Didier Musso

Macedonia And Greece The Struggle To Define A New Balkan Nation:

Macedonia and Greece John Shea,1997 Macedonia and Greece John Shea,2016-03-18 With the breakup of the former Yugoslavia and a pending NATO membership bid an old conflict between Greece and Macedonia has taken on added significance for the international community Greece has vehemently argued particularly in the West that the name Macedonia was in fact Greek and that its use by this new nation in the Balkans portended Macedonia's expansionist ambitions The Macedonians bitterly disputed this noting that Alexander the Great was a Macedonian and adducing many other fascinating and rational arguments Tensions were said to have been reduced by an interim agreement between the two countries but the attempted assassination of Macedonian president Kiro Gligorov in October 1995 has again heightened hostility in the area The genesis of the conflict is detailed here as well as the modern day events that have led many observers to believe that the area is a flashpoint for a major war greater than that in Bosnia *The Macedonian national question in Greece in the documents of the Communist Party of Greece 1918-1940* Ireneusz Adam _lupkov,2018-12-28 What this book essentially offers us is a clear and concise after the fact account of the decisive role of the Communist Party of Greece in the tragic fate of the Macedonian people in the first half of the 20th century in Aegean Macedonia Professor Michael Seraphinoff *The Macedonian Question and the Macedonians* Alexis Heraclides,2020-12-31 This book is a comprehensive and dispassionate analysis of the intriguing Macedonian Question from 1878 until 1949 and of the Macedonians and of their neighbours from the 1890s until today with the two themes intertwining The Macedonian Question was an offshoot of the wider Eastern Question i.e. the fate of the European remnants of the Ottoman Empire once it dissolved The initial protagonists of the Macedonian Question were Greece Bulgaria and Serbia and a Slav speaking population inhabiting geographical Macedonia in search of its destiny the largest segment of which ended up creating a new nation comprising the Macedonians something unacceptable to its three neighbours Alexis Heraclides analyses the shifting sands of the Macedonian Question and of the gradual rise of Macedonian nationhood with special emphasis on the Greek Bulgarian and Serbian claims to Macedonia 1870s 1919 the birth and vicissitudes of the most famous Macedonian revolutionary organization the VM O RO and of other organizations 1893 1940 the appearance and gradual establishment of the Macedonian nation from the 1890s until 1945 Tito's crucial role in Macedonian nationhood cum federal status the Greek Macedonian name dispute 1991 2018 including the skeletons in the cupboard the deep seated reasons rendering the clash intractable for decades the final Greek Macedonian settlement the 2018 Prespa Agreement the Bulgarian Macedonian dispute 1950 today and its ephemeral settlement in 2017 the issue of the Macedonian language and the Macedonian national historical narrative The author also addresses questions around who the ancient Macedonians were and the fascination with Alexander the Great This monograph will be an essential resource for scholars working on Macedonian history Balkan politics and conflict resolution The Macedonian Slavs in the Greek Civil War, 1944-1949 James Horncastle,2019-06-03 In

this study of Macedonian Slavs in the Greek Civil War the author examines how their participation in the conflict and the attempts by other groups to manipulate them gave rise to modern issues that continue to affect politics in the region today The Macedonian Question has confounded academics politicians and the people of the Balkans since the nineteenth century While the countries have resolved the territorial component of the Macedonian Question the critical and confusing question surrounding the ethnic and linguistic identity of the people of the region continues to be the source of international debate Part of the reason for this confusion is because the history of the Macedonian Question is shrouded in nationalist polemics The role of the Macedonian Slavs involvement in the Greek Civil War is particularly contentious and embedded in nationalist polemics which has impacted academic inquiry This book argues that the preponderance of Macedonian Slavs within the communist forces during the Greek Civil War influenced the actions of all the major actors involved and is a significant factor in shaping the modern Macedonian national identity

Archaeology, Sexism, and Scandal Alan Kaiser, 2023-06-14 A true story of plagiarism complicity and a 1930s excavation that has the arresting immediacy of investigative journalism The Journal of Hellenic Studies The 1931 excavation season at Olynthus Greece ushered a sea change in how archaeologists study material culture and was the nexus of one of the most egregious and underreported cases of plagiarism in the history of classical archaeology In this book Alan Kaiser draws on the private scrapbook that budding archaeologist Mary Ross Ellingson compiled during that dig as well as her personal correspondence and materials from major university archives to paint a fascinating picture of gender power and archaeology in the early twentieth century Using Ellingson's photographs and letters as a guide Kaiser brings alive the excavations led by David Robinson and recounts how the unearthing of private homes rather than public spaces emerged as a means to examine the day to day of ancient life in Greece But as Archaeology Sexism and Scandal clearly demonstrates a darker story lurks beneath the smiling faces and humorous tales one in which Robinson stole Ellingson's words and insights for his own and fellow academics looked the other way denying her the credit she was due for more than eighty years Kaiser's exciting and timely volume should force readers to openly confront gender related biases in science and academia Library Journal starred review Important Publishers Weekly Highly recommended

Choic **Political Handbook of the World 2018-2019** Tom Lansford, 2019-03-19 The Political Handbook of the World provides timely thorough and accurate political information with more in depth coverage of current political controversies than any other reference guide The updated 2018 2019 edition will continue to be the most authoritative source for finding complete facts and analysis on each country's governmental and political makeup Compiling in one place more than 200 entries on countries and territories throughout the world this volume is renowned for its extensive coverage of all major and minor political parties and groups in each political system It also provides names of key ambassadors and international memberships of each country plus detailed profiles of more than 30 intergovernmental organizations and UN agencies This comprehensive update will include coverage of current events issues crises and controversies from the course of the last two

years including Elections across Europe Referendum in Ireland Rohingya genocide in Myanmar The Venezuelan dictatorship The renaming of Swaziland to eSwatini Qatar diplomacy changes Historic meeting between the United States and North Korea Establishment of a new governing coalition in Liberia *Mapping Macedonia* Cindy R. Jebb, 2004-06-30 Ever since its independence in 1991 Macedonia has made remarkable progress towards building a pluralistic multi ethnic civil society Yet if the international community supports the legitimacy of Macedonia as a state it has direct responsibility to anchor its future No matter what view one subscribes to one stubborn truth remains Macedonia cannot achieve success on its own This book provides observations that offer valuable lessons on this little known but remarkable part of Europe This work provides a review of the historical basis for Macedonia s identity and its emergence as a separate nation during Socialist Yugoslavia 1944 1991 It takes a detailed look at the events and personalities that lead to the outbreak of civil war in 1991 This book contains aspects of the Ohrid Framework Agreement and perspectives on the contemporary situation following the elections of September 2002 Personal interviews with the first and second presidents of the Republic of Macedonia are also included

Holidays Around the World, 6th Ed. James Chambers, 2018-01-01 A comprehensive reference guide that covers over 3 500 observances Features both secular and religious events from many different cultures countries and ethnic groups Includes contact information for events multiple appendices with background information on world holidays extensive bibliography multiple indexes **Force, Movement, Intensity** Ghassan Hage, Emma Kowal, 2011-01-06 Of all the scientific works that have influenced the social sciences and humanities none has matched the profound effect of the work of Isaac Newton In his 1687 masterpiece Principia Mathematica he laid the foundation of classical mechanics in his discoveries of the laws of motion and the law of universal gravitation He reoriented human understanding of the cosmos thus boosting the confidence of human beings to access elements of what they saw as the divine logic behind the order of things and to have a sense of control over it From the nineteenth century to the present day Newton s science has inspired scholars of society in their attempts to discern the patterns of social life For others such a positivist project serves as a cautionary tale to be resisted by contemporary social sciences This book considers the original and continuing legacy of Newtonian theories and imaginaries in the vast array of human attempts to understand the world Drawing from a range of disciplines including anthropology sociology the history of science literary studies cultural studies social theory and economics the essays in this volume engage with Newton as a thinker and examine his legacy Some contributions illustrate the power of physical metaphors in understanding the social world many others point to the limits of this endeavour Still others show how since the eighteenth century Newtonian thought has influenced thinkers as diverse as Blake Marx Freud and Pierre Bourdieu This innovative collection prompts a reconsideration of the importance of Newton for the social sciences and humanities

Statehood and the Law of Self-Determination David Raic, 2002-09-01 Although most international lawyers assumed that the distribution of the land surface of the earth between States was more or less final after the end of decolonization

recent practice has disproved this assumption Eritrea separated from Ethiopia and new States were created out of the former Soviet Union the former Yugoslavia and the former Czechoslovakia There is no reason to believe that these events form the end of the creation of new States Numerous communities within existing States claim a right to full separate statehood on the basis of their entitlement to an alleged right to self determination However in most cases the international community rejected such claims to statehood even if the territorial entity satisfied the traditional criteria for statehood On the other hand in other cases including some of those mentioned above the international community acknowledged the statehood of entities which clearly failed to meet these criteria In the light of the above mentioned developments this book examines the modern law of statehood and in particular the role of the law of self determination in the process of the formation of States in international law The study shows that the law of statehood has changed considerably since the establishment of the United Nations It is argued that the law of self determination is particularly relevant for explaining the international community's position regarding the general recognition or the general denial of statehood of different territorial entities under contemporary international law

Contested Ethnic Identity Chris Kostov, 2010 During the twentieth century Macedonia had a very turbulent history Essentially the region became the apple of discord among the Balkan states Ethnic identity formation among immigrants from Macedonia to Canada followed the political developments in the Balkans This book illustrates the late emergence of an ethnic Macedonian community in Toronto and the roots of the clash between the Macedonian Greek and Bulgarian ethnic communities The author tackles a number of important questions When did the Macedonian ethnic identity start in Canada What was the ethnic affiliation of the first Macedonian immigrants cultural organizations and churches in Toronto Why did they use the Bulgarian language Why do their first churches continue to be called Macedono Bulgarian churches Did all immigrants have one monolithic ethnic identity The author relies upon three different types of literature national identity development and theories Balkan history and ethnic studies of the Bulgarian Macedonian and Greek settlements of Toronto Oral interviews conducted in Toronto by the author and other researchers enhance this volume The book sheds light on a much contested subject which continues to fuel debate from Skopje Athens and Sofia to Toronto and Melbourne Publisher's description

Peculiar Liaisons John S. Craig, 2005 Presenting famous and infamous individuals and events that shocked the world and helped set the scene for today's history this book illustrates how little is really known about some of the most dramatic and most studied events Who motivated whom how and why and what counterplots and alternative scenarios may have been at play Terrorism the fomenting of revolution undermining from within and trumped up events to spur a nation to go to war these techniques are not new The public's interest in certain personalities never seems to wane Mata Hari Gavrilo Princip Sidney Reilly T E Lawrence Jimmy Doolittle Hitler Reinhard Heydrich and Lee Harvey Oswald among others Each chapter presents two or three characters and elaborates on their lives and how they relate to historical events in the 20th century The book starts with an incident in 1903 in the Balkans and

moves chronologically forward to the assassination of JFK

Political Handbook of the World 2016-2017 Tom Lansford, 2017-03-31 Published since 1928 the Political Handbook of the World provides timely thorough and accurate political information with more in depth coverage of current political controversies and political parties than any other reference guide The updated 2016 2017 Edition continues this legacy as the most authoritative source for finding complete facts and analysis on each country's governmental and political makeup Political science and international relations scholars have revised this edition and made understanding complex foreign affairs and political situations easy and accessible With more than 200 entries on countries and territories throughout the world housed in one place these volumes are renowned for their extensive coverage of all major and minor political parties and groups in each political system They also provide names of key ambassadors and international memberships of each country plus detailed profiles of more than 30 intergovernmental organizations and United Nations agencies This comprehensive update will include coverage of current events issues crises and controversies from the course of the last two years including The closely watched U S presidential election The effect of the Brexit referendum and installment of a new British prime minister The extensive investigation and subsequent impeachment of Brazil's president The far reaching impact of the Panama Papers scandal Changes in U S Cuba diplomatic relations and the reopening of their embassies The unconstitutional declaration of Gambia as an Islamic State Sentiments about the migrant and refugee crisis across Europe and the influence on policy Also the new For Further Reference feature included for every country entry directs readers to additional resources to continue their research

Democratisation and the Prevention of Violent Conflict Jenny Engström, 2016-12-05 Challenging the often held belief that democratization necessarily leads to aggressive ethnic nationalism and even violent conflict this book offers an alternative account of democratization and inter ethnic relations It suggests that democratization can in fact help to prevent violent conflict in divided societies as demonstrated by two case studies Bulgaria and Macedonia At a time when democracy promotion is increasingly becoming part of international relations and foreign policy this study offers some poignant lessons for democratization and conflict resolution in places such as Iraq Afghanistan and Israel Palestine to name but a few

The Fight for Legitimacy Cindy R. Jebb, P. H. Liotta, Thomas Sherlock, Ruth Margolies Beitler, 2006-07-30 Terrorism cannot be treated as a monolithic threat Moreover as much as we may wish to focus on the terror tactics and terrorist means we cannot overlook the ends In fact good policy can only be crafted with an understanding of the terrorist strategy that is how terrorists integrate their means to secure their goals given their perception of the security environment The groups covered in this book change and evolve While their governments must take aggressive actions to secure their populations against attacks those governments that recognize the real grievances can simultaneously take action that addresses those grievances This two pronged approach simultaneously bolsters state legitimacy across the ethnic and majority populations while demonstrating state effectiveness regarding insecurity The authors argue that the best way for states to win legitimacy is a

vis terrorists is by adhering to liberal democratic values cooperating with other states and applying prudent counterterrorist tactics Inter state cooperation which affects domestic and foreign policies requires some convergence of political cultures among those cooperating states This book begins by analyzing five hotspot situations and their regional effects the Basques in Spain the ethnic Albanians in Macedonia the Kurds in Turkey the Chechens and Russia and the Palestinians Israel and a future Palestinian state These cases shed some light on how we should understand characterize and categorize terrorism and they provide insights into the concepts of political legitimacy liberal democracy political culture and political community As the United States assesses its homeland defense posture it must resist any temptation to weaken its liberal democratic values and as a superpower it must encourage other states to adhere to liberal democratic values as well Liberal democracy is a security imperative in today s global security environment Mother Teresa Gëzim Alpion,2021-12-30 A personality of Mother Teresa s calibre and global reach does not come about by chance To provide a well rounded portrait of this influential figure this book approaches her in the context of her familial background and ethnic cultural and spiritual milieus Her life and work are explored in the light of newly discovered information about her family the Albanian nation s spiritual tradition before and after the advent of Christianity and the impact of the Vatican and other influential powers on her people since the early Middle Ages Focusing on her traumas ordeals and achievements as a private individual and a public missionary and her complex spirituality this book contends that Mother Teresa s life and her nation s history especially her countrymen s relationship with Roman Catholicism are interconnected Unravelling this interconnectedness is essential to understanding how this modern spiritual and humanitarian icon has come to epitomise her ancient nation s cultural and spiritual DNA

Nationalism and Territory George W. White,2000 Why do nations come into conflict What factors lead to the horrors of ethnic cleansing This timely book offers clear eyed answers to these questions by exploring how national identity is shaped by place focusing especially on Serbia Hungary and Romania Moving beyond studies of nationalism that consider only the economic and geostrategic value of territory George W White shows that the very core of national identity is intimately bound to specific places Indeed nations define themselves in terms of spaces that have historical linguistic and religious meaning as Serbs have clearly demonstrated in Kosovo These territories are concrete expressions of a nation s identity both past and present With his detailed analysis of the places that define national identity in Southeastern Europe White convincingly shows why territorial disputes so often escalate into war **Cultural Contestation** Jeroen Rodenberg,Pieter Wagenaar,2018-07-04 Heritage practices often lead to social exclusion as such practices can favor certain values over others In some cases exclusion from a society s symbolic landscape can spark controversy or rouse emotion so much so that they result in cultural contestation Examples of this abound but few studies explicitly analyze the role of government in these instances In this volume scholars from a variety of academic backgrounds examine the various and often conflicting roles governments play in these processes and governments do play a role They act as authors and authorizers of the symbolic

landscape from which societal groups may feel excluded Yet they also often attempt to bring parties together and play a mitigating role Political Handbook of the World 2022-2023 Tom Lansford,Jorge Brown,2023 With more in depth coverage of current political controversies than any other reference guide Political Handbook of the World 2022 2023 is the most authoritative source for finding complete facts and analysis on each countrys governmental and political makeup

Unveiling the Magic of Words: A Report on "**Macedonia And Greece The Struggle To Define A New Balkan Nation**"

In some sort of defined by information and interconnectivity, the enchanting power of words has acquired unparalleled significance.
