Written for and by multidisciplinary public health scholars. The Routledge Companion to Research in the Arts Michael Biggs, Henrik Karlsson, 2010-10-04. The Routledge Companion to Research in the Arts is a major collection of new writings on research in the creative and performing arts by leading authorities from around the world. It provides theoretical and practical approaches to identifying, structuring and resolving some of the key issues in the debate about the nature of research in the arts which have surfaced during the establishment of this subject over the last decade. Contributions are located in the contemporary intellectual environment of research in the arts and more widely in the universities in the strategic and political environment of national research funding and in the international environment of trans national cooperation and communication. The book is divided into three principal sections: Foundations, Voices and Contexts, each with an introduction from the editors highlighting the main issues, agreements and debates in each section. The Routledge Companion to Research in the Arts addresses a wide variety of concepts and issues including the diversity of views on what constitutes arts based research and scholarship, what it should be and its potential contribution, the trans national communication difficulties arising from terminological and ontological differences in arts based research, traditional and non traditional concepts of knowledge, their relationship to professional practice and their outcomes and audiences, a consideration of the role of written, spoken and artefact based languages in the formation and communication of understandings. This comprehensive collection makes an original and significant contribution to the field of arts based research by setting down a framework for addressing these and other topical issues. It will be essential reading for research managers and policy makers in research councils and universities as well as individual researchers, research supervisors and doctoral candidates. *Research Methods for Community Change* Randy Stoecker, 2012-02-09. *Research Methods for Community Change: A Project Based Approach* Second Edition is an in depth review of all of the research methods that communities can use to solve problems, develop their resources, protect their identities and build power.
