The Freedman in Roman Art and Art History Lauren Hackworth Petersen, 2011-09-19 From monumental tombs and domestic decoration to acts of benefaction and portraits of ancestors Roman freed slaves or freedmen were prodigious patrons of art and architecture Traditionally however the history of Roman

art has been told primarily through the monumental remains of the emperors and ancient writers who worked in their circles In this study Lauren Petersen critically investigates the notion of freedman art in scholarship dependent as it is on elite authored texts that are filled with hyperbole and stereotypes of freedmen such as the memorable fictional character Trimalchio a boorish ex slave in Petronius Satyricon She emphasizes integrated visual ensembles within defined historical and social contexts and aims to show how material culture can reflect preoccupations that were prevalent throughout Roman society Interdisciplinary in scope this book explores the many ways that monuments and artistic commissions by freedmen spoke to a much more complex reality than that presented in literature *Scandal and Survival in Nineteenth-century*

infected and occupied by it Empire was paraded in the streets of Rome and exhibited in the city's buildings Empire also made the city ineradicably foreign polyglot an alien capital and a focus for un-Roman activities The city was where the Roman cosmos was most concentrated and so was most contested Deploying a range of methodologies on materials ranging from Egyptian obelisks to human skeletal remains via Christian art and Latin poetry the contributors to this volume weave a series of pathways through the world city exploring the different kinds of centrality Rome had in the empire The result is a startlingly original picture of both empire and city
