Lund And Its Courtyards:

Lund and Its Courtyards Maria Lindstedt, Andy Ruckemann, 1984 The Courtyards of the House of the Lord Lawrence Harvey Schiffman, 2008 Already before its publication it was clear that the Temple Scroll represented a major contribution to the history of Jewish law in Late Antiquity The present volume brings together the author's studies on this important scroll He has sought to uncover the hermeneutics of the Zadokite Sadducean legal system and to compare and contrast it with other texts of its own type as well as with those in rabbinic literature preserving the Pharisaic rabbinic approach *Negotiating the North* Sarah Semple, Alexandra Sanmark, Frode Iversen, Natascha Mehler, 2020-06-11 This book brings together the cumulative results of a three year project focused on the assemblies and administrative systems of Scandinavia Britain and the North Atlantic islands in the 1st and 2nd millennia AD In this volume we integrate a wide range of historical cartographic archaeological field based and onomastic data pertaining to early medieval and medieval administrative practices geographies and places of assembly in Norway Sweden Denmark Iceland the Faroe Islands Scotland and eastern England This transnational perspective has enabled a new understanding of the development of power structures in early medieval northern Europe and the maturation of these systems in later centuries under royal control In a series of richly illustrated chapters we explore the emergence and development of mechanisms for consensus We begin with a historiographical exploration of assembly research that sets the intellectual agenda for the chapters that follow We then examine the emergence and development of the thing in Scandinavia and its export to the lands colonised by the Norse We consider more broadly how assembly practices may have developed at a local level yet played a significant role in the consolidation and at times regulation of elite power structures Presenting a fresh perspective on the agency and power of the thing and cognate types of local and regional assembly this interdisciplinary volume provides an invaluable in depth insight into the people places laws and consensual structures that shaped the early medieval and medieval kingdoms of northern Europe Courtyard Housing Brian Edwards, 2006 This book demonstrates through discussions on sustainability and regional identity and via a series of case studies that the courtyard housing form has a future as well as a past *The Courtyard Houses* Jørn Utzon, 2004 By looking at how people lived I quickly discovered that all the small gardens were filled with tool sheds and hobby sheds and old cars stood there and pleasure craft etc And so I designed a town plan and a house type that accepted that within their own area people could do as they pleased in their leisure time without upsetting their neighbours and without having any special easements such a house and such a town plan that respected this or assumed the individual right to enjoy private life but at the same time the resulting part of the town was then to have a common character as seen from outside so that it became a small community Power and Place in Europe in the Early Middle Ages Jayne Carroll, Andrew Reynolds, Barbara Yorke, 2019-12-17 This book reveals a high degree of organisational capacity in early medieval societies It outlines a new agenda for assessing and interpreting early medieval power how it was formed how it

functioned and how it developed across time providing the basis for the kingdoms of the European Middle Ages **Tony Fretton Architects** Tony Fretton,2014-05-22 A comprehensive overview on the work of renowned London architect Tony Fretton born 1945 After graduating from the reputable Architectural Association in 1982 Fretton opened his own architect s office He attracted attention early on with the Lisson Gallery and the Red House London His spatial creations and their incorporation into the urban context are of subtle mastery With his designs for the Camden Arts Centre the Fuglsang Kunstmuseum in Denmark London townhouse for the artist Anish Kapoor and the British embassy in Warsaw Fretton has emerged as one of the most prominent contemporary architects This monograph provides a long awaited reference work to his oeuvre Since 1999 Tony Fretton has been a visiting professor at the following universities Technical University Delft Ecole Polytechnique F d rale Lausanne Berlage Institute Amsterdam Harvard University Graduate School of Design Eidgen ssische Technische Hochschule ETH Zurich **The Halle Orphanage as Scientific Community** Kelly Joan Whitmer,2015-05-12 Founded around 1700 by a group of German Lutherans known as Pietists the Halle Orphanage became the institutional headquarters of a universal seminar that still stands largely intact today It was the base of an educational charitable and scientific community and consisted of an elite school for the sons of noblemen schools for the sons of artisans soldiers and preachers a hospital an apothecary a bookshop a botanical garden and a cabinet of curiosity containing architectural models naturalia and scientific instruments Yet its reputation as a Pietist enclave inhabited largely by young people has prevented the organization from being taken seriously as a kind of scientific academy even though Kelly Joan Whitmer shows this is precisely what it was The Halle Orphanage as Scientific Community calls into question a long standing tendency to view German Pietists as anti science and anti Enlightenment arguing that these tendencies have drawn attention away from what was actually going on inside the orphanage Whitmer shows how the orphanage s identity as a scientific community hinged on its promotion of philosophical eclecticism as a tool for assimilating perspectives and observations and working to perfect one s abilities to observe methodically Because of the link between eclecticism and observation Whitmer reveals those teaching and training in Halle s Orphanage contributed to the transformation of scientific observation and its related activities in this period **The Mediterranean Medina** AA. VV.,2016-01-03T00:00:00+01:00 This volume collects the proceedings of the International Seminar The Mediterranean Medina that took place in the School of Architecture at Pescara from 17th to 19th of June 2004 **The Modern Courtyard House** Duncan Macintosh,1973 **Soft City** David Sim,2019-08-20 Imagine waking up to the gentle noises of the city and moving through your day with complete confidence that you will get where you need to go quickly and efficiently Soft City is about ease and comfort where density has a human dimension adapting to our ever changing needs nurturing relationships and accommodating the pleasures of everyday life How do we move from the current reality in most cites separated uses and lengthy commutes in single occupancy vehicles that drain human environmental and community resources to support a soft city approach In Soft City David Sim partner and

creative director at Gehl shows how this is possible presenting ideas and graphic examples from around the globe He draws from his vast design experience to make a case for a dense and diverse built environment at a human scale which he presents through a series of observations of older and newer places and a range of simple built phenomena some traditional and some totally new inventions Sim shows that increasing density is not enough The soft city must consider the organization and layout of the built environment for more fluid movement and comfort a diversity of building types and thoughtful design to ensure a sustainable urban environment and society Soft City begins with the big ideas of happiness and quality of life and then shows how they are tied to the way we live The heart of the book is highly visual and shows the building blocks for neighborhoods building types and their organization and orientation how we can get along as we get around a city and living with the weather As every citizen deals with the reality of a changing climate Soft City explores how the built environment can adapt and respond Soft City offers inspiration ideas and guidance for anyone interested in city building Sim shows how to make any city more efficient more livable and better connected to the environment

Hooks, 2014-08-22 Investigating money's ambiguous position in architecture with reflections on topics that range from the aesthetics of austerity to the underwriting of large scale art projects Money plays a paradoxical role in the creation of architecture Formless itself money is a fundamental form giver At all scales and across the ages architecture is a product of the financial environment in which it is conceived for better or worse Yet despite its ubiquity money is often disregarded as a factor in conceptual design and is persistently avoided by architectural academia as a serious field of inquiry It is time to break these habits In the contemporary world in which economies are increasingly connected architects must creatively harness the financial logics behind architecture in order to contribute meaningfully to the development of the built environment This issue of *Perspecta* the oldest and most distinguished student edited architectural journal in America examines the ways in which money intersects with architectural discourse design practice and urban form in order to encourage a productive relationship between money and the discipline Contributions from a diverse group of scholars practitioners and artists create a dialogue about money's ambiguous position in architecture reflecting on topics that range from the aesthetics of austerity to the underwriting of large scale art projects to the economic implications of building information modeling Contributors AOC JT Bachman Phil Bernstein Mario Carpo Christo Peggy Deamer Keller Easterling Peter Eisenman Mark Foster Gage Frank Gehry Thomas Gluck Kevin D Gray Charles Holland Hasty Johnson Jerry Lea Naomi R Lamoreaux Mira Locher Vivian Loftness Gregg Pasquarelli Cesar Pelli Fred Clarke Nina Rappaport Todd Reisz Brent Ryan Lorena Bello Michelangelo Sabatino David Ross Scheer Robert Shiller Robert A M Stern Elisabetta Terragni Kazys Varnelis Andrew Waugh Michael Green Jay Wickersham Christopher Milford Alejandro Zaera Polo

Building Jewish in the Roman East Peter Richardson, 2004 Archaeology has unearthed the glories of ancient Jewish buildings throughout the Mediterranean but what has remained shrouded is what these buildings meant *Building Jewish* first surveys the architecture of small rural villages in the Galilee in the early Roman period before examining the development of synagogues as Jewish associations Finally *Building Jewish* explores Jerusalem's flurry of building activity under Herod the Great in the first century BCE Richardson's careful work not only documents the culture that forms the background to any

study of Second Temple Judaism and early Christianity but also succeeds in demonstrating how architecture itself like a text conveys meaning and thus directly illuminates daily life and religious thought and practice in the ancient world **Collage and Architecture** Jennifer A.E. Shields,2014-01-03 Collage and Architecture is the first book to cover collage as a tool for design in architecture making it a valuable resource for students and practitioners Author Jennifer Shields uses the artworks and built projects of leading artists and architects such as Le Corbusier Daniel Libeskind and Teddy Cruz to illustrate the diversity of collage techniques The six case study projects from Mexico Argentina Sweden Norway the United States and Spain give you a global perspective of architecture as collage Collage is an important instrument for analysis and design and Shields s presentation of this versatile medium draws on decades of relevance in art and architecture to be adapted and transformed in your own work *Peasant and Empire in Christian North Africa* Leslie Dossey,2010 This remarkable history foregrounds the most marginal sector of the Roman population the provincial peasantry to paint a fascinating new picture of peasant society Making use of detailed archaeological and textual evidence Leslie Dossey examines the peasantry in relation to the upper classes in Christian North Africa tracing that region s social and cultural history from the Punic times to the eve of the Islamic conquest She demonstrates that during the period when Christianity was spreading to both city and countryside in North Africa a convergence of economic interests narrowed the gap between the rustici and the urbani creating a consumer revolution of sorts among the peasants This book s postcolonial perspective points to the empowerment of the North African peasants and gives voice to lower social classes across the Roman world **Daniel** Henning Mankell,2010-11-04 In the 1870s Hans Bengler arrives in Cape Town from Sweden driven by a singular desire to discover an insect no one has seen before and name it after himself But then he impulsively adopts a young San orphan a boy he christens Daniel and brings with him back to Sweden a quite different specimen than he first contemplated Daniel is told to call Bengler Father taught to knock on doors and bow and continually struggles to understand this strange new land of mud and snow that surrounds and seemingly entraps him At the same time he is haunted by visions of his murdered parents calling him home to Africa Knowing that the only way home is by sea he decides he must learn to walk on water if he is ever to reclaim his true place in the world *Frommer's?
