Vietnam Studies - U.S. Army Special Forces 1961-1971 Colonel Francis John Kelly, 2014-08-15 Includes 6 Maps 25 photo illustrations 10 Charts and 8 Tables As long ago as 1957 U S Army Special Forces soldiers were in the Republic of Vietnam going about their business of training advising and assisting members of the Vietnamese Army Despite the old Army witticism about never volunteering for anything the Special Forces soldier is in fact a double volunteer having first volunteered for airborne training and then again for Special Forces training From a very meager beginning but sustained by a strong motivation and confidence in his mission the Special Forces soldier has marched through the Vietnam struggle in superb fashion In 1957 some fifty eight Vietnamese soldiers were given military training by Special Forces troops Ten years later the Special Forces were advising and assisting over 40 000 paramilitary troops along with another 40 000 Regional Forces and Popular Forces soldiers This monograph traces the development and notes the progress problems successes and failures of a unique program undertaken by the U S Army for the first time in its history It is hoped that all the significant lessons learned have been recorded and the many pitfalls of such a program uncovered With the withdrawal of the Special Forces from Vietnam in 1971 the Army could honestly lay claim to a new dimension in ground warfare the organized employment of a paramilitary force in sustained combat against a determined enemy I know I speak for my predecessors and successors in claiming that the 5th Special Forces Group Airborne was the finest collection of professional soldiers ever assembled by the U S Army anywhere anytime

Popescu, 2008-07-30 Israel and Syria The Military Balance and Prospects of War provides a detailed and current picture of the military capabilities of Israel and Syria reflecting the changes and lessons of the Israel Hezbollah War in 2006 and other recent conflicts It offers extensive analysis supported by tables and charts on the trends in military spending arms imports and technology transfers military manpower weapons and orders of battle By going beyond military balance analysis Cordesman examines the probable nature and results of a future war and how the readiness capability tactics and technology on each side would shape its outcome Israel and Syria The Military Balance and Prospects of War shows how a dangerous new conflict between both nations would cripple all strides in strategic gains and Israeli Syrian diplomacy On the other hand peace negotiations would offer a safer more productive relationship Israel and Syria need to consider the true nature of their military balance and the undermining effect to both nations as well as the costs and risks of any future conflict Although Syria does retain important options in terms of asymmetric and proxy conflicts it would fail in its attempt to recapture the Golan While Israel would almost certainly win a future war it cannot make gains from acquiring more Syrian territory and a new war would create major problems with its neighbors and in dealing with the Palestinians The risk of a new Israeli Syrian conflict is so serious that both sides need to understand the true nature of their military balance and the costs and risks of any future conflict Israel and Syria The Military Balance and Prospects of War shows how dangerous a new conflict could be that neither side can make lasting strategic gains from a future conflict and that peace negotiations offer a far safer and more productive option It provides a detailed and current picture of the military capabilities of Israel and Syria reflecting the changes and lessons of the Israel Hezbollah War in 2006 and other recent conflicts Israel and Syria The Military Balance and Prospects of War provides extensive analysis supported by tables and charts on the trends in military spending arms imports and technology transfers military manpower weapons and orders of battle By going beyond military balance analysis Cordesman examines the probable nature and results of a future war and how the readiness capability tactics and technology on each side would shape its outcome
