Making Of A Slum:

The Making of a Slum Michael Dorman, 1972 This book presents a smoothly written journalistic account of the decline of an urban neighborhood Hunt s Point in the Bronx New York City The author contrasts the stability and sense of community in Hunt s Point before World War II with the decayed heroin scarred slum of the late 1960s and early 1970s Includes worthwhile interviews and has a good reporter s feel for letting people express themselves but the standard prescriptions for change which have been repeated for two decades offer nothing new

Making the Modern Slum Sheetal Chhabria, 2019-12-06 In the late nineteenth and early twentieth centuries Bombay was beset by crises such as famine and plague Yet rather than halting the flow of capital these crises served to secure it In colonial Bombay capitalists and governors Indian and British alike used moments of crisis to justify interventions that delimited the city as a distinct object and progressively excluded laborers and migrants from it Town planners financiers and property developers joined forces to secure the city as a space for commerce and encoded shelter types as legitimate or illegitimate By the early twentieth century the slum emerged as a particularly useful category of stigmatization that would animate city making projects in subsequent decades Sheetal Chhabria locates the origins of Bombay s now infamous slum problem in the broader histories of colonialism and capitalism She not only challenges assumptions about colonial urbanization and cities in the global south but also provides a new analytical approach to urban history Making the Modern Slum shows how the wellbeing of the city rather than of its people became an increasingly urgent goal of government positioning agrarian distress famished migrants and the laboring poor as threats to be contained or excluded

Slum Development in India Sulochana Shekhar, 2021-04-01 This book is an earnest effort in understanding the slums and their needs by taking a case study of Kalaburagi India This study aims to contribute sustainable methodologies to advance the living conditions of slum dwellers and for better execution of slum policies The core objectives are 1 mapping the existing slums of Kalaburagi formerly Gulbarga city using slum ontology from very high resolution data and validating the slum map through ground survey and using reliable data 2 developing a model to understand the factors which are responsible for the present growth as well as to predict the future growth of slums 3 estimating the housing demand of urban poor and suggesting a suitable site for the rehabilitation program and 4 suggestions for the better intervention of government policies with special reference to in situ program Urban is the future and slums are its reality Sustainable development goals are directly and indirectly concerned about the increasing urbanization and the slums Housing the urban poor and affordable housing to all are the national missions Practically making these plans successful depends on a deep understanding of urban issues and proper methodology and technology to handle it The participatory slum mapping cellular automata slum model housing demand analysis and the spatial decision support system demonstrated in the book help in monitoring and managing the slums and thus lead towards a slum free India

The Making of an American Jacob August Riis, 1922 *Urban and Regional Planning and Development* Rajiv R.

Thakur,Ashok K. Dutt,Sudhir K. Thakur,George M. Pomeroy,2020-02-10 This book discusses urban planning and regional development practices in the twentieth century and ways in which they are currently being transformed It addresses questions such as What are the factors affecting planning dynamics at local regional national and global scales With the push to adopt a market paradigm in land development and infrastructure the relationship between resource management sustainable development and the role of governance has been transformed Centralized planning is giving way to privatization not only in the traditional regions but also in newly emerging regions of Asia Africa and Latin America Further attempts are being made to bring planning related decision making closer to the people who are most affected by it Presenting a collection of studies from scholars around the world and highlighting recent advances in the field the book is a valuable reference guide for those engaged in urban transformations whether as graduate students researchers practitioners or policymakers

Satterthwaite,2005 Slums Alan Mayne,2017-08-15 More than half of the world s population now lives in urban areas and a billion of these urban dwellers reside in neighborhoods of entrenched disadvantage neighborhoods that are characterized as slums Slums are often seen as a debilitating and even subversive presence within society In reality though it is public policies that are often at fault not the people who live in these neighborhoods In this comprehensive global history Alan Mayne explores the evolution and meaning of the word slum from its origins in London in the early nineteenth century to its use as a slur against the favela communities in the lead up to the Rio Olympics in 2016 Mayne shows how the word slum has been extensively used for two hundred years to condemn and disparage poor communities with the result that these agendas are now indivisible from the word s essence He probes beyond the stereotypes of deviance social disorganization inertia and degraded environments to explore the spatial coherence collective sense of community and effective social organization of poor and marginalized neighborhoods over the last two centuries In mounting a case for the word s elimination from the language of progressive urban social reform Slums is a must read book for all those interested in social history and the importance of the world s vibrant and vital neighborhoods Inside the Transforming Urban Asia Darshini Mahadevia,2008

Contributed articles chiefly with reference to India and China **The Politics of Urban Land in South Asia** Urmi Sengupta,Kenneth Nielsen,2025-03-18 Cities in South Asia are homes to one of the highest concentrations of people anywhere in the world and the allocation of land and urban resources and the benefits that can be derived from them in this region have become increasingly contested This book explores the politics of urban land in South Asia and the challenges

related to their respective urban futures For most people land comes at a premium and as a result conflicts and contestations over land and urban resources are rife in countries such as India Bangladesh Pakistan Sri Lanka and Nepal as witnessed in the many struggles of low income groups and vulnerable or marginalised communities to fight off dispossession or displacement This book maps current challenges shared across national borders and charts out new directions for future research and land policy With contributions from emerging and established authors the book offers a critical accounting of the situation that exists in urban South Asia while also critically engaging with the current challenges and future directions for land use and land politics The book will be useful to students and researchers of public policy development studies economics urban and regional development studies and sociology as well as to policy makers real estate professionals and commercial firms engaged in property market real estate study in Asia Chapter 10 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license

Housing for All A.K. Jain, This book titled Housing for All Design Construction and Management by A K Jain is a comprehensive assessment of the housing situation in India which not only traces the path taken by governments so far but also outlines a roadmap for the future The book begins with an overview of the housing scenario in India It discusses various housing programmes and draws a distinction between affordable housing and adequate housing The book also draws particular attention to housing issues of special groups such as the elderly disabled homeless migrant and transit workers students and single women There is also a discussion on the issue of social and physical infrastructure The book notes that housing units alone do not constitute housing but infrastructure plays a critical role in the occupancy of housing The question of reducing the cost of housing has been vexatious for long Jain deals with this issue in detail and suggests various low cost technologies and house building systems for making housing more affordable Another issue is that of rental housing Jain suggests that giving a boost to rental housing through a slew of measures can go a long way in making housing more accessible and bring vacant housing into the market
