Research Made Simple A Handbook For Social Workers:

Research Made Simple Raymond Mark, 1996-02-05 Raymond Mark has extended his choreography of a modern ballet of social work research continuing to combine the classical integrity of statistical techniques with the latest problems of planning and implementation a kind of researcher's rodeo One hopes this book's use as a teaching instrument and its application as a research stimulus and guide will encourage both students and practitioners to work harder at achieving a sounder integration of theory and practice in social work from the Foreword by Chauncey A Alexander Designed to provide students with a nontechnical easy to understand guide *Research Made Simple* will help relieve the anxiety often associated with research methods courses Author Raymond Mark provides the raw materials that will allow students to read a research report understand its findings and judge the accuracy of its conclusion This concise practical volume covers the full range of material presented in most social science research methods courses but can also be used as a how to guide for professionals on the basics of the research process The topics covered range from basic concepts about the scientific method fundamental terms and the initial steps of the research process to developing and implementing a complete research plan Separate in depth chapters discuss research ethics qualitative approaches program evaluation statistical hypothesis testing and computer applications for researchers A unique feature of this volume is the presence of an entire chapter devoted to gender and culture sensitive research that addresses the increasing need for diversity in research Each chapter concludes with end of chapter discussion questions and short assignments for review Equipped with tables appendixes and a glossary this user friendly volume will make research methods highly approachable *Research Made Simple* will prove to be an invaluable resource for beginning classes in research methods at both undergraduate and graduate levels and it will provide a solid foundation for those pursuing advanced studies of research methods

Research for Social Workers Margaret Alston, Wendy Bowles, 2003 An introduction to research methods specifically needed in social work and social welfare this text outlines the major stages of research projects covering both quantitative and qualitative methods

Evaluation and Social Work Practice Ian Shaw, Joyce Lishman, 1999-05-28 Evaluation and Social Work Practice offers a comprehensive treatment of the central issues confronting evaluation in social work that links theory and method to practical applications Evaluation is an integral part of social work and social care provision for both practice and service delivery Evaluation can improve effectiveness and increase accountability and help develop new models of practice and service delivery The authors argue that evaluation should not just be applied to practice but should be a direct dimension of practice Appealing to the student researcher and practitioner Evaluation and Social Work Practice will become the standard reference source on evaluation

Child Welfare: Issues in child welfare Nick Frost, 2005 This collection focuses on child welfare in its specific sense welfare and social interventions with children and young people undertaken by State bodies or NGO's The term child welfare is deployed differently in diverse international settings In the United Kingdom child welfare tends to refer to

individualised programmes for children who have experienced problems in their lives In India to take a contrasting example it can also refer to major housing and nutrition programmes This collection takes an inclusive approach to international perspectives The collection is completed by a new general introduction by the editor individual volume introductions and a full index Titles also available in this series include Medical Sociology November 2004 4 Volumes 495 and the forthcoming collection Health Care Systems 2005 3 Volumes c 395

Contemporary Field Social Work Mark Doel, Steven M Shardlow, Steven Shardlow, Paul G. Johnson, 2010-06-29 This text bridges the gap by offering learning activities that can be worked in both settings The book is divided into four main parts that accounts for the major areas of social work practice Part I covers the foundations of practice including self awareness and knowing and learning about the community within one will practice The second part deals with direct practice and covers individual assessment and group work The third part focuses on agency practice and finally the last part covers special issues for consideration including multicultural practice law informed practice ethics specialist and comparative practice

Research Methods for Community Change: A Project-Based Approach Randy Stoecker, 2013 Research Methods for Community Change A Project Based Approach Second Edition is an in depth review of all of the research methods that communities can use to solve problems develop their resources protect their identities and build power With an engaging writing style and numerous real world examples Randy Stoecker shows how to use a project based research model in the community to diagnose a community condition prescribe an intervention for the condition implement the prescription and evaluate its impact At every stage of this model there are research tasks from needs and assets assessments to process and outcome studies Readers also learn the importance of involving community members at every stage of the project and in every aspect of the research making the research part of the community building process

Modern Social Work Practice Mark Doel, 2017-03-02 Modern Social Work Practice is an interactive book designed to provide readers with an opportunity to engage with key aspects of current social work practice It also provides an excellent digest of the significant literature Each chapter is introduced with an activity or exercise designed to aid student learning in discrete aspects of practice building up to a complete curriculum for practice learning The book builds upon the success and style of Social Work Practice 1993 and The New Social Work Practice 1998 Mark Doel and Steven M Shardlow have shaped the book to take account of the National Occupational Standards for Social Work aiming to provide a creative practical and up to date resource for teaching and learning in line with current practices

Social Work Concerns and Challenges in the 21st Century V. V. Devasia, Ajit Kumar, 2009 Choice of themes and the manner in which they are dealt with is a noteworthy feature of this book Seven out of the twenty articles are on women A striking feature is that out of the seven articles four of them discuss the daily work undertaken by women

Research: Oxford Bibliographies Online Research Guide Michael Saini, 2010-05 This ebook is a selective guide designed to help scholars and students of social work find reliable sources of information by directing them to the best available scholarly

materials in whatever form or format they appear from books chapters and journal articles to online archives electronic data sets and blogs Written by a leading international authority on the subject the ebook provides bibliographic information supported by direct recommendations about which sources to consult and editorial commentary to make it clear how the cited sources are interrelated related A reader will discover for instance the most reliable introductions and overviews to the topic and the most important publications on various areas of scholarly interest within this topic In social work as in other disciplines researchers at all levels are drowning in potentially useful scholarly information and this guide has been created as a tool for cutting through that material to find the exact source you need This ebook is a static version of an article from Oxford Bibliographies Online Social Work a dynamic continuously updated online resource designed to provide authoritative guidance through scholarship and other materials relevant to the study and practice of social work Oxford Bibliographies Online covers most subject disciplines within the social science and humanities for more information visit www.oxfordbibliographies.com

Human Services and the Afrocentric Paradigm Jerome Schiele, Jerome H Schiele, 2013-09-13 Discover how human services professionals can help to eliminate cultural oppression Human Services and the Afrocentric Paradigm presents a

new way of understanding human behavior attacking social problems and exploring social issues This excellent guide shows that understanding the simultaneous forces of oppression and spiritual alienation in American society serves as a foundation for understanding the societal problems here The first book to offer a comprehensive exposition of how the Afrocentric paradigm can be used by human service professionals and community advocates Human Services and the Afrocentric Paradigm discusses why and how human service work is hampered by Eurocentric cultural values and will help you to offer fair and effective services to your clients Human Services and the Afrocentric Paradigm provides you with a concrete discription of how the Afrocentric model can be applied in human services to help people of all races and ethnicities You will expand and diversify your knowledge base in human services by understanding the cultural values traditions and experiences of people of African ancestry Some of the issues and concepts in the Afrocentric paradigm that you will explore are defining the Afrocentric worldview complete with a discussion of its philosophical assumptions and its shortcomings understanding traditional helping assumptions and methods of West African societies and how these have influenced the helping strategies of African Americans exploring the strengths and weaknesses of some early African American human service scholars with special concern placed on their rejection of traditional African methods in favor of Eurocentric ideas resolving youth violence and helping people with substance abuse problems examining Afrocentric assumptions about resource distribution morality and societal relationships identifying organizational and conceptual differences in Eurocentric and Afrocentric paradigms creating organizational empowerment and an enhanced work environment via the Afrocentric paradigm Human Services and the Afrocentric Paradigm will help you understand solve and prevent problems that are confronted by several races especially individuals of African descent This timely and relevant worldview is thoroughly explained to assist you in better serving people of color The Afrocentric paradigm will help human services practitioners administrators policy advocates analysts educators and black studies professors and students achieve educational and treatment objectives by showing you the importance of various cultural values and how to integrate them to make a difference Research Methods for

Community Change Randy Stoecker, 2005-02-15 Everyone is a member of a community and every community is continually changing To successfully manage that change community members need information Research Methods for Community Change A Project Based Approach is an in depth review of all of the research methods that communities use to solve problems develop their resources and protect their identities With an engaging friendly style and numerous real world examples author Randy Stoecker shows readers how to use a project based research model in the community The four features of the model are Diagnosing a community condition Prescribing an intervention for the condition Implementing the prescription Evaluating its impact At every stage of this model there are research tasks from needs and assets assessments at the diagnosis stage to process and outcome studies at the evaluation stage Readers will also learn the importance of involving community members at every stage of the project and in every aspect of the research making the research part of

the community building process Research Methods for Community Change is perfectly suited as a text for undergraduate and graduate research methods courses across the social sciences including sociology social work and public health Community service workers professional researchers and consultants will also find this an invaluable guide to effecting change in their communities At last A concise insightful and highly useful book on research methods for community action and social change Drawing from his own rich experiences as well as from broader literature and examples Stoecker demonstrates that valuable research is not the monopoly of professional researchers but can be used by people anywhere as a tool for organizing and developing their communities Highly readable grounded in analysis and full of practical approaches this book will be an important resource for activists students scholars policy makers and community development practitioners who seek to use research for more effective and sustainable change John Gaventa Fellow Institute for Development Studies Sussex U K Drawing from his own experiences and from case studies from across the nation Stoecker offers an empowering and remarkably accessible discussion of how project based research models build community and democracy by redistributing both power and responsibility It is an informative and valuable text that makes a convincing case that research must become daily practice for all who are committed to working for effective social change Stephen L Fisher Director Appalachian Center for Community Service Emory Henry College Stoecker s highly readable book is a great leap forward in expanding the definition and practice of research and documentation through collaboration between academics and community activists He makes project based research accessible to readers through lively real examples that involve creative and strategic use of sources and resources Stoecker shows how good quality research can make meaningful differences in people s lives The book is perfect for use in both classrooms and nonprofit organizations Kathleen Staudt University of Texas at El Paso At last a book that demystifies research for both novice and experienced community workers who want to make a difference Randy Stoecker presents a refreshingly innovative and accessible challenge to more conventional texts Linda Briskman Associate Professor of Social Work RMIT University Australia

Improving Health through Nursing Research William L.

Holzemer,2009-08-25 Improving Health through Nursing Research is a practicalguide to research and research utilisation in nursing The bookdraws upon international expertise in nursing research reflectingthe worldwide demand for evidence based practice Part one offers a global perspective on health and nursing andaddresses the development of nursing knowledge and nursing theory Part two investigates the underlying need for nursing research focusing on improving patient care enhancing care delivery anddeveloping the profession of nursing Parts three and four providean overview of quantitative and qualitative research methods theirselection use and interpretation The last three parts of thebook address key issues in research ethics and provide practicalguidance as to how to prepare a research proposal undertakeresearch present and publish findings and translate research intopractice Improving Health through Nursing Research Is a practical accessible guide for nurse researchers andnurses with an interest in research Draws upon international expertise in nursing research Explores research

within the international context Explores issues at local national and regional level Provides guidelines for developing research Includes global examples This publication in partnership with the International Council of Nurses is the essential resource for nurses seeking to understand research and research utilisation

Working with People with Learning Disabilities Honor Woods, David Thomas, 2003-02-20 A comprehensive introduction to working with people with learning disabilities this guide provides the theoretical understanding needed to inform good practice and to help improve the quality of life of people within this group Using accessible language and case examples the authors discuss both psychological and practical theories

Evaluation in Dementia Care Anthea Innes, Louise McCabe, 2007 This volume sets out the critical role and application of evaluation in identifying and developing good practice in a range of dementia care settings It discusses the evaluation of care at different levels covering evaluation methods ethics use of technology and the user's role in the evaluation process itself

Quantitative Methods for the Social Sciences Daniel Stockemer, Jean-Nicolas Bordeleau, 2023-09-12 This textbook offers an essential introduction to survey research and quantitative methods with clear instructions on how to conduct statistical tests with R Building on the premise that we need to teach statistical methods in a holistic and practical format the book guides students through the four main elements of survey research and quantitative analysis 1 the importance of survey research 2 preparing a survey 3 conducting a survey and 4 analyzing a survey In detail students will learn how to create their own questionnaire on the basis of formulating hypotheses sampling participants disseminating their questionnaire creating datasets and analyzing their data The data analytical sections of this revised and extended edition explain the theory rationale and mathematical foundations of relevant bivariate and multi variate statistical tests These include the T test F test Chi square test and correlation analyses as well as bivariate and multivariate regression analyses In addition the book offers a brief introduction to statistical computing with R which includes clear instructions on how to conduct these statistical tests in R Given the breadth of its coverage the textbook is suitable for introductory statistics survey research and quantitative methods classes in the social sciences

Practical Research and Evaluation Lena Dahlberg, Colin McCaig, 2010-05-05 This book is a starter DIY text for practitioners who are looking to conduct evaluation studies and research as part of their own professional practice The growing emphasis on evidence based practice means that there is an increasing need for practitioners to have at least a basic understanding of research be aware of methodological pitfalls and to be updated on new methods This book provides a practical user friendly guide to social science research methods for professionals who have benefited from little if any formal research methods training but find themselves in a role that requires them to read and understand complex research findings and carry out their own research as part of their professional practice Practical Research and Evaluation is aimed at practitioners working in education health social care and community work Many in this market are non graduates or are those whose study did not contain a research element but are required to know how research works This book has three main aims which will benefit this audience to enable readers to

carry out small scale research projects of their own provide them with the basic understanding necessary to commission research and enable them to better understand and evaluate critically research reports This book is designed specifically for Do it Yourself researchers working in the public or voluntary sectors It is accessible and relevant to practitioners uses non technical language wherever possible and employs grounded examples practical tips checklists and readings lists throughout

Promoting Change through Action Research Franz Rauch, Angela Schuster, Thomas Stern, Maria Pribila, Andrew Townsend, 2014-11-04 Bringing a different world into existence Action Research as a trigger for innovations was the overarching theme and vision of the international CARN Conference 2011 in Vienna The chapters in this book are drawn mainly from conference contributions The authors share practical knowledge which has arisen from their work and reflect on development processes in schools in teacher education and professional development social work social pedagogy health care and community development This book offers what some critics believe has been missing in recent action research literature namely first person accounts of action researchers who endeavour to change working conditions and social relations in their environment through the conduct of action research This book is also distinguished by assembling contributions from people who are linking action research to a broad diversity of differing contexts and who are exploring topics or issues across various applications of action research **Social Work Research for Social Justice** Beth Humphries, 2008-04-28 Students of social work need to understand the contribution of research as part of this evidence base to effective practice This textbook introduces students to a range of research methods at a practical level and sensitises them to the political dimension of research *Realist Evaluation in Practice* Mansoor A F Kazi, 2003-06-25 This title outlines the new emerging realist paradigm in evaluation research applies it to practice in human services The author contributes to the development of this paradigm in practice provides examples of realist evaluations
