Research In Philosophy And Technology Vol 5 Research In Philosophy And Technology:

Technology and Responsibility P.T. Durbin, 2013-03-09 Since it may seem strange for a new series to begin with volume 3 a word of explanation is in order The series Philosophy and Technology inaugurated in this form with this volume is the official publication of the Society for Philosophy the one requirement is that the scholarship be sound and all contributions to the series are subject to rigorous blind refereeing Technology the other half of the philosophy and technology pairing is also construed broadly *John Dewey's Pragmatic Technology* Larry A. Hickman, 1990-03-22 a comprehensive canvass of Dewey's logic metaphysics aesthetics philosophy of history and social thought Choice a major addition to the recent accumulation of in depth studies of Dewey Journal of Speculative Philosophy Larry Hickman has done an exemplary job in demonstrating the relevance of John Dewey's philosophy to modern day discussions of technology Ethics

Democratizing Technology Anne Chapman, 2012-04-27 Democratizing Technology provides a much needed fresh perspective on the regulation of chemicals and an important contribution to green thinking about technology Caroline Lucas Green Party MEP This book is an excellent critique of the current risk based approach to technology By exploring the philosophical underpinnings and the practical applications of current policy on science and technology Chapman exposes the serious flaws in allowing economic considerations to dominate the agenda in this area Her proposals for reform are expertly constructed and deserve urgent and serious consideration by policy makers Dr Stuart Parkinson Executive Director Scientists for Global Responsibility In this important book Anne Chapman argues that decisions about technology should answer a republican question what kind of public world should we create through technology Democratizing Technology deserves to be read widely John O'Neill Professor of Political Economy University of Manchester UK A welcome addition to the new more empirical and applied literature in philosophy of technology This book will be essential reading for a variety of scholars and for the general reader intent on understanding and criticizing our chemically made world Andrew Light Interim Director Program on the Environment University of Washington US What is technology How do humans use it to build and modify the world What are the relationships between technology science economics and democratic governance What if any are our ethical and political responsibilities and choices in how we develop deploy and control technology in democratic states Democratizing Technology sets out to answer these questions Focusing on the most widespread and pervasive technology chemicals this groundbreaking volume peels apart the critical technology debate to look at the relationship between humans technology and the biological world Attention is given to the immensely important new regulations REACH Registration Evaluation Authorization and restriction of Chemicals the EU's largest ever legal framework discussing the problems that are likely to occur in REACH's reliance on risk assessment methods and suggesting an alternative way forward for the regulation of chemicals Providing much needed clarity and insight into the heart of key debates in science and technology risk analysis and mitigation and domestic and international law this volume arrives as a breath of fresh air

Technology and Isolation Clive Lawson, 2017-03-30 By reconsidering the theme of isolation in the philosophy of technology and by drawing upon recent developments in social ontology Lawson provides an account of technology that will be of interest and value to those working in a variety of different fields Technology and Isolation includes chapters on the philosophy history sociology and economics of technology and contributes to such diverse topics as the historical emergence of the term technology the sociality of technology the role of technology in social acceleration the relationship between Marx and Heidegger and the relationship between technology and those with autism The central contribution of the book is to provide a new ontology of technology In so doing Lawson argues that much of the distinct character of technology can be explained or understood in terms of the dynamic that emerges from technology's peculiar constitutional mix of isolatable and non isolatable components

Design Methodology and Relationships with Science Marc J de Vries, Nigel Cross, D.P. Grant, 2013-03-09 Many business corporations are faced with the challenge of bringing together quite different types of knowledge in design processes knowledge of different disciplines in the natural and engineering sciences knowledge of markets and market trends knowledge of political and juridical affairs This also means a challenge for design methodology as the academic discipline that studies design processes and methods The aim of the NATO ARW of which this book is the report was to bring together colleagues from different academic fields to discuss this increasing multidisciplinary in the relationship between design and sciences This multidisciplinary made the conference a special event At a certain moment one of the participants exclaimed This is not a traditional design methodology conference Throughout the conference it was evident that there was a need to develop a common language and understanding to enable the exchange of different perspectives on design and its relationship with science The contributions that have been included in this book show these different perspectives the philosophical the historical the engineering perspective and the practical designer's experience

A Technology for the 'Base of the Pyramid' Dimitris Drisis, 2012-04-27 A reader on Plant Biotechnology can see most of the publications rotating and repeating the issues around Food Safety Regulatory and Public Policy and the role of capital in their support and development The originality of this work stems from the view that looks Plant Biotechnology in an optimistic manner and through the spectrum of an old social theory where science and public interest coexist in a harmonious way It is informative on the social role of Agricultural Technology to feed the world but also provides to scientists and managers in the industry an applied way to solve ethical dilemmas with the introduction of a new technology

A Pragmatic Approach to Business Ethics Alex C. Michalos, 1995-02-23 A pragmatic approach to business ethics is argued for in this volume which demonstrates the usefulness of the approach by applying it to a variety of issues These issues are broad and far reaching and include the relations between rational and moral ethical decision making the limits of loyalty to employers the impact of trust on business and the role of commercial public opinion polling during elections The author also covers advertising tobacco promotion manufacture and marketing of armaments concentration and taxation of wealth and

Byrne, Joseph C. Pitt, 2012-12-06 The philosophical study of technology has acquired only recently a voice in academic conversation This situation is due in part to the fact that technology obviously impacts on the real world whereas the favored stereotype of philosophy allegedly does not Furthermore in some circles it was assumed that philosophy ought not impinge on the world This bias continues today in the form of a general dismissal of the growing area now referred to as applied philosophy By contrast the academic scrutiny of science has for the most part been accepted as legitimate for some 30 years primarily because it has been conducted in a somewhat ethereal manner This is in part because it was believed that science being pure one could think even philosophically about science without jeopardizing one's intellectual purity Since World War II however practitioners of the metascientific arts have come to acknowledge that science also shows signs of having touched down on numerous occasions in what can only be identified as the real world No longer able to keep this banal truth a secret purists have sought to defuse its import by stressing the difference between pure and applied science and lest science be tainted by contact with the world through its applications they have devoted additional energy to separating applied science somehow from technology *Gaming and Technology Addiction: Breakthroughs in Research and Practice* Management Association, Information Resources, 2016-08-05 Addiction is a powerful and destructive condition impacting large portions of the population around the world While typically associated with substances such as drugs and alcohol technology and gaming addiction have become a concern in recent years as technology use has become ubiquitous Gaming and Technology Addiction Breakthroughs in Research and Practice explores the social and psychological implications of technology and gaming addiction in addition to ways to manage and treat this unique form of addiction Focusing on emerging research case studies and future outlooks this comprehensive publication is an essential resource for psychologists counselors graduate level students and researchers studying psychology and technology use Leadership in Science and Technology: A Reference
