accommodation Through statistical analysis and case studies of Iran Cuba Nicaragua and Bolivia he also examines the effects of these choices on how the domestic opposition reacts what type of political system develops in the new state and whether or not the leaders who institute these policies survive in power in the long run Krain concludes with a series of policy recommendations

Labor Against the Regime Nadine Abdalla, 2025-02-17 How do worker movements emerge and evolve under authoritarian regimes What enables labor activists to overcome constraints and win concessions and what leads to demobilization Nadine Abdalla provides an inside look at two of Egypt's most significant worker protest movements in the years preceding the 2011 Arab uprisings Through a fine grained analysis of the labor movement at the Misr Spinning and Weaving Company in Al Mahalla Al Kubra and the State Employees Movement of the Real Estate Tax Collectors Labor Against the Regime reveals the pivotal role played by activist leaders in shaping a movement's trajectory Drawing on extensive fieldwork interviews and primary sources Abdalla traces how these movements overcame daunting odds to first take shape achieve socio economic demands and ultimately challenge the Mubarak regime's corporatist control over labor relations The book explores how activist leaders personal backgrounds careers and embeddedness within movements conditioned their choices ultimately steering protests down different pathways of contestation and institutionalization As one of the first book length studies to comparatively analyze Egypt's labor activism before and after the Arab Spring Labor Against the Regime provides vital insights into the changing relationship between workers social movements and the pre uprising political order

Contesting Authoritarianism Dina Bishara, 2018-08-30 Successive authoritarian regimes have maintained tight control over organized labor in Egypt since the 1950s And yet in 2009 a group of civil servants decided to exit the state controlled Egyptian Trade Union Federation ETUF thereby setting a precedent for other groups and threatening the ETUF's monopoly Dina Bishara examines this relationship between labour organizations and the state to shed light on how political change occurs within an authoritarian government and to show how ordinary Egyptians perceive the government's rule In particular Bishara highlights the agency of dissident unionists in challenging the state even when

trade union leaders remain loyal She reveals that militant sectors are more vulnerable to greater scrutiny and repression and that financial benefits tied to membership in state backed unions can provide significant disincentives against the exit option Moving beyond conventional accounts of top down control this book explores when and how institutions designed for political control become contested from below *Historical Abstracts* Eric H. Boehm,2000 **Political Movements and Violence in Central America** Charles D. Brockett,2005-02-21 This book offers an indepth analysis of the confrontation between popular movements and repressive regimes in Central America for the three decades beginning in 1960 particularly in El Salvador and Guatemala It examines both urban and rural groups as well as both nonviolent social movements and revolutionary movements It studies the impact of state violence on contentious political movements as well as defends the political process model for studying such movements **Political Friendship** Michael Weaver,2024-02-02 Between periods of revolution state repression and war across Central and Western Europe from the 1840s through the 1860s German liberals practiced politics beyond the more well defined realms of voluntary associations state legislatures and burgeoning political parties Political Friendship approaches 19th century German history s trajectory to unification through the lens of academics journalists and artists who formed close personal relationships with one another and with powerful state leaders Michael Weaver argues that German liberals thought with their friends by demonstrating the previously neglected aspects of political friendship were central to German political culture **Verfassung und Recht in Übersee** ,2002 Counterterror Offensives for the Ghost War World Richard J. Chasdi,2010-07-06 In Counterterror Offensives for the Ghost War World The Rudiments of Counterterrorism Policy Richard J Chasdi has written a groundbreaking quantitative analysis that provides new insight into which types of counterterror practices work best and which types perform poorly in particular operational environments and circumstances For Chasdi effectiveness is defined as the capacity of counterterror practices to work with stealth namely without eliciting high amounts of related follow up terrorist assaults He moves beyond individual country analyses to tackle an analysis of counterterror practice effectiveness based on the type of political system of the country carrying out counterterror offensives and the power level of that country within the international political system Chasdi furthermore provides essential qualitative descriptions of national security institutions stakeholders and processes to frame his quantitative results in ways that tie those findings to historical and contemporary political developments **In the Shadow of Mistrust** Mahmood Monshipouri,2022-05-27 Since the 1979 Iranian Revolution the normalisation of relations between Iran and America has appeared unrealistic if not inconceivable given that the Iranian state has vigorously pursued an anti American ideology This account of US Iranian relations examines the efficacy of external pressure such as sanctions as well as domestic grassroots reform movements within the Islamic Republic The Obama presidency marked a rare high point in the Washington Tehran relationship as negotiations between the two countries and other powers produced an unprecedented nuclear deal the Joint Comprehensive Plan of Action However the Trump administration s unilateral

withdrawal from the JCPOA and re imposition of new sanctions in pursuit of maximum pressure had devastating economic consequences undermining the Iranian middle class which has consistently been the voice of political moderation and supported Iran's integration into the global economy Crucially sanctions have also driven Iran further into the arms of China while rendering it an even more recalcitrant and aggressive adversary Monshipouri's central conviction is that negotiations are pivotal to dismantling the mistrust that has long characterised US Iranian relations and to seeking détente between Iran and its Arab neighbours a critical priority since gradual US withdrawal from the region is all but certain **Elgar**

precisely why do some countries that show every sign of having successfully emerged from civil war fall once again into armed conflict What explains why peace sticks after some wars but not others In this illuminating study Charles T Call examines the factors behind fifteen cases of civil war recurrence in Africa Asia the Caucasus and Latin America He argues that widely touted explanations of civil war such as poverty conflict over natural resources and weak states are far less important than political exclusion Call s study shows that inclusion of former opponents in postwar governance plays a decisive role in sustained peace Why Peace Fails ultimately suggests that the international community should resist the temptation to prematurely withdraw resources and peacekeepers after a transition from war Instead international actors must remain fully engaged with postwar elected governments ensuring that they make room for former enemies
