Research On Adulthood And Aging:

Adult Development and Aging Diane E. Papalia, Cameron Camp, Harvey Sterns, 2006-06-14 This work clearly and concisely delivers the most current research findings in the field of adult development and aging *Research on Adulthood and Aging* L. Eugene Thomas, 1989-01-01 By borrowing from a wide range of disciplines such as psychology sociology anthropology psychiatry and the humanities this book gives a more human personal voice to the many experiences of aging The result is a new sort of social science research one which often reads more like literature than social science Indeed the author uses a wide variety of techniques borrowed from the humanities from hermeneutics to oral histories in addition to the more traditional social science methods **Adulthood and Aging** Dr. Vern L. Bengtson, PhD, 1996-07-03 In this volume distinguished scholars explore and apply the theoretical models of continuity and discontinuity to their research in adult development The chapters address the different ways in which continuity is affected by change over the life course as well as how individuals negotiate and maintain crucial continuities by adaptive change Topics include adult life crises illness sibling relationships and gender identity Each chapter is followed by an insightful commentary This book is a tribute to Bernice L. Neugarten for her contributions to the field of adult development which includes the concept of continuities Contributors include W. Andrew Achenbaum Robert H. Binstock James Birren Bertram J. Cohler Margaret Hellie Huyck Boaz Kahana Eva Kahana Sheldon S. Tobin Lillian E. Troll Steven H. Zarit and others **Aging and Older Adulthood** Joan T. Erber, 2019-07-23 Reflects the most important theoretical foundations and research directions concerning aging and older adulthood This authoritative volume provides the latest insights into and theoretical interpretation of our understanding of the human aging process Newly updated and revised this edition of the well established student textbook offers relatable scenarios that touch upon real world issues faced by older adults and their families The book explains how research studies attempt to answer questions of both theoretical and practical importance as they relate to aging and older adulthood and it explains the hypotheses and findings of the studies in a manner that is comprehensible to readers of all levels of research experience *Aging and Older Adulthood* begins by describing the demographic characteristics of the older population and follows with a chapter on theoretical models that apply to the study of adult development and aging as well as approaches commonly taken to conduct research and ethical concerns involved in the study of this group It then offers a series of chapters exploring biological aging sensation perception and attention memory intellectual functioning cognition and real world problem solving personality and coping social interaction and social ties lifestyles and retirement mental health and psychotherapy and death and bereavement The final chapter looks at aging in the future Each chapter includes fully updated research findings as well as new and expanded coverage of concepts and ideas in areas such as neuroscience and diabetes New edition of a highly respected text exploring our contemporary understanding of a broad range of topics related to older adulthood and the psychology of aging Offers thematic treatment of core issues including health sensory perception memory intellect social

interactions employment and retirement and mental health Uses a dual lens of two models the selective optimization with compensation model and the ecological model to provide cohesiveness to the presentation of both theoretical and applied material Introduces each chapter with a relevant real world scenario and refers back to it throughout the chapter Includes pedagogical feature boxes that reflect current understanding of contemporary issues in the field as well as key points and issues for further discussion Aging and Older Adulthood 4th Edition is an excellent text for upper division undergraduate and graduate courses focusing on the older adulthood and aging the psychology of aging gerontological studies and lifespan development **The Wiley-Blackwell Handbook of Adulthood and Aging** Susan K. Cognitive Development in Adulthood Mark L. Howe, Charles J. Brainerd, 2012-12-06 For some time now the study of cognitive development has been far and away the most active discipline within developmental psychology Although there would be much disagreement as to the exact proportion of papers published in developmental journals that could be considered cognitive 50% seems like a conservative estimate Hence a series of scholarly books devoted to work in cognitive development is especially appropriate at this time The Springer Series in Cognitive Development contains two basic types of books namely edited collections of original chapters by several authors and original volumes written by one author or a small group of authors The flagship for the Springer Series is a serial publication of the advances type carrying the subtitle Progress in Cognitive Development Research Each volume in the Progress sequence is strongly thematic in that it is limited to some well defined domain of cognitive developmental research e g logical and mathematical development development of learning All Progress volumes will be edited collections Editors of such collections upon consultation with the Series Editor may elect to have their books published either as contributions to the Progress sequence or as separate volumes All books written by one author or a small group of authors are being published as separate volumes within the series A fairly broad definition of cognitive development is being used in the selection of books for this series *Aging and Older Adulthood* Joan T. Erber, 2013-01-29 The third edition of this essential text has been updated and expanded with new material that reflects the most recent developments in the field and explores our current understanding of a broad range of topics related to aging and older adulthood Fresh edition includes updated content such as revised case histories and reworked material on key concepts and research applications Retains the winning format of the second edition with chapter contents framed by individual histories Dual models add cohesiveness to the presentation of theory Thematic structure facilitates reader comprehension Instructor resources provided online upon publication at www.wiley.com/go/erber **Middle Adulthood** Sherry L. Willis, Mike Martin, 2005-06-23 Willis Pennsylvania State U and Martin's U of Zurich text considers facets of life

from age 40 to 65 Taking a multicultural perspective it addresses topics including the emergence of middle age as a normative developmental period in the life course change and stability in personality during middle age and cognitive development and decline

A Journey Called Aging James C. Fisher, Henry C. Simmons, 2012-11-12 A Journey Called Aging presents an insightful exploration of the years between the entry into older adulthood and death This text examines the significant changes and major landmarks of older persons between 60 and 90 Grounded by a developmental framework based on empirical research this book presents a new way of looking at older adulthood describing the older adult years in intensely human terms through both anecdotes and research based findings to engage the reader as both guide and traveler Using a series of sequential stages as a framework A Journey Called Aging discusses the experiences of older adults addressing the challenges and opportunities presented at each stage This clear analysis can be used as a guide to help persons plan their own odyssey through the older years Topics in A Journey Called Aging include research and results of the study entering older adulthood the long stable stage of Extended Middle Age Early Transition Older Adult Lifestyle Later Transition the stable stage near the end of life the final transition A Journey Called Aging is crucial reading for professionals who work with older adults including pastors attorneys facilities managers and program directors gerontology educators and students and older adults themselves their families and those who care for and about them

The Journey of Adulthood Barbara R. Bjorklund, 2013-07-24 For undergraduate courses in Adulthood and Aging Gerontology and Adult Development This best selling book discusses the aspects of successful aging covering growth and development from emerging adulthood to old age and the impact that culture gender ethnicity and individual differences have on these processes For Barbara Bjorklund the subject matter in Journey of Adulthood has never been far from home as a middle aged adult who is on this very journey along with her husband looking ahead toward their parents who are in late adulthood and back toward their children who are making their own way through young adulthood she has found that there is always room to learn always room to grow One of the major goals of this text is to capture this dynamic process of adult development from emerging adulthood to the end of life Its core is made up of research findings from large longitudinal studies and major theories of adult development but it also reflects smaller studies of diverse groups showing the influences of gender culture ethnicity race and socioeconomic background on this journey Combined this material creates for an exciting and thorough view on the process of successful aging
