**The Making of Mission Communities in East Africa** Robert W. Strayer, 1978-01-01 The Making of Mission Communities in East Africa calls into question a number of common assumptions about the encounter between European missionaries and African societies in colonial Kenya The book explores the origins of those communities associated with the Anglican Church Missionary Society from 1875 to 1935 examines the development within them of a mission culture probes their internal conflicts and tensions and details their relationship to the larger colonial society Professor Strayer argues that genuinely religious issues were important in the formation of these communities that missionaries were ambivalent in their attitudes toward modernizing change and the colonial state alike and that mission communities possessed substantial attractions even in the face of competition with independent churches Dr John Lonsdale of Trinity College Cambridge has said that It is a sensitive piece of revisionist history which breaks down the simple dichotomy of missions and Africans commonly found in earlier historiographies and even in the period of profound crisis over female circumcision in Kikuyuland In this Professor Strayer shows convincingly how mission communities could be preserved from destruction by principled divisions between Africans as much as between their white missionaries He has pursued themes rather than events and has therefore been able to make remarkably intimate observations of mission communities which were following their own internal patterns of growth yet within the context of a deepening situation of colonial dependence

Missionary Encounters Robert A. Bickers, Rosemary Seton, 2013-11-05 Describes the exceptional wealth of missionary archives and the major contributions

they can make not only to the study of the processes of Christian evangelism and Western imperialism but also their value in documenting and analysing the nature of Western encounters with indigenous societies     *The Making of Mission Communities in East Africa* Robert W. Strayer,1978     Activists beyond Borders Margaret E. Keck,Kathryn Sikkink,2014-01-17 In *Activists beyond Borders* Margaret E Keck and Kathryn Sikkink examine a type of pressure group that has been largely ignored by political analysts networks of activists that coalesce and operate across national frontiers Their targets may be international organizations or the policies of particular states Historical examples of such transborder alliances include anti slavery and woman suffrage campaigns In the past two decades transnational activism has had a significant impact in human rights especially in Latin America and advocacy networks have strongly influenced environmental politics as well The authors also examine the emergence of an international campaign around violence against women     **The Oxford History of Anglicanism, Volume V** William L. Sachs,2017-12-15 The Oxford History of Anglicanism provides a global study of Anglicanism from the sixteenth century to the twenty first The five volumes in the series look at how Anglican identity was constructed and contested since the English Reformation of the sixteenth century and examine its historical influence during the past six centuries They consider not only the ecclesiastical and theological aspects of global Anglicanism but also the political social economic and cultural influences of this form of Christianity that has been historically significant in Western culture and a burgeoning force in non Western societies since the nineteenth century Written by international experts in their various historical fields each volumes analyses the varieties of Anglicanism that have emerged The series also highlights the formal political institutional and ecclesiastical forces that have shaped a global Anglicanism and the interaction of Anglicanism with informal and external influences which have both moulded Anglicanism and been fashioned by it Volume five of The Oxford History of Anglicanism considers the global experience of the Church of England in mission and in the transitions of its mission Churches towards autonomy in the twentieth century The Church developed institutionally yet more than the institutional history of the Church of England and its spheres of influence is probed The contributors focus on what it has meant to be Anglican in diverse contexts What spread from England was not simply a religious institution but the religious tradition it intended to implant The volume addresses questions of the conduct of mission its intended and unintended consequences It offers important insights on what decolonization meant for Anglicans as the mission Church in various global locations became self reliant This study breaks new ground in describing the emergence of an Anglicanism shaped more contextually than externally It illustrates how Anglicanism became enculturated across a broad swath of cultural contexts The influence of context and the challenge of adaption to it framed Anglicanism s twentieth century experience     *The Oxford History of Anglicanism* Anthony Milton,Jeremy Gregory,Rowan Strong,William L. Sachs,Jeremy Morris,2017 The Oxford History of Anglicanism provides a global study of Anglicanism from the sixteenth century to the twenty first The five volumes in the series look at how Anglican identity was constructed and

contested since the English Reformation of the sixteenth century and examine its historical influence during the past six centuries. They consider not only the ecclesiastical and theological aspects of global Anglicanism but also the political, social, economic, and cultural influences of this form of Christianity that has been historically significant in Western culture and a burgeoning force in non-Western societies since the nineteenth century. Written by international experts in their various historical fields, each volume analyses the varieties of Anglicanism that have emerged. The series also highlights the formal political, institutional, and ecclesiastical forces that have shaped a global Anglicanism and the interaction of Anglicanism with informal and external influences which have both moulded Anglicanism and been fashioned by it. Volume five of *The Oxford History of Anglicanism* considers the global experience of the Church of England in mission and in the transitions of its mission churches towards autonomy in the twentieth century. The Church developed institutionally yet more than the institutional history of the Church of England and its spheres of influence is probed. The contributors focus on what it has meant to be Anglican in diverse contexts. What spread from England was not simply a religious institution but the religious tradition it intended to implant. The volume addresses questions of the conduct of mission, its intended and unintended consequences. It offers important insights on what decolonization meant for Anglicans as the mission church in various global locations became self-reliant. This study breaks new ground in describing the emergence of an Anglicanism shaped more contextually than externally. It illustrates how Anglicanism became enculturated across a broad swath of cultural contexts. The influence of context and the challenge of adaptation to it framed Anglicanism's twentieth-century experience.

**Religion Versus Empire?** Andrew Porter, 2004-10-29. This is the only book that addresses the relations between religion, Protestant missions, and empire building, linking together all three fields of study by taking as its starting point the early eighteenth-century Anglican initiatives in colonial North America and the Caribbean. It considers how the early societies of the 1790s built on this inheritance and extended their own interests to the Pacific, India, the Far East, and Africa. Fluctuations in the vigor and commitment of the missions, changing missionary theologies, and the emergence of alternative missionary strategies are all examined for their impact on imperial expansion. Other themes include the international character of the missionary movement, Christianity's encounter with Islam, and major figures such as David Livingstone, the state, and politics, and humanitarianism, all of which are viewed in a fresh light.

**A History of Global Anglicanism** Kevin Ward, 2006-11-23. Anglicanism can be seen as irredeemably English. In this book, Kevin Ward questions that assumption. He explores the character of the African, Asian, Oceanic, Caribbean, and Latin American churches, which are now a majority in the world-wide communion, and shows how they are decisively shaping what it means to be Anglican. While emphasising the importance of colonialism and neo-colonialism for explaining the globalisation of Anglicanism, Ward does not focus predominantly on the Churches of Britain and North America, nor does he privilege the idea of Anglicanism as an expansion of English Christianity. At a time when Anglicanism faces the danger of dissolution, Ward explores the historically deep roots of non-Western forms of

Anglicanism and the importance of the diversity and flexibility which has so far enabled Anglicanism to develop cohesive yet multiform identities around the world

**The Origins of the New Churches Movement in Southern Ethiopia, 1927-1944** Brian L. Fargher, 2023-09-20 This study describes the beginnings of a movement which has created another face for Ethiopian Christianity The expatriate missionary evangelists who in 1927 were encouraged by Emperor Haile Selassie to work in southern Ethiopia intentionally by passed the Orthodox model and made a fresh start Three of the many facets of the movement comprise the body of the book There is the religious backdrop of Orthodox Christianity and the expatriates fundamentalist traditions then the praxis and polity of their work finally the post Occupation outcome which confirmed their choices Since its beginning in 1932 the New Churches Movement has impacted every part of Ethiopian society religious political and socio economic It demonstrates that a fresh start can be complementary rather than competitive The movement s success encourages missionary evangelists to continue making new beginnings

*Church, State and Society in Kenya* Galia Sabar, 2012-12-06 This volume offers a debate on the role of Christianity in post colonial Kenya charting the role of the church state and society in the transformation of Kenya and the relationship between the three It shows how the church initiated health education and economic activities showing it to be a major instrument of transformation

**A History of the Church in Africa** Bengt Sundkler, Christopher Steed, 2000-05-04 Bengt Sundkler s long awaited book on African Christian churches will become the standard reference for the subject

Re-Imaging Modernity Gregg A. Okesson, 2012-10-03 This is a book about Christianity in one particular region in Kenya It walks into churches listens to sermons dances to music and interviews the people sitting in the pews all with the aim of understanding how spiritual power enables these churches to function as agents within their contemporary society Ecclesiastical communities in Africa draw upon divine power in order to engage in modernity related topics Humans are not unresponsive to global flows of meaning they are integrative agents who fashion their world by living in it The kind of modernity arising from these churches does not blindly follow Western forms but flows from its own internal logic in which spiritual power occupies central hermeneutical function Theological resources contribute to the formation of sociological expressions Divine power pertains directly to human constructs which then allows the churches to actively image God for the development of unique forms of modernity arising on the continent

Colonial Kenya Observed S. H. Fazan, 2014-11-14 The coast of East Africa was considered a strategically invaluable region for the establishment of trading ports both for Arab and Persian merchants long prior to invasion and conquest by Europeans In the initial stages of the scramble for Africa in the 18th century control of the area was an aspiration for every colonial nation in Europe but it was not until 1895 that it was finally dominated by a sole power and proclaimed The Protectorate of British East Africa In the early 20th century the coast was brimming with vitality as immigrants colonisers and missionaries from Arabia India and Europe poured in to take advantage of growing commercial opportunities including the prospect of enslaving millions of native Africans The development of Kenya is an exceptional tale

within the history of British rule in perhaps no other colony did nationalistic feeling evolve in conditions of such extensive social and political change In 1911 S H Fazan sailed to what later became the Republic of Kenya to work for the colonial government Immersing himself in knowledge of traditional language and law he recorded the vast changes to local culture that he encountered after decades of working with both the British administration and the Kenyan people This work charts the sweeping tide of social change that occurred through his career with the clarity and insight that comes with a total intimacy of a country His memoirs examine the fascinating complexity of interaction between the colonial and native courts commercial land reform and the revolutionised dynamic of labour relations By further unearthing the political tensions that climaxed with the Mau Mau Revolt of 1952 1960 this invaluable work on the European colonial period paints a comprehensive and revealing firsthand account for anyone with an interest in British and African history Fazan s story

provides a quite unparalleled view of colonial Africa and the conduct of Empire across half a century Women of Fire and Spirit Cynthia Hoehler-Fatton,1996-04-11 The African Christian Roho religion or Holy Spirit movement is a charismatic and prophetic movement that arose in the Luo region of western Kenya This movement has fascinated students of history and religion for more than sixty years but surprisingly has not been extensively studied This book fills that lacuna In Women of Fire and Spirit Cynthia Hoehler Fatton uses the extensive oral histories and life narratives of active participants in the faith giving them full voice in constructing the history of their Church In doing so she counter balances the existing historical literature which draws heavily on colonial records Hoehler Fatton s sources call into question the paradigm of schism that has dominated the discussion of African independent Christianity Faith rather than schism or politics emerges here as the hallmark of Roho religion Hoehler Fatton s book is doubly unusual in foregrounding the role of women in the evolution and expansion of their Church She traces the gradual transformation of women s involvement from the early years when drawing on indigenous models of female spirit possession women acted as soldiers headed congregations and served as pastors to the present condition of Western style institutionalization and exclusion for women Despite this marginalization women members continue to be inspired by the defiance of past heroines **The Anti-Slavery Project** Joel Quirk,2011-05-26 It is commonly

assumed that slavery came to an end in the nineteenth century While slavery in the Americas officially ended in 1888 millions of slaves remained in bondage across Africa Asia and the Middle East well into the first half of the twentieth century Wherever laws against slavery were introduced governments found ways of continuing similar forms of coercion and exploitation such as forced bonded and indentured labor Every country in the world has now abolished slavery yet millions of people continue to find themselves subject to contemporary forms of slavery such as human trafficking wartime enslavement and the worst forms of child labor The Anti Slavery Project From the Slave Trade to Human Trafficking offers an innovative study in the attempt to understand and eradicate these ongoing human rights abuses In The Anti Slavery Project historian and human rights expert Joel Quirk examines the evolution of political opposition to slavery from the mid eighteenth century

to the present day Beginning with the abolitionist movement in the British Empire Quirk analyzes the philosophical economic and cultural shifts that eventually resulted in the legal abolition of slavery By viewing the legal abolition of slavery as a cautious first step rather than the end of the story he demonstrates that modern anti slavery activism can be best understood as the latest phase in an evolving response to the historical shortcomings of earlier forms of political activism By exposing the historical and cultural roots of contemporary slavery The Anti Slavery Project presents an original diagnosis of the underlying causes driving one of the most pressing human rights problems in the world today It offers valuable insights for historians political scientists policy makers and activists seeking to combat slavery in all its forms

**Khoesan and Imperial Citizenship in Nineteenth Century South Africa** Jared McDonald,2023-04-24 This volume explores the formative and expressive dynamics of Khoesan identity during a crucial period of incorporation as an underclass into Cape colonial society Khoesan and Imperial Citizenship in Nineteenth Century South Africa emphasises loyalism and subjecthood posited as imperial citizenship as foundational aspects of Khoesan resistance to the debilitating effects of settler colonialism The work argues that Khoesan were active in the creation of their identity as imperial citizens and that expressions of loyalty to the British Crown were reflective of a political and civic consciousness that transcended their racially defined place in Cape colonial society Following a chronological trajectory from the mid 1790s to the late 1850s author Jared McDonald examines the combined influences of colonial law evangelical humanitarianism imperial commissions of inquiry and the abolition of slavery as conduits for the notion of imperial citizenship As histories and legacies of colonialism come under increasing scrutiny the history of the Khoesan during this period highlights the complex nature of power and its imposition and the myriad nuanced ways in which the oppressed react resist and engage This book will be of interest to scholars and students working on British imperialism in Africa as well as histories of settler colonialism nationalism and loyalism

**Communal Labor in Colonial Kenya** O. Okia,2012-07-25 This book advances research into the government forced labor used widely in colonial Kenya from 1930 to 1963 after the passage of the International Labor Organization s Forced Labour Convention While the 1930 Convention intended to mark the suppression of forced labor practices various exemptions meant that many coercive labor practices continued in colonial territories Focusing on East Africa and the Kenya Colony this book shows how the colonial administration was able to exploit the exemption clause for communal labor thus ensuring the mobilization of African labor for infrastructure development As an exemption communal labor was not defined as forced labor but instead justified as a continuation of traditional African and community labor practices Despite this ideological justification the book shows that communal labour was indeed an intensification of coercive labor practices and one that penalized Africans for non compliance with fines or imprisonment The use of forced labor before and after the passage of the Convention is examined with a focus on its use during World War II as well as in efforts to combat soil erosion in the rural African reserve areas in Kenya The exploitation of female labor the Mau Mau war of the 1950s civilian protests

and the regeneration of communal labor as harambee after independence are also discussed **Gender and Development**

Emily Awino Onyango, 2018-10-31 For a long time African history has been dominated by western perspectives through predominantly male accounts of colonial governments and missionaries In contrast Dr Emily Onyango provides an African history of mission education development and women's roles in Kenya Based on archival research and interviews of primary sources this book explores the relationship of these areas of history with each other focusing on the Luo culture and the period of 1895 to 2000 With the pre colonial African context as the foundation for understanding and writing history Dr Onyango uses gender to analyze the role of Christian missionaries in the development of women's education and their position in Kenyan society The result of this well researched study is not only a challenge to the traditional understanding of history but also a counternarrative to the common view that to be liberated African women must disregard Christianity Rather she looks at the importance Christianity plays in helping women establish themselves economically politically and socially in Kenyan society This research is a vital contribution to women's history and the history of Christianity in Africa
