Reviving the American Dream Alice M. Rivlin, 1992-05-01 The American dream is fading for nearly two decades the economy has been performing below par the quality of life has deteriorated and the government has not confronted the public problems that concern citizens most In this provocative book Alice Rivlin offers a straightforward nontechnical look at the issues threatening the American dream and proposes a solution restructure responsibilities between the federal and state government Under her plan the federal government would eliminate most of its programs in education housing highways social services economic development and job training enabling it to move the federal budget from deficit toward surplus States would pick up these responsibilities carrying out a productivity agenda to revitalize the American economy Common shared taxes would give the state adequate revenues to carry out their tasks and would reduce intrastate competition and disparities The federal government would be freer to deal with increasingly complex international issues and would retain responsibility for programs requiring national uniformity A primary federal job would be the reform of health care financing to ensure control of costs and to mandate basic insurance coverage for everyone Published in the summer of 1992 *Reviving the American Dream* was read by presidential candidate Bill Clinton by year s end President Clinton appointed its author Alice Rivlin as deputy budget director Today the ideal in Rivlin s book and Rivlin herself are having an impact inside the administration Selected as one of *Choice* magazine s Outstanding Books of 1993

Speaking Truth to Power Aaron Wildavsky, 2017-09-29 One of the foremost experts in public policy here attempts not only to describe what public policy is but given societal changes in the last two decades to account for its present status To learn from the past in order to establish public policy as a discipline in its own right Wildavsky traces its motifs from their beginnings in the 1960s to the 1980s Starting from the premise that there has been growing polarization of political elites he shows how public policy as a field has had to face increased politicization For Wildavsky the field of public policy needs to incorporate more awareness of the human aspects of policy making he emphasizes the political choices to be made in a competitive environment and the social relations that sustain them When the first specialist schools devoted solely to public policy came into existence in the 1960s the programs of the Great Society were their main impetus With the disillusionment and failure of the Great Society the identity of public policy became transformed New theoretical issues had to be addressed In this volume Wildavsky provides a foundation for the theory no less than the practice of policy making Aaron Wildavsky is professor of political science University of California Berkeley He founded the School of Public Policy there and is presently its Director He was formerly Director of the Russell Sage Foundation He was the President if the American Political Science Association for the years 1986 1987 **U.S.**

Environmental Protection Agency Library System Book Catalog United States. Environmental Protection Agency. Library Systems Branch, 1975 Housing and Planning References , 1970 *Renewing Birmingham* Christopher MacGregor Scribner, 2002 *Renewing Birmingham* is the first book length study of how federal funding helped transform a twentieth century southern city Christopher MacGregor Scribner shows that such funding not only aided Birmingham s transition from an industrial to a service economy but also led to redrawn avenues of power influence and justice in the city By the 1960s Alabama s largest city faced wrenching changes brought on by economic decline suburbanization and racial tension Decades in the making these problems pitted old guard politicians manufacturing elites and working class whites against an alternative vision kindled by federal dollars of Birmingham s future Scribner uses the Birmingham experience to trace the evolution of federal grants from extensions of Depression era fiscal policy to instruments of social change As he discusses federal backing of projects ranging from low income housing to the University of Alabama Medical College Scribner also shows how control of the grant purse which once belonged exclusively to politicians came to be shared with bureaucrats and activists local and federal participants and blacks and whites Most important in Birmingham s case debates over spending drew in entrepreneurs in fields as diverse as biomedicine and education real estate and construction This complicated bargaining and coalition building sparked a quiet revolution that had begun hollowing out the core of Birmingham s old order even as civil rights protests cemented the city s segregationist reputation Scribner stresses that the social benefits of Birmingham s economic rebirth reflected not so much a change of heart for the city as an admission that segregation was simply bad for business As a new Birmingham ascended and became less distinguishable from other American cities aspects of its racist elitist past persisted In learning the particulars of Birmingham we come closer to understanding how the South can be at odds with the rest of the country even as it participates in national trends
