Research In Political Economy Vol 4 Research In Political Economy:

A Research Agenda for Critical Political Economy Bill Dunn,2020-09-25 Forward thinking and provocative this Research Agenda demonstrates different approaches to the field from experts focusing on global and local and historical and contemporary issues Eminent global scholars examine a diverse selection of interdisciplinary themes raising questions surrounding future research offering examples and linking the theory to its implications for practice and policy **Karl Marx's Economics** John Cunningham Wood,1993 *Technical Paper* ,1974 **Joseph A. Schumpeter** John Cunningham Wood,1991 These volumes provide immediate and easy access to Schumpeter s work on economics political philosophy and the theory of economic development and show how his work has been received and modified by others **The Political Economy of Competitiveness** Michael Kitson,Jonathan Michie,2015-12-22 The Political Economy of Competitiveness offers an original perspective on the relationship between economic theory and policy It places the issues within an accessible political economy perspective Rejecting the narrowness of mainstream economics the authors deploy an interdisciplinary approach to the problem of economic growth placing it in its historical and political context Issues covered include trade theory and policy industrial decline and policy markets competition and innovation globalisation unemployment and government policy The book provides a valuable guide to the major economic policy issues for both economists and business students The Political Economy of the Arms Race R.T. Maddock,1990-06-18 Written by the author of The Political Economy of Soviet Defence Spending and co author of The Growth of the British Economy this book looks at the international dimension the American and the Soviet defence economy the NATO alliance the Warsaw Pact and the international arms trade Companion to the Political Economy of Rent Seeking R. D. Congleton,A. L. Hillman,2015-02-27 The quest for benefit from existing wealth or by seeking privileged benefit through influence over policy is known as rent seeking Much rent seeking activity involves government and political decisions and is therefore in the domain of political econo *The Principles of Islamic Political Economy* Masudul Alam Choudhury,2016-07-27 This book examines the methodological development of the principles of Islamic political economy in its theoretical and applied aspects This is carried out in a general equilibrium framework using the theory of social choice Thus a comparative study is also undertaken here in these areas while developing the theory of Islamic political economy In these respects this book appears to be the first one of its kind Industrial Policy and the Transformation of the Colonial Economy in Africa Horman Chitonge,2021-02-15 Industrial Policy and the Transformation of the Colonial Economy in Africa offers an in depth analysis of the role industrial policy can play in the transformation of African economies Using examples from Zambia s industrial development experience this book illustrates that core features of the colonial economy have not just survived six decades of independence in most African countries but they have continued to shape the nature scope and pace of economic activities on the continent The book argues that since the colonial economy in Africa was not intended to serve the interests of Africans it is imperative that the

structures and the underlying rationale of the colonial economy are radically reoriented if economic activities in Africa are to benefit the majority of Africans Drawing from the Zambian experience the book shows that the transformation of the colonial economy in Africa is urgently needed Whilst this has proved to be difficult over the past six decades it can be done The book outlines a specific type of industrial policy Frontier Industrial Policy as a key instrument for transforming the structure of African economies At a time when economic growth across Africa is under considerable pressure due to COVID 19 the insights in this book will be of interest to researchers across Economics Development Postcolonial Studies and African Studies

Growth and Development in the Global Political Economy Phillip O'Hara,2004-03-01 Recent institutional changes have seen the increasing dominance of globalization and neoliberalism in the world economy As markets have been deregulated privatization and unproductive government spending have been promoted Yet the greater volatility of capitals the emergence of many financial crises a decline in trust and environmental problems have cast doubt on the effectiveness of neoliberal globalization This book studies the impact of neoliberal globalization on growth and development in the world economy It scrutinizes whether new social structures of accumulation or modes of regulation have emerged to promote long term socioeconomic performance in the global economy during the early years of the twenty first century Special reference is given to the specific performance of neoliberal governance transnational corporations global institutions of money trade and production international relations of war and terrorism financial institutions and the family community environment It is a comprehensive analysis of the degree to which institutional development has managed to promote socioeconomic performance in the global economy It also presents a thorough policy program of action for long wave upswing in the world economy It will be especially useful for those scholars and students concerned with issues of governance global political economy institutions and macroeconomics

The Political Economy and Media Coverage of the European Economic Crisis Julien Mercille,2014-08-27 The European economic crisis has been ongoing since 2008 and while austerity has spread over the continent it has failed to revive economies The media have played an important ideological role in presenting the policies of economic and political elites in a favourable light even if the latter's aim has been to shift the burden of adjustment onto citizens This book explains how and why using a critical political economic perspective and focusing on the case of Ireland Throughout Ireland is compared with contemporary and historical examples to contextualise the arguments made The book covers the housing bubble that led to the crash the rescue of financial institutions by the state the role of the European institutions and the International Monetary Fund austerity and the possibility of leaving the eurozone for Europe's peripheral countries Through a systematic analysis of Ireland's main newspapers it is argued that the media reflect elite views and interests and downplay alternative policies that could lead to more progressive responses to the crisis

The Economics of Technological Progress Tonu Puu,Soren Wibe,1980-12-11

From Economics to Political Economy Tim B. Thornton,2016-07-22 The discipline of economics has been increasingly criticized for its inability to illuminate the workings

of the real world and to provide reliable policy guidance for the major economic and social challenges of our time A central problem in contemporary economics and a problem from which many of its other failings flow is its lack of plurality By a lack of plurality it is meant that contemporary economics lacks diversity in its methods theories epistemology and methodology It is also meant that economics has become far less interdisciplinary From Economics to Political Economy offers an explanation as to why economics has become so determinedly non pluralistic and also gives considerable attention to exploring and evaluating promising strategies for reform These strategies include developing a pluralist economics under the label of political economy within other social science departments such as departments of politics Along the way the reader will learn about the worldwide student movement seeking greater pluralism in economics encounter some dramatic case studies in intellectual suppression gain a fuller sense of the nature of contemporary economics and explore the relationship between economics and other social sciences This book is of interest to any social scientist particularly those with interests in economics and politics Recent Controversies in Political Economy Russell Lewis, 2025-06-30 First published in 1992

Recent Controversies in Political Economy presents a collection of articles on political economy and economic policy taken from Economic Affairs the Institute's magazine Put together they constitute a sustained commentary on what is widely known as the Thatcher era For more than a decade successive Conservative governments introduced reforms which have been widely held to be a revolution in economic policy Generally these have tended to give a greater role to markets The Institute of Economic Affairs takes markets as its central concern where they work where they fail and how they are impeded It thus has a unique interest in this policy revolution In areas as diverse as taxation education housing and the environment the volume offers a series of challenging alternatives In some cases ideas proposed have subsequently been taken up but there are other examples where the proposals run contrary to those of any of the major parties or read as an implicit criticism of policies which were actually adopted This book is an important historical reference work for students and scholars of political economy economic policy and economics in general GLOBAL SECURITY AND INTERNATIONAL POLITICAL ECONOMY -

Technical Paper (United States. Bureau of the Census). ,1974 The Wealth of (Some) Nations Zak Cope,2019-03-20 In this provocative new study Zak Cope makes the case that capitalism is empirically inseparable from imperialism historically and today Using a rigorous political economic framework he lays bare the vast ongoing transfer of wealth from the poorest to the richest countries through the mechanisms of monopoly rent unequal exchange and colonial tribute The result is a polarised international class structure with a relatively rich Global North and an impoverished exploited Global South Cope makes the controversial claim that it is because of these conditions that workers in rich countries benefit from higher incomes and welfare systems with public health education pensions and social security As a result the internationalism of populations in the Global North is weakened and transnational solidarity is compromised The only way forward Cope argues is through a renewed anti imperialist politics rooted in a firm commitment to a radical labour internationalism

The EU in the Global Political Economy Finn Laursen,2009 The EU has become an important international actor Its internal policies often have repercussions far beyond its borders It is also increasingly becoming a proactive global actor defending its interests and projecting its norms and values in both bilateral and multilateral external relations This volume has a special focus on external economic relations and includes chapters on the Euro trade policy and competition policy as well as on specific bilateral relationships The section on relations with industrialized countries deals with the United States Canada Russia Japan and China while the section on relations with developing countries has chapters on administrative reform environmental cooperation Cuba Central America and Iran The book thus gives an up to date overview of important aspects of the EU s external relations With a focus on political economy it traces the continuous interplay of economics and politics that has characterized the EU s development of a fully fledged foreign policy What emerges is a picture of a European Union that is better equipped institutionally to deal with economic rather than political issues

Credit and Crisis from Marx to Minsky Jan Toporowski,2020-09-25 This timely book studies the economic theories of credit cycles and disturbances in the 20th century presenting a nuanced view of the role of finance in the economy after the financial crash of 2008 Focusing on the work of economists from Marx onwards Jan Toporowski moves beyond conventional monetary theory to offer an insightful critical alternative to current financial macroeconomics

Reconstructing Urban Economics Franklin Obeng-Odoom,2016-08-15 Neoclassical economics the intellectual bedrock of modern capitalism faces growing criticisms as many of its key assumptions and policy prescriptions are systematically challenged Yet there remains one field of economics where these limitations continue virtually unchallenged the study of cities and regions in built environment economics In this book Franklin Obeng Odoom draws on institutional Georgist and Marxist economics to clearly but comprehensively show what the key issues are today in thinking about urban economics In

doing so he demonstrates the widespread tensions and contradictions in the status quo showing how to reconstruct urban economics in order to create a more just society and environment
