Longterm Structural Changes In Transforming Central Eastern Europe:

Long-term Structural Changes in Transforming Central & Eastern Europe Tibor Iván Berend, 1997 Literaturangaben Durchsuchbare elektronische Faksimileausgabe als PDF Digitalisiert im Rahmen des DFG Projektes Digi20 in Kooperation mit der BSB München OCR Bearbeitung durch den Verlag Otto Sagner **Backwardness and Modernization: Poland and Eastern Europe in the 16th-20th Centuries** Jacek Kochanowicz, 2018-01-31 The subject of this book is the economic backwardness of Poland and Eastern Europe in the modern era The studies in the first part analyse various aspects of the region's economic and social history in the period from the 16th to the 20th centuries such as the nature of peasant economics the character of economic evolution and the ambiguity of social and economic relations between Poland and the West The second part deals with the change following the fall of state socialism Papers in this part argue that for understanding the present it is necessary to take into consideration historical legacies It is also important to look at the process of this recent change comparatively both within Eastern Europe and comparing this region with other parts of the world Professor Kochanowicz's contention in these essays is that the so called transformation has had to cope not only with the effects of state socialism but also with a much longer legacy of backwardness **Central and Eastern Europe, 1944-1993** Tibor Iván Berend, 1996 An ambitious comparative analysis of Eastern Bloc economies during a period of revolutionary change *Global Trends in Eastern Europe* Nikolai Genov, 2010 In this thought provoking book Nikolai Genov presents a systematic description and explanation of Eastern European societal transformations after 1989 as a consequence of global trends *The Human Geography of East Central Europe* David Turnock, 2003-10-04 The Human Geography of East Central Europe examines the geography of the transition economies that were not formerly part of the Soviet Union Albania Bosnia Hercegovina Bulgaria Croatia The Czech Republic Hungary Macedonia Poland Romania Slovakia Slovenia Yugoslavia and East Germany There is a thematic treatment beginning with the landscape and historical background which moves on to the social and economic geography industry agriculture and infrastructure and to issues concerning regional development and environmental protection *Transformation of Cities in Central and Eastern Europe* F. E. Ian Hamilton, Kaliopa Dimitrovska Andrews, Nataša Pichler-Milanović, 2005 Annotation This volume is one in a series initiated by the United Nations University Institute of Advanced Studies on the inter relationship between globalisation and urban transformation It identifies and describes the inter and intra urban transformations of Central and Eastern European cities and considers their pre 1945 historic legacies the socialist period and their contemporary transition towards market oriented and democratic systems The dramatic changes since 1989 including the collapse of Communist ideology the break up of the Soviet Union Czechoslovakia and Yugoslavia the end of the Cold War and the impact of globalisation and European integration have reconfigured this region and affected their re integration into European and global networks This book first examines the similarities and differences between significant Central and Eastern European cities comparing the differing patterns of

historical context and socialist legacies before 1990 and the impacts of internal and external forces on re shaping these cities and their paths of transformation since 1990 It also examines the role of contemporary planning within the overall development of Central and Eastern European cities The conclusion demonstrates the similarities and differences between Central and Eastern European cities and their re integration into global networks Global Trends in Eastern Europe Professor Nikolai Genov,2013-03-28 Eastern Europe was once clearly defined by the centralized political and economic organization of the societies in the region They shared the same official ideology and were members of the same alliances After 1989 the region collapsed in an economic political and cultural implosion What were the moving forces of this profound change What are its consequences Could we try to reasonably foresee any future developments In this thought provoking book Nikolai Genov presents a systematic description and explanation of Eastern European societal transformations after 1989 They are interpreted as adaptations to four global trends upgrading the rationality of organizations individualization spreading of instrumental activism and universalization of value normative systems Adaptations to these trends have generally been successful However Genov notes that the process is marked by many failures as well They are mostly caused by path dependency in the societal development and by the varying quality of relevant decisions other destructive developments are due to contradictions in the global trends themselves Guided by the assumption that the societal and supranational integration mechanisms in Eastern Europe before 1989 could not resist the overwhelming power of global trends Genov s controversial findings question visions about the end of history and simultaneously strengthen the confidence that most complex macro social processes can be rationally managed A timely book allowing for a much needed engagement in contemporary debates on the controversial processes in Eastern European transitions East Central Europe and the Former Soviet Union David Turnock,2024-11-01 Since 1898 the former communist countries of Eastern Europe have gained international prominence The continuing socio economic transition and the instability evident in areas like the Caucasus and Former Yugoslavia have drawn the western world into uneasy interactions with the region At the same time closer commercial and cultural contacts are providing opportunities for rewarding relationships which have now resulted in many of these countries joining the EU This book provides detailed coverage of the transition from communism to a market economy Covering the whole range of East Central European and former Soviet Union countries it charts the diversity within the region offering in depth coverage of specific areas as well as a broad view of development across the region The book is organised into three comprehensive sections the historical socio economic and environmental The socio economic section considers the critical issues of restructuring to effect the transition from central planning to a market economy while the historical material provides an essential context for the constraints and opportunities affecting the region The environmental section places emphasis on results of environmental neglect inherited from communism as well as looking to the future implications of EU directives on the problems of biodiversity and pollution in the region *From the Soviet Bloc to the*

European Union Ivan T. Berend, 2009-02-12 An authoritative study that covers the social and economic history of Central and Eastern Europe since 1973 *Themes in Modern European History Since 1945* Rosemary Wakeman, 2003-06-26 Twelve chapters consider the key political cultural and economic changes of post 1945 Europe
